Viveve to Host Conference Call to Discuss First Quarter 2019 Financial and Operating Results on May 9, 2019

ENGLEWOOD, CO / ACCESSWIRE / May 2, 2019/ Viveve Medical, Inc. (NASDAQ: VIVE), a medical technology company focused on women's intimate health, today announced that it will report its first quarter 2019 financial and operating results after the close of the U.S. financial markets on Thursday, May 9, 2019, and will host a live conference call and webcast at 5:00 PM ET the same day.

The conference call may be accessed by dialing 1-833-255-2833 (domestic) or 1-412-902-6728 (international) or via live webcast at <https://services.choruscall.com/links/vive190509.html>. Participants may also pre-register for the conference call at <http://dpregrister.com/10128439>.

A recording of the webcast will be posted on the company's investor relations website following the call at ir.viveve.com and will be available online for 90 days.

About Viveve

Viveve Medical, Inc. is a medical technology company focused on women's intimate health. Viveve is committed to advancing new solutions to improve women's overall well-being and quality of life. The internationally patented Viveve[®] System incorporates cryogen-cooled monopolar radiofrequency (CMRF) technology to uniformly deliver volumetric heating while gently cooling surface tissue to generate neocollagenesis in a single in-office session.

International regulatory approvals and clearances have been received for vaginal laxity and/or improvement in sexual function indications in over 50 countries. Viveve is conducting VIVEVE II, a multicenter, randomized, double-blind, sham-controlled clinical trial to assess improvement of sexual function in women following vaginal childbirth. Completion of full 250 subject enrollment was announced in early March 2019. If successful, VIVEVE II results could support a marketing application for a new U.S. commercial indication. Currently, in the United States, the Viveve[®] System is cleared by the FDA for use in general surgical procedures for electrocoagulation and hemostasis.

Viveve has fully enrolled LIBERATE-International, one of two planned independent, multicenter, randomized registration trials for the improvement of stress urinary incontinence in women and plans to re-submit an IDE to the FDA for LIBERATE-U.S. after conducting certain safety testing. The results of these two trials, if successful, could support marketing applications in the U.S. and in over 35 countries around the world for this new commercial indication.
