Twin Vee PowerCats Expands Digital Configurator with New Models Prioritizing Customer Convenience

FORT PIERCE, FL / ACCESS Newswire / July 23, 2025 /Twin Vee PowerCats Co. (NASDAQ:VEEE),("Twin Vee" or the "Company"), a manufacturer, distributor, and marketer of power sport boats, today announced that it has expanded its innovative online 3D Configurator to include its popular 260 GFX2, 280 GFX2, and 400 GFX2 boat models, offering customers an unprecedented level of interactive customization and transparent purchasing across a wider product range.

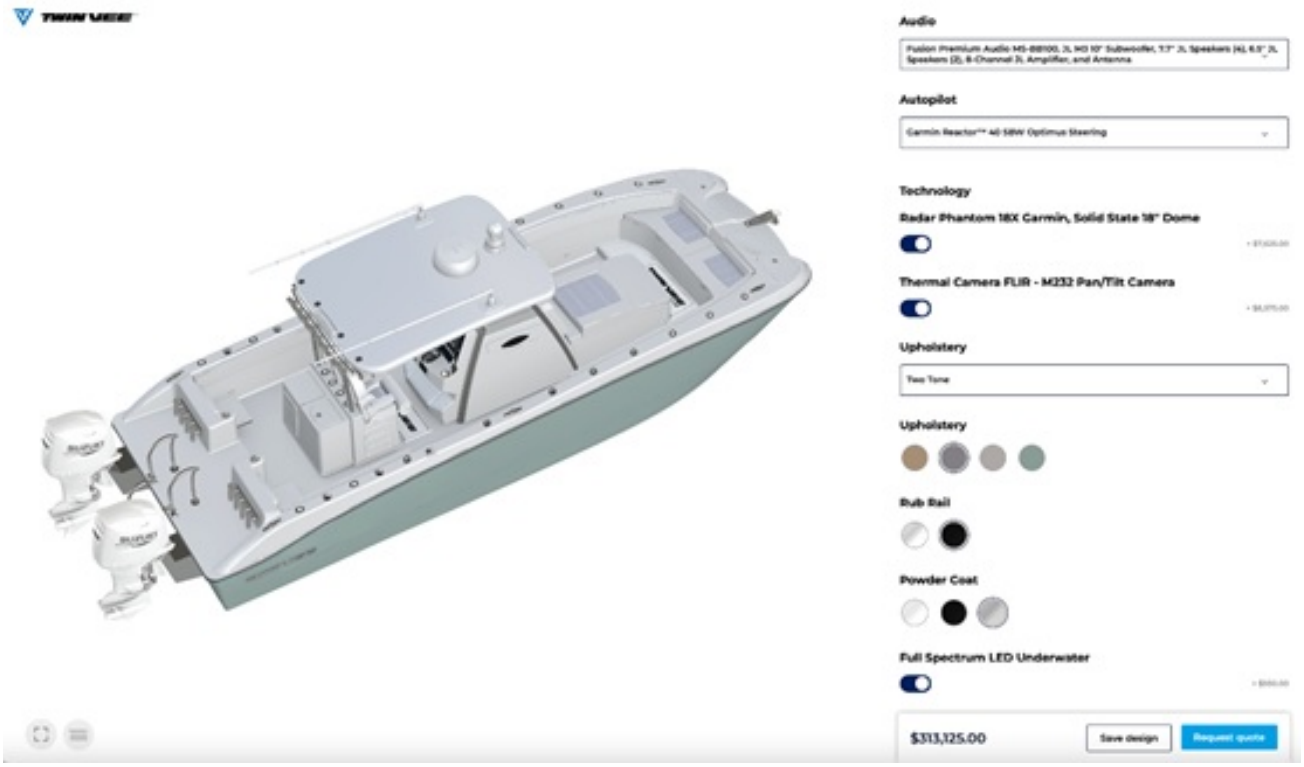

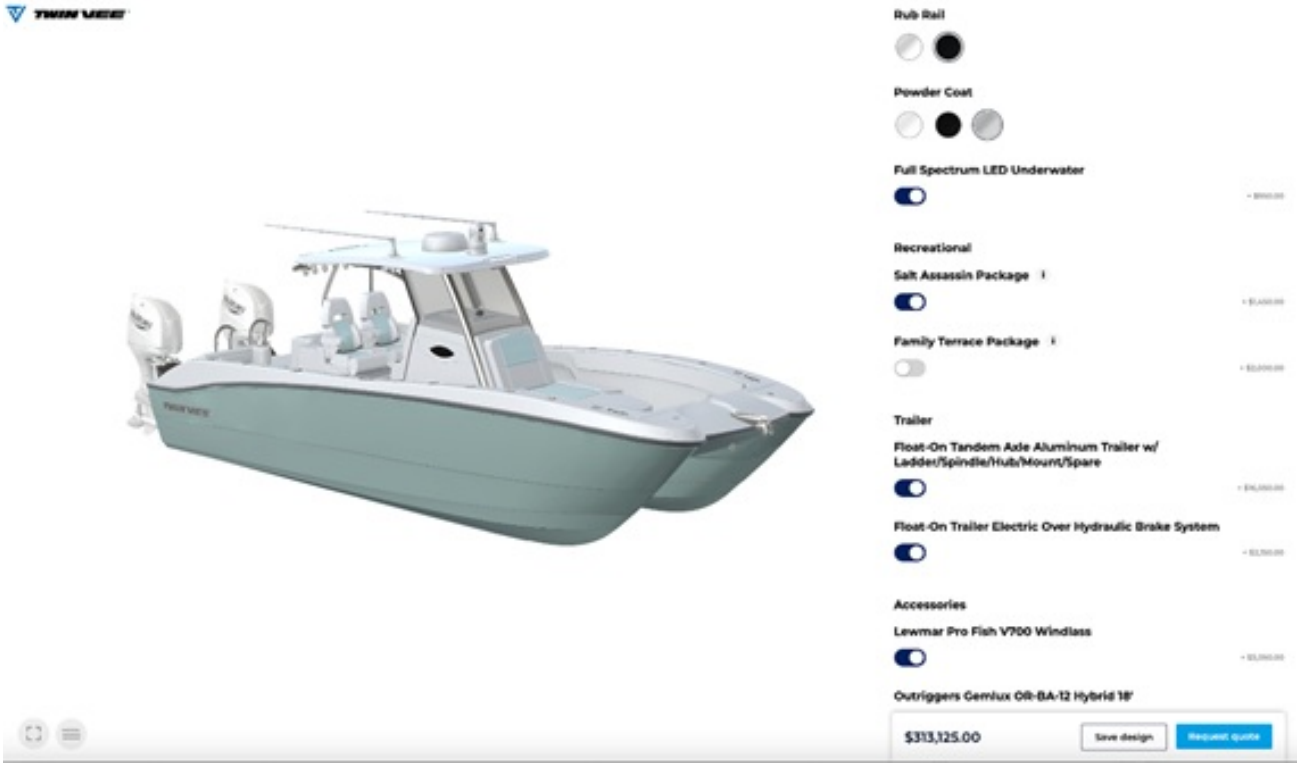

Twin Vee's 400 GFX2 3D Configurator (Available Here)

Twin Vee originally unveiled its sophisticated online 3D Configurator alongside the relaunch of its 22 BayCat in May 2025. This interactive tool is seamlessly integrated into the Company's website, offering a modern design and intuitive navigation for users. "Our 3D boat configurator empowers users to dynamically construct their ideal boat model within an interactive three-dimensional environment," explained Joseph Visconti, CEO and President of Twin Vee PowerCats Co. "The tool visually showcases premium features, add-ons, and potential upgrades, such as more powerful engines, higher-grade upholstery, or technology packages, which permits customers to make informed decisions based on their specific needs."

As each selection is made, the 3D model of the boat updates instantaneously, offering an immediate and precise visual representation of the customized vessel. The platform also allows users to rotate the boat model, zoom in on specific details, and understand how various color combinations and optional features will appear on their finished boat, effectively removing any guesswork from the customization process.

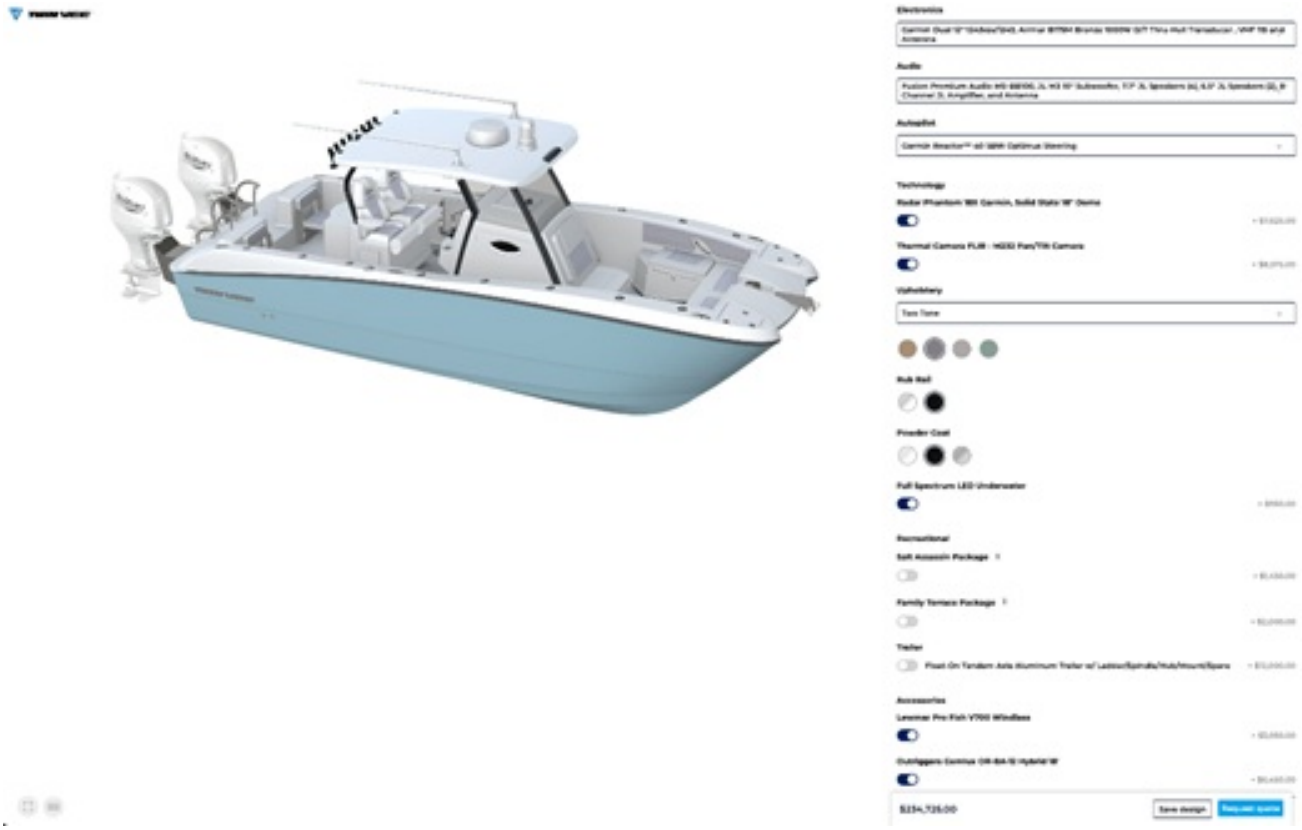

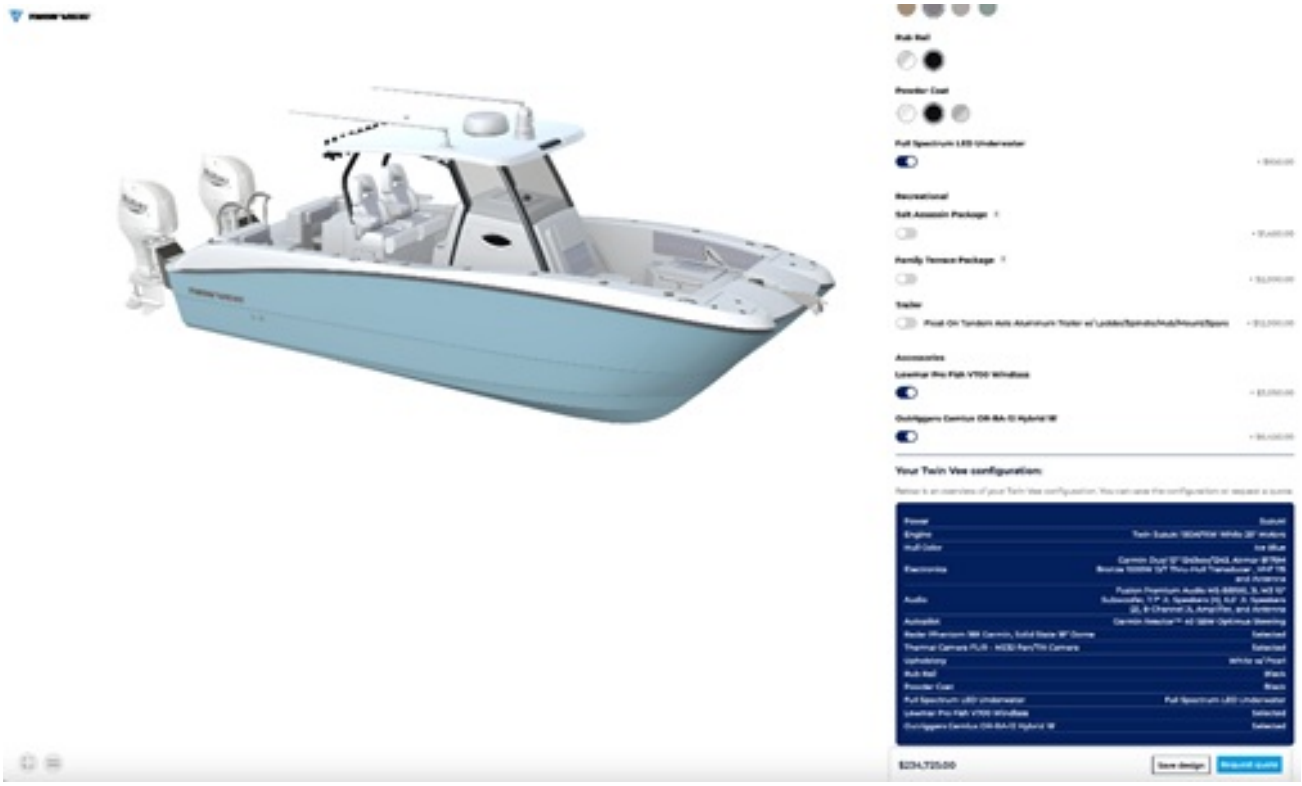

Twin Vee's 280 GFX2 3D Configurator (Available Here)

The 3D Configurator guides prospective purchasers through all customization options in an easy-to-follow process. As they make each choice, the 3D Configurator provides clear,

straightforward, and real-time pricing updates. "Customers can freely experiment with different configurations across different boat models, compare various options side-by-side, and ultimately design a boat that is perfect for them and their budget," remarked Visconti.

The Company is continuing to add its entire model line, along with its complete set of standards and options, to its 3D Configurator. Additionally, the Company is working on the ability to effortlessly share their boat customizations with family, friends, or directly with their local Twin Vee dealer. This feature is expected to enhance the efficiency of sales handoffs and follow-ups, streamlining the purchasing process.

Twin Vee's 260 GFX2 3D Configurator (Available Here)

"In this increasingly digital era, consumers expect a more immersive, clear, and highly customized shopping experience online than ever before," stated Visconti. "By adding the 260 GFX2, 280 GFX2, and 400 GFX2 alongside the 22 BayCat, we are not only expanding our customers' options to find their dream boat but also enhancing our website and build-and-price digital toolset to present these choices in the most informative and interactive way possible."
