Income (Loss) to Adjusted EBITDA and Calculation of Adjusted EBITDA Margin” below.

Fourth Quarter 2024 Company Highlights

- Achieved strong Jushi-branded product sales representing approximately 55% of total retail revenue in Q4 2024 across the Company’s five vertical markets.
- Advanced the Company’s retail-first expansion strategy by entering into management service agreements with two operating dispensaries in Oxford and Toledo, Ohio and two provisionally licensed dispensaries sited in Warren and Mansfield, Ohio, and opened our fifth Illinois Beyond Hello™ dispensary in Peoria.
- Introduced 415 new unique SKUs throughout the Company’s five vertical markets across a variety of formats, including flower, pre-rolls, edibles, and concentrates.
- Launched a new edibles brand, "Uncommon Kind", in Massachusetts, Pennsylvania, and Virginia. The new offering features high-quality chews crafted with RSO, live resin, or live rosin concentrates.

Post Quarter-End Developments

- Debuted our latest premium flower brand, "Flower Foundry", in Virginia. Since its launch in mid-February, the brand has quickly secured its position as the top-selling Jushi-branded SKU in the state.
- Strengthened the balance sheet through the factoring of approximately \$6.0 million of employee retention credit ("ERC") claims for approximately \$5.1 million in net cash proceeds. The Company is also entitled to receive a portion of any interest paid on the respective ERC claims.
- On February 21, 2025, following receipt of regulatory approvals, closed on the acquisition of the two operating dispensaries in Oxford and Toledo, Ohio that previously had been operated under the management services agreements.
- On February 22, 2025, opened a new Beyond Hello™ location in Warren, Ohio, marking the fourth operating Beyond Hello™ dispensary in the state that we are operating under a management service agreement.
- On February 25, 2025, issued 12% second lien notes due in 2026 in the principal amount of approximately US\$5.1 million, from which the Company received net cash proceeds of US\$4.6 million.
- On February 25, 2025, opened a relocated dispensary in Linwood, Pennsylvania, marking our 18th Beyond Hello™ dispensary in the state.

Management Commentary

“I am pleased with the progress we made in 2024 to strengthen our platform, particularly in reducing debt, enhancing our balance sheet, and improving cash flows from operations – efforts that we believe have positioned us well for our next phase of growth,” said Jim Cacioppo, Chief Executive Officer, Chairman, and Founder of Jushi. “As we moved into the second half of 2024, our focus transitioned from debt reduction and capital optimization to driving growth and advancing our retail-first growth strategy through the expansion of our flagship retail banner, Beyond Hello™, which has established a strong reputation across our footprint.”

Mr. Cacioppo continued, “Looking ahead to 2025, we remain committed to building upon this momentum by expanding our retail network across our core footprint with our 7 and 7

initiative, which is our plan to expand our retail presence by 40% by mid-2026 starting with the opening of seven new dispensaries by mid-2025. With five new dispensaries open since the end of Q3 2024 and three more planned before the end of the third quarter, we've made good progress on the initial phase of our 7 and 7 initiative and intend to focus the next phase on opportunities in Illinois and Pennsylvania and high-growth markets such as New Jersey and Ohio. We believe this expansion is poised to drive both revenue and profitability, while enhancing operational efficiency and margin expansion. On top of that, we believe our continuous product innovations, highlighted by the recent successful launch of the Flower Foundry brand in Virginia, position us to provide even greater value to our customers and patients, setting the foundation for long-term success."

Revenue for Q4 2024 decreased by \$1.9 million as compared to the fourth quarter of 2023 ("Q4 2023"). For FY 2024, revenue decreased by \$11.9 million as compared to the year 2023 ("FY 2023").

Retail revenue for Q4 2024 decreased \$0.8 million as compared to Q4 2023, and for FY 2024 decreased \$11.4 million as compared to FY 2023. Retail revenue decreased in all states except Virginia and Ohio due to increased competition and market price compression. In Virginia, retail revenue for Q4 2024 increased \$1.9 million as compared to Q4 2023, and increased \$7.2 million in FY 2024 as compared to FY 2023. This growth was driven by strong overall performance across all locations, with newer stores continuing to ramp up. In Ohio, retail revenue in Q4 2024 increased \$2.4 million as compared to Q4 2023 and increased \$3.5 million in FY 2024 as compared to FY 2023 due to: (i) the transition to adult-use during Q3 2024; and (ii) the addition of two co-located medical and adult-use dispensaries that were consolidated beginning in Q4 2024 as a result of the Company entering into management service agreements with two operating dispensaries in Oxford and Toledo, Ohio. Including these two co-located medical and adult-use dispensaries in Ohio, we ended Q4 2024 with thirty-eight operating dispensaries in seven states, as compared to thirty-four in seven states at the end of Q4 2023.

Wholesale revenue for Q4 2024 decreased \$1.1 million as compared to Q4 2023, and for FY 2024 decreased \$0.5 million as compared to FY 2023. The decrease is primarily due to decreases in Massachusetts and Pennsylvania because of continued competition and limited availability of products available to third parties due to production challenges, resulting in us prioritizing supplying our retail stores. These decreases were partially offset by wholesale revenue growth in Virginia of \$0.6 million for Q4 2024 as compared to Q4 2023, and \$4.3 million for FY 2024 as compared to FY 2023, as the cultivation and

processing facility in Virginia matured and had more product available for sale to third-parties.

Gross profit margin decreased to 38.6% for Q4 2024 as compared to 40.2% for Q4 2023, primarily due to production challenges in our wholesale channel during Q4 2024. For FY 2024, gross profit margin increased to 45.9% as compared to 43.1% for FY 2023, driven by operating efficiencies at our cultivation and processing facilities, which enabled us to reduce cost, partially offset by additional expenses in Ohio, including inventory write downs, as we ramp up our facilities in Ohio to support the transition to adult-use.

Jushi branded product sales across the Company's five vertical markets as a percentage of total retail revenue improved to 55% in Q4 2024 compared to 53% in Q4 2023, and improved to 55% for FY 2024 as compared to 50% for FY 2023.

Operating expenses for Q4 2024 were \$27.2 million as compared to \$33.8 million in Q4 2023, and for FY 2024 were \$107.4 million as compared to \$119.0 million for FY 2023. The quarter-over-quarter and year-over-year decreases were due primarily to: (i) lower asset impairment charges - impairment charges in 2023 primarily relating to goodwill in Nevada which was impaired because of lower than expected operating results; and (ii) lower share-based compensation expense which reflects lower value of share-based compensation granted. The decreases were partially offset by higher depreciation and amortization expense primarily due to the amortization of our business licenses which commenced during the second quarter of 2024.

Other expense, net, for Q4 2024 included interest expense of \$9.4 million and other expense, net of \$1.0 million, which was partially offset by fair value gain on derivatives of \$3.4 million. Other expense, net, for FY 2024 included interest expense of \$37.4 million, which was partially offset by fair value gain on derivatives of \$6.3 million and other income, net of \$3.1 million.

Net loss for Q4 2024 was \$12.5 million as compared to \$18.0 million in Q4 2023, and \$48.8 million for FY 2024 as compared to \$65.1 million FY 2023.

Adjusted EBITDA¹ in Q4 2024 was \$8.0 million compared to \$11.3 million in Q4 2023, representing a decrease of \$3.3 million year-over-year. Adjusted EBITDA¹ for FY 2024 was \$46.2 million as compared to \$40.8 million in FY 2023 representing an improvement of \$5.4 million.

Balance Sheet and Liquidity

As of December 31, 2024, the Company had approximately \$21.3 million of cash, cash equivalents and restricted cash. For FY 2024, the Company paid \$4.7 million in capital expenditures. As of December 31, 2024, the Company had \$3.3 million and \$198.2 million in gross principal amount of short-term and long-term debt, respectively, excluding leases and property, plant, and equipment financing obligations. Excluding the \$21.5 million related to the promissory notes issued to Sammartino in connection with the acquisition of Natures Remedy, as we currently have no obligation to repay these notes due to an ongoing dispute,

the total debt balance subject to scheduled repayments after the post-quarter end payments was \$180.0 million.

As of February 28, 2025, the Company's issued and outstanding shares were 196,696,597 and its fully diluted shares outstanding were 302,852,551.

UNAUDITED RECONCILIATION OF NET INCOME (LOSS) TO ADJUSTED EBITDA and CALCULATION OF ADJUSTED EBITDA MARGIN
(in thousands of U.S. dollars)

EBITDA, Adjusted EBITDA, and Adjusted EBITDA Margin

In addition to providing financial measurements based on GAAP, we provide additional financial metrics that are not prepared in accordance with GAAP. We use non-GAAP financial measures, in addition to GAAP financial measures, to understand and compare operating results across accounting periods, for financial and operational decision making, for planning and forecasting purposes and to evaluate our financial performance. These non-GAAP financial measures are EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin (each as defined below). We believe that these non-GAAP financial measures reflect our ongoing business by excluding the effects of expenses that are not reflective of our operating business performance and allow for meaningful comparisons and analysis of trends in our business. These non-GAAP financial measures also facilitate comparing financial results across accounting periods and to those of peer companies. As there are no standardized methods of calculating these non-GAAP measures, our methods may differ from those used by others, and accordingly, the use of these measures may not be directly comparable to similar measures used by others, thus limiting their usefulness. Accordingly, these non-GAAP measures are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin are financial measures that are not defined under GAAP. We define EBITDA as net income (loss), or “earnings”, before interest, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA before: (i) non-cash share-based compensation expense; (ii) inventory-related adjustments; (iii) fair value changes in derivatives; (iv) other (income)/expense items; (v) transaction costs; (vi) asset impairment; (vii) gain/loss on debt extinguishment; and (viii) start-up costs. Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue. These financial measures are metrics that have been adjusted from the GAAP net income (loss) measure in an effort to provide readers with a normalized metric in making comparisons more meaningful across the cannabis industry, as well as to remove non-recurring, irregular and one-time items that may otherwise distort the GAAP net income measure. Other

companies in our industry may calculate this measure differently, limiting their usefulness as comparative measures.
