Jushi Holdings Inc. Reports First Quarter 2024 Financial Results

Expanded Gross Profit Margin to 49.4% Following Strong Execution of Operational Improvement Plan

Net Loss of \$18.4 Million, Compared to \$12.4 Million in Q1 2023

Grew Adjusted EBITDA and Adjusted EBITDA Margin to \$13.3 Million and 20.4% Respectively

Accelerated Product and Brand Development with the Launch of 443 New Unique SKUs in Q1 2024

BOCA RATON, Fla., May 09, 2024 (GLOBE NEWSWIRE) -- [Jushi Holdings Inc.](#) (“Jushi” or the “Company”) ([CSE: JUSH](#)) ([OTCQX: JUSHF](#)), a vertically integrated, multi-state cannabis operator, is pleased to announce its financial results for the first quarter ended March 31, 2024 (“Q1 2024”). All financial information is unaudited and provided in U.S. dollars unless otherwise indicated and is prepared under U.S. Generally Accepted Accounting Principles (“GAAP”).

First Quarter 2024 Financial Highlights¹

- Total revenue of \$65.5 million
- Gross profit and gross profit margin of \$32.3 million and 49.4%, respectively
- Net loss of \$18.4 million
- Adjusted EBITDA¹ of \$13.3 million, an improvement of \$5.7 million year-over-year
- Adjusted EBITDA¹ margin of 20.4%
- Cash, cash equivalents, and restricted cash of \$30.6 million as of quarter end
- Net cash flows provided by operations of \$6.5 million

¹ See “Use of Non-GAAP Financial Information” and “Unaudited Reconciliation of Net Income (Loss) to Adjusted EBITDA and Calculation of Adjusted EBITDA Margin” below.

First Quarter 2024 Company Highlights

- Introduced 443 new unique SKUs across the Company’s five vertical markets, an

increase of more than 153% compared to new unique SKUs launched in the fourth quarter of 2023 ("Q4 2023").

- Increased Jushi-branded product sales as a percentage of total retail revenue across the Company's five vertical markets from approximately 49.6% in the first quarter of 2023 ("Q1 2023") to approximately 54.4%.
- Opened 17th Beyond Hello™ dispensary in Pennsylvania in the city of Mount Pocono.
- Continued progress on the Company's debt reduction plan with a scheduled payment of approximately \$2.4 million made on its first lien financing with SunStream Bancorp Inc.
- Refinanced approximately \$9.9 million of unsecured debt with \$4.8 million principal amount of Second Lien Notes, fully detached warrants to purchase an aggregate of 1,800,000 of the Company's Subordinate Voting Shares ("SVS"), with an exercise price of \$1.00 per SVS, and \$2.8 million cash payment.

Post Quarter-End Developments

- Strengthened operational improvement plan roll-out and bolstered senior management team with the appointment of Todd West as Chief Operating Officer. Mr. West brings over 25 years of operations management experience in retail, manufacturing, and wholesale, including five years in cannabis.
- Further reduced debt with the April scheduled payment of approximately \$2.4 million made on the Company's first lien financing with SunStream Bancorp Inc.
- Obtained the release of approximately \$3.1 million of restricted cash in connection with the Company's Manassas, Virginia mortgage.

Management Commentary

"Our organization-wide commitment to delivering margin improvement is continuing to have a strong impact on our profitability," said Jim Cacioppo, Chief Executive Officer, Chairman, and Founder of Jushi. "I am proud to share that our Q1 2024 gross profit margin is up to 49.4%, with Adjusted EBITDA further improving to 20.4% of revenue for the quarter. While our revenue during the quarter was impacted by seasonal factors, including fewer sales days from the shorter month in February, a reduction in consumer spending post-holidays, and weather-related closures, the enhancements we have made at our grower-processors continue to drive bottom-line growth. Furthermore, we continued to reduce our debt and de-lever our balance sheet."

Mr. Cacioppo continued, "Delivering new and engaging high-margin products remains a cornerstone of our operational improvement plan and our talented team continues to create products that resonate strongly with consumers. In the first quarter alone, we launched an astounding 443 new and unique SKUs throughout our five vertical markets. While we continue to diversify our product offerings, we have steadily expanded our Jushi-branded product sales, reaching approximately 54.4% of total retail revenue across our five vertical markets this past quarter."

Mr. Cacioppo concluded, “The recent appointment of Todd West as Chief Operating Officer will enable us to further accelerate optimization initiatives across the organization and enhance organization-wide collaboration. This includes reducing green waste and improving yields and potency, as well as ensuring strong alignment of our retail stores and grower-processor operations to drive efficiencies and elevate consumer experiences. Additionally, our positioning in high-growth markets has provided an encouraging start to 2024, and we believe there are several exciting regulatory developments on the horizon.”

Revenue in Q1 2024 decreased 6.3% to \$65.5 million as compared to \$69.9 million in Q1 2023. The year-over-year decrease in revenue can be attributed to a reduction in Illinois sales, due to the impact of the state of Missouri moving to recreational use, and reduction in Nevada and Pennsylvania sales, due to market price compression and increased competition. The decrease was partially offset by increased sales in Virginia due in part to the opening of one new store in August 2023.

The Company ended the quarter with thirty-five operating dispensaries in seven states, as compared to thirty-four in seven states at the end of Q4 2023. Additionally, Jushi-branded product sales grew to approximately 54.4% of total retail sales in the Company's five vertical markets in Q1 2024.

Wholesale revenue increased 7.0% year-over-year to \$8.1 million in Q1 2024 due to continued advancements at our grower-processor facilities, which has enabled us to diversify our product offerings, as well as increase our competitiveness on quality, cost and distribution.

Gross profit in Q1 2024 was \$32.3 million, or 49.4% of revenue, compared to \$29.9 million, or 42.9% of revenue in Q1 2023. The improvements in gross profit and gross profit margin were driven by operating efficiencies at the Company's grower-processor facilities, in addition to cost optimization initiatives, such as changes to our packaging. The benefit of these improvements was partially offset by declines in retail revenue in Illinois and Pennsylvania driven by increased competition in-state, and with respect to Illinois, from neighboring Missouri.

Operating expenses for Q1 2024 were \$28.2 million, compared to \$32.5 million in Q1 2023, a reduction of \$4.2 million or 13.1% year-over-year. Salaries, wages, and employee-related expenses decreased due to the benefits from both staffing model changes in the retail stores and right-sizing the organization that occurred in 2023. Lower share-based compensation expense attributable to lower values of share-based compensation granted also contributed

to the decrease in operating expenses.

Net loss for Q1 2024 was \$18.4 million, primarily due to other expense, net of \$12.7 million and income tax expense of \$9.7 million, which was partially offset by income from operations of \$4.1 million. Other expense, net, included interest expense of \$9.5 million and fair value loss on derivatives of \$5.1 million, which was partially offset by other income, net of \$1.9 million.

Adjusted EBITDA¹ in Q1 2024 was \$13.3 million compared to \$7.6 million in Q1 2023, representing an improvement of \$5.7 million year-over-year.

UNAUDITED RECONCILIATION OF NET INCOME (LOSS) TO ADJUSTED EBITDA
and CALCULATION OF ADJUSTED EBITDA MARGIN

EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin

In addition to providing financial measurements based on GAAP, we provide additional financial metrics that are not prepared in accordance with GAAP. We use non-GAAP financial measures, in addition to GAAP financial measures, to understand and compare operating results across accounting periods, for financial and operational decision making, for planning and forecasting purposes and to evaluate our financial performance. These non-GAAP financial measures are EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin (each as defined below). We believe that these non-GAAP financial measures reflect our ongoing business by excluding the effects of expenses that are not reflective of our operating business performance and allow for meaningful comparisons and analysis of trends in our business. These non-GAAP financial measures also facilitate comparing financial results across accounting periods and to those of peer companies. As there are no standardized methods of calculating these non-GAAP measures, our methods may differ from those used by others, and accordingly, the use of these measures may not be directly comparable to similar measures used by others, thus limiting their usefulness. Accordingly, these non-GAAP measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin are financial measures that are not defined under GAAP. We define EBITDA as net income (loss), or “earnings”, before interest, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA before: (i) non-cash share-based compensation expense; (ii) inventory-related adjustments; (iii) fair value changes in derivatives; (iv) other (income)/expense items; (v) transaction costs; (vi) asset impairment; (vii) gain/loss on debt extinguishment; and (viii) start-up costs. Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue. These financial measures are metrics that have been adjusted from the GAAP net income (loss) measure in an effort to provide readers with a normalized metric in making comparisons more meaningful across the cannabis industry, as well as to remove non-recurring, irregular and one-time items that may otherwise distort the GAAP net income measure. Other

companies in our industry may calculate this measure differently, limiting their usefulness as comparative measures.
