HGACEnergy Selects Ameresco as Electricity Supply Vendor of Record

Ameresco will take over management of HGACEnergy's supply contracts and directly facilitate relationships with members

FRAMINGHAM, Mass. & HOUSTON--(BUSINESS WIRE)-- [Ameresco, Inc.](https://www.ameresco.com), (NYSE: AMRC), a leading cleantech integrator specializing in energy efficiency and renewable energy, today announced its partnership with HGACEnergy, an energy purchasing cooperative in Texas, as its sole provider of electricity procurement and advisory services.

By utilizing the advantages of a cooperative aggregation, HGACEnergy provides reliable, low-cost electricity purchasing options to government entities across Texas. Ameresco will take over the management of HGACEnergy's supply contracts and directly facilitate relationships with cooperative members to secure future contracts.

"We pride ourselves in our ability to develop meaningful relationships with our customers to deliver the best in energy services," said Gwendolyn Norman, Program Manager for HGACEnergy. "We are confident that Ameresco will be an invaluable partner for us. As a leading renewable energy provider, Ameresco matches our value for service and provides sustainable solutions for clientele across the nation and now to our members in Texas."

HGACEnergy is a program of the Houston-Galveston Area Council, a voluntary association of local governments and elected officials to foster growth and serve the needs of the of 13-county Houston-Galveston region and its 7 million residents. For Texas municipalities, HGACEnergy provides turnkey contract solutions by procuring the best-cost power solutions available without the traditionally time-intensive Request for Proposals process.

"Our partnership with HGACEnergy only furthers our commitment to providing energy solutions throughout the state of Texas," said Doran Hole, SVP and Chief Financial Officer of Ameresco. "HGACEnergy has a proven track record of dependability and authenticity with its customer base, and we're looking forward to building on that history by providing inexpensive, energy-efficient services."
