"We reported our 15th consecutive quarter of positive adjusted EBITDA. Our wholesale business continued to set quarterly sales records, which will continue for the remainder of this year and next. Our balance sheet remains one of the strongest in the industry, and we were particularly pleased with the exponential growth of our Maryland operations with the commencement of adult-use sales on July 1st."

CONFERENCE CALL

MariMed management will host a conference call on Thursday, November 9, 2023 at 8:00 a.m. Eastern time, to discuss these results. The conference call may be accessed through MariMed’s Investor Relations website, or by clicking the following link: [MRMD Q323 Earnings Call](#).

THIRD QUARTER 2023 OPERATIONAL HIGHLIGHTS

During the third quarter, the Company announced the following developments in the implementation of its strategic growth plan:

- **July 1: MariMed commenced adult-use retail and wholesale operations in Maryland.** The Company’s retail sales, which began in Q422, grew 88% sequentially, while its wholesale business grew 161% year-over-year.
- **July 13: MariMed staged the ‘Boston 280E THC Party’ in Boston Harbor to protest unfair cannabis industry tax laws.** Inspired by its 250th anniversary, the Company reenacted the Boston Tea Party. Onboard a schooner in Boston Harbor, MariMed management and employees dressed in colonial outfits and decried unfair IRS Code 280E on behalf of the entire cannabis industry.

OTHER DEVELOPMENTS

Subsequent to the end of the third quarter, the Company announced the following developments:

- **October 11: MariMed announced the opening of Thrive Dispensary in Casey, Illinois,** marking the fifth dispensary owned or managed in that state, and the twelfth dispensary it owns or manages across five states. In response to the state’s request to open as soon as possible, the Company operates Thrive Dispensary from a temporary mobile facility until construction of a permanent building is completed. MariMed continues to build its processing and cultivation facility in Mt. Vernon, Illinois. The processing facility is expected to open during the fourth quarter, at which time MariMed will produce its award-winning edibles for sale through retail and wholesale channels. The Company expects the cultivation facility construction to be completed in early 2024.

2023 FINANCIAL GUIDANCE

MariMed remains committed to its proven strategic growth plan and continues to operate some of the best facilities in the cannabis industry. Delayed openings of new revenue generating assets, input cost inflation, and increased competition continue to have a bigger impact than anticipated on operational and financial results. As such, the Company’s guidance for full year 2023 is now:

- Revenue of \$148 million to \$150 million;

- Gross margin of approximately 45%;
- Non-GAAP Adjusted EBITDA of \$27 million to \$32 million;
- Capital expenditures of \$22 million to \$25 million;

DISCUSSION OF NON-GAAP FINANCIAL MEASURES

MariMed's management uses several different financial measures, both GAAP and non-GAAP, in analyzing and assessing the overall performance of its business, and making operating decisions, planning and forecasting future periods. The Company has provided in this release several non-GAAP financial measures: Non-GAAP Gross margin, Non-GAAP Net income (loss), Non-GAAP Adjusted EBITDA and non-GAAP Adjusted EBITDA margin, as supplements to Revenue, Gross margin, Net income (loss) and other financial measures prepared in accordance with GAAP.

Management believes these non-GAAP financial measures are useful in reviewing and assessing the performance of the Company, and when planning and forecasting future periods, as they provide meaningful operating results by excluding the effects of expenses that are not reflective of its operating business performance. In addition, the Company's management uses these non-GAAP financial measures to understand and compare operating results across accounting periods and for financial and operational decision-making. The presentation of these non-GAAP measures is not intended to be considered in isolation or as a substitute for the financial information prepared in accordance with GAAP.

Management believes that investors and analysts benefit from considering non-GAAP financial measures in assessing the Company's financial results and its ongoing business, as it allows for meaningful comparisons and analysis of trends in the business. In particular, non-GAAP adjusted EBITDA is used by many investors and analysts themselves, along with other metrics, to compare financial results across accounting periods and to those of peer companies.

As there are no standardized methods of calculating non-GAAP financial measures, the Company's calculations may differ from those used by analysts, investors and other companies, even those within the cannabis industry, and therefore may not be directly comparable to similarly titled measures used by others.

Management defines non-GAAP Adjusted EBITDA as income (loss) from operations, determined in accordance with GAAP, excluding the following items:

- depreciation of fixed assets;
- amortization of acquired intangible assets;
- Impairment or write-downs of intangible assets;
- stock-based compensation;
- legal settlements; and
- acquisition-related and other expenses.
