DELRAY BEACH, Fla., May 16, 2022 /PRNewswire/ -- DecisionPoint™ Systems, Inc. (NYSE American: DPSI), a mobility-first enterprise services and solutions company today announced first quarter 2022 financial results.

MOVING DECISIONS CLOSER TO THE CUSTOMER™

"Our mobility-first strategy is working as we had our best revenue quarter ever," said Steve Smith, chief executive officer. "We saw broad-based strength across our verticals and continued to take advantage of our strong relationships to procure products from our OEM and distribution partners, enabling us to build up inventory for deals that will ship over the next few quarters.

"We also made two strategic acquisitions during the quarter – Advanced Mobile Group and Boston Technologies. These acquisitions strengthen our positions in the Transportation and Direct Store Delivery verticals and the integration is progressing quickly, and we expect to realize cost synergies over the next few quarters. Looking to sales, we are already seeing evidence that we are capturing synergies with 10 to 20 new cross-selling opportunities in various stages of the sales pipeline."

First Quarter Highlights (2022 versus 2021)

- Revenue increased 22.7% to \$19.7 million;
- Gross Profit increased 21.8% to \$4.7 million:

We continue to build out our services offerings, especially managed services, that will bring higher margin growth opportunities. We will also continue to integrate our recent acquisitions and maximize synergies, including continued cross and upselling. As a result, we are providing full-year 2022 revenue guidance of \$79 to \$82 million, which represents 22 to 26% growth versus 2021. We also expect approximately \$19 million to come from services. Non-GAAP Financial Measures

To supplement our condensed consolidated financial statements presented on a GAAP basis, we have provided non-GAAP financial information, namely non-GAAP Net Income, non-GAAP diluted EPS and Adjusted EBITDA (earnings before interest, taxes, depreciation and amortization adjusted for transaction-related and non-recurring items). We believe that these non-GAAP measures provide investors with a better understanding of how the results relate to our historical performance as well as when comparing our results to other publicly-traded companies. The additional adjusted information is not meant to be considered in isolation or as a substitute for GAAP financials. Management believes that these adjusted measures reflect the essential operating activities of the Company. A reconciliation of non-GAAP financial information appears below:
