Anixa Biosciences to Present at Sidoti Micro-Cap Virtual Conference on January 17, 2024

SAN JOSE, Calif., Jan. 10, 2024 /PRNewswire/ -- [Anixa Biosciences, Inc.](#) ("Anixa" or the "Company") (NASDAQ: ANIX), a clinical-stage biotechnology company focused on the treatment and prevention of cancer, today announced that it will present an overview of its business and clinical programs at the Sidoti Micro-Cap Virtual Conference, taking place January 17-18, 2024. Anixa Chairman and CEO Dr. Amit Kumar will present on Wednesday, January 17, 2024, at 12:15 PM ET.

Details are as follows:

Presentation: Wednesday, January 17, 2024, at 12:15 PM ET

Presentation link: [Click here](#) to register; available live and on demand

Conference registration: Available on the [conference website](#)

1x1 meetings: Open to all investors upon conference registration

During his presentation, Dr. Kumar will provide an overview of Anixa's clinical programs including vaccines to prevent cancer and a CAR-T cell therapy to treat cancer. He will also review recently announced positive results from the Phase 1 clinical trial of Anixa's breast cancer vaccine. The vaccine is designed to direct the immune system to destroy triple negative breast cancer (TNBC) cancer cells through a mechanism that has never previously been utilized for cancer vaccine development.

About Anixa Biosciences, Inc.

Anixa is a clinical-stage biotechnology company focused on the treatment and prevention of cancer. Anixa's therapeutic portfolio consists of an ovarian cancer immunotherapy program being developed in collaboration with Moffitt Cancer Center, which uses a novel type of CAR- T, known as chimeric endocrine receptor T-cell (CER-T) technology. The Company's vaccine portfolio includes a novel vaccine being developed in collaboration with Cleveland Clinic to prevent breast cancer – specifically triple negative breast cancer (TNBC), the most lethal form of the disease – as well as a vaccine to prevent ovarian cancer. These vaccine technologies focus on immunizing against "retired" proteins that have

been found to be expressed in certain forms of cancer. Anixa's unique business model of partnering with world-renowned research institutions on clinical development allows the Company to continually examine emerging technologies in complementary fields for further development and commercialization.
