Soliton Announces Proposed Public Offering of Common Stock

HOUSTON, June 25, 2020 /PRNewswire/ -- Soliton, Inc., (Nasdaq: SOLY) ("Soliton" or the "Company"), a medical device company with a novel and proprietary platform technology, today announced that it intends to offer shares of its common stock in an underwritten public offering. In addition, Soliton intends to grant the underwriters a 30-day option to purchase up to an additional 15% of the number of shares of its common stock offered in the public offering. The proposed offering is subject to market and other conditions, and there can be no assurance as to whether or when the offering may be completed, or as to the actual size or terms of the offering.

Cantor Fitzgerald & Co. is acting as the sole book-running manager for the proposed offering.

The shares of common stock are being offered by the Company pursuant to a registration statement previously filed with and declared effective by the Securities and Exchange Commission (the "SEC"). The offering will be made only by means of a prospectus, consisting of a prospectus supplement and an accompanying prospectus. A preliminary prospectus supplement and an accompanying prospectus relating to the offering will be filed with the SEC and will be available on the SEC's website located at <http://www.sec.gov>. Copies of the preliminary prospectus supplement and the accompanying prospectus, when filed with the SEC, may also be obtained from Cantor Fitzgerald & Co., 499 Park Avenue, 6th Floor, New York, NY 10022, Attn: Capital Markets Department, or by email at prospectus@cantor.com.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any sale of these securities, in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

About Soliton, Inc.

Soliton, Inc. is a medical device company with a novel and proprietary platform technology licensed from MD Anderson. The Company's first FDA cleared commercial product will use rapid pulses of acoustic shockwaves as an accessory to lasers for the removal of unwanted tattoos. The Company is based in Houston, Texas, and is actively engaged in bringing the Rapid Acoustic Pulse ("RAP") device to the market. Soliton has completed a clinical study using the RAP device to improve the appearance of cellulite and is investigating potential additional capabilities of the RAP technology in preclinical testing, including the potential to assist existing fat reduction technology in the reduction of fat. The device is currently cleared in the United States only for use in tattoo removal and is not yet cleared for use to address cellulite.
