Marvell to Showcase Accelerated Infrastructure Silicon at DesignCon 2025

Delivering Leading-edge Scale Up and Scale Out for AI Data Centers and Cloud Infrastructure

SANTA CLARA, Calif., Jan. 28, 2025 /PRNewswire/ -- [Marvell Technology, Inc.](https://www.marvell.com) (NASDAQ: MRVL), a leader in data infrastructure semiconductor solutions, will showcase its latest advancements in accelerated infrastructure silicon at DesignCon 2025. The event is scheduled for January 28-30, 2025, at the Santa Clara Convention Center in Santa Clara, California.

Visit Marvell at booth 1139 to see the latest accelerated infrastructure products and technologies, including:

- The [Alaska® P PCIe Gen 6 Retimer](#) and PCIe Gen 7 SerDes for extending both inside-the-server and outside-the-chassis connection distances without drastic board redesigns.
- A 1.6 Tbps active electrical cable powered by the [Alaska A PAM4 DSP](#) for use in high-bandwidth scale up (server-to-server) and scale out (server-to-switch) applications.

Partner Booth Innovations

Partners featuring Marvell-enabled accelerated infrastructure products at DesignCon 2025 include:

- **3M** (booth 326)
- **Amphenol** (booth 833)
- **Keysight** (booth 1039)
- **Molex** (booth 739)
- **Multilane** (booth 727)
- **TE Connectivity** (booth 639)
- **Tektronix** (booth 819)

About Marvell

To deliver the data infrastructure technology that connects the world, we're building solutions on the most powerful foundation: our partnerships with our customers. Trusted by the world's leading technology companies for over 25 years, we move, store, process and secure the world's data with semiconductor solutions designed for our customers' current needs and future ambitions. Through a process of deep collaboration and transparency, we're ultimately changing the way tomorrow's enterprise, cloud, automotive, and carrier architectures transform—for the better.
