TTM Receives 2017 Outstanding Supplier Award from Rockwell Automation

COSTA MESA, Calif., Sept. 22, 2017 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI) is pleased to announce that it received the 2017 Supplier of the Year Award at the 2017 Rockwell Automation Supplier Conference held on August 29, 2017. The criteria for the award was both objective (on-time-delivery, quality, cost, lead-time reduction) and subjective (schedule flexibility, NPI support, ease of doing business).

“We are extremely proud to have received this recognition from Rockwell Automation. Our employees are dedicated to delivering exceptional quality and added value to our customers by supporting their PCB technology needs from early design and prototyping to volume production and post-production field application engineering services,” said Jon Pereira, President of TTM’s Automotive, Medical, Industrial & Instrumentation Business Unit. “Rockwell Automation is a valued customer and we look forward to growing our relationship and continuing to meet their PCB technology requirements in the future.”

TTM credits its success to ongoing investment in end-market focused PCB expertise and technology leadership that supports automation, robotics, and industrial controls. TTM has developed long and short-range radar applications (26 GHz to 79 GHz), advanced high-density interconnect (HDI) PCBs, and flex/rigid-flex boards that bring these technological advances to life.

About Rockwell Automation

Rockwell Automation, Inc. (NYSE:ROK), the world’s largest company dedicated to industrial automation and information, makes its customers more productive and the world more sustainable. Headquartered in Milwaukee, Wis., Rockwell Automation employs approximately 22,000 people serving customers in more than 80 countries.

About TTM

TTM Technologies, Inc. is a leading global printed circuit board (“PCB”) manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM’s time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market.
