Marvell Wins GSA's Most Respected Public Semiconductor Company Award

Prestigious Industry Award Recognizes Marvell's Remarkable Two-and-a-Half Year Transformation

SANTA CLARA, Calif., Dec. 10, 2018 /PRNewswire/ -- Marvell® (NASDAQ:MRVL) has been named the "2018 Most Respected Public Semiconductor Company" by the [Global Semiconductor Alliance](#), for companies with \$1 billion to \$5 billion in annual sales. The award is based on feedback from the greater GSA community, and recognizes industry leaders that have demonstrated excellence through their vision, innovation, execution and overall reputation.

"Marvell has undertaken a cultural and technological transformation over the past two-and-a-half years," said Matt Murphy, President and CEO. "This award belongs to the Marvell team who, working together, have turned the company into a leading supplier for the infrastructure market. And while our work is never done, the award is recognition that we're on the right path."

For almost a quarter-century, the GSA awards have recognized the achievements of top-performing semiconductor companies in several categories, ranging from outstanding leadership to financial accomplishments, as well as overall respect within the industry. The organization represents over 350 of the top companies in the semiconductor industry, which together generate 75% of the industry's revenues.

"Marvell is a major force in the semiconductor industry and their peers, partners and customers admire their transformation and accordingly the GSA has bestowed the Most Respected Public Semiconductor Company award to them. The company has prioritized innovation focused on some of the key growth markets like cloud, enterprise and automotive, established one of America's best companies to work for and has demonstrated relentless execution under the leadership of Matt Murphy. This recognition is well deserved," said Jodi Shelton, President and Co-Founder of GSA.

About GSA

GSA is *Where Leaders Meet* to establish an efficient, profitable and sustainable semiconductor and high technology global ecosystems encompassing semiconductors, software, solutions, systems, and services. It is a leading industry organization that provides a unique, neutral platform for collaboration, where global executives interface and innovate with peers, partners and customers to accelerate industry growth and maximize return on invested and intellectual capital.

GSA has an impressive global footprint representing over 30 countries and 350 corporate members comprised of top companies in the semiconductor industry. The global membership ranges from the most exciting emerging companies to industry stalwarts and

technology leaders—representing 75% of industry revenues. Members value collaboration as a key to the advancement of their companies and industry.

GSA offers the broadest and most efficient thought-leadership platform through curated regional and global executive and technology events, networking forums, dinners, workshops and working groups. These gatherings allow members to engage in thought leading dialogues shaping the industry, expand business opportunities and remain up-to-date on topical issues in the industry, share best practices and gain precious visibility opportunities. GSA members also have access to a repository of data and information including financial reports and resources, company data, surveys and technology and market reports.

About Marvell

Marvell first revolutionized the digital storage industry by moving information at speeds never thought possible. Today, that same breakthrough innovation remains at the heart of the company's storage, processing, networking, security and connectivity solutions. With leading intellectual property and deep system-level knowledge, Marvell's infrastructure semiconductor solutions continue to transform the enterprise, cloud, automotive, industrial, and consumer markets.
