- Sold our investment in BAS Broadcasting for net proceeds of \$4.7 million, which resulted in a realized loss of \$2.8 million.
- Invested \$6.0 million in one syndicated investment and received an aggregate of \$13.7 million in scheduled and unscheduled principal repayments from existing portfolio companies, including three early payoffs at par totaling \$9.8 million.

- **Recurring Distributions:** Paid monthly cash distributions for each of January, February and March 2014 to common stockholders of \$0.07 per share and to preferred stockholders of \$0.1484375 per share.

Second Quarter 2014 Results: Net Investment Income for the quarters ended March 31, 2014 and December 31, 2013, were \$4.5 million, or \$0.21 per share, and \$4.4 million, or \$0.21 per share, respectively. Net investment income increased by 1.7% in the three months ended March 31, 2014, as compared to the prior quarter, primarily due to the increase in other income, which consisted of success fees of \$0.7 million and prepayment and other fees of \$0.5 million received in the current quarter. These fees were partially offset by an increase in the net incentive fee of \$0.7 million for the three months ended March 31, 2014, as compared to the prior year period, which was primarily due to a credit to the incentive fee otherwise due to our investment adviser in the prior quarter. There was no incentive fee credit in the current quarter.

Net (Decrease) Increase in Net Assets Resulting from Operations for the quarters ended March 31, 2014 and December 31, 2013 were a decrease of \$2.1 million, or \$0.10 per share, and an increase of \$10.5 million, or \$0.50 per share, respectively. The quarter over quarter decrease is primarily due to a decrease in certain comparable multiples used for valuations during the quarter ended March 31, 2014.

Subsequent Events: Subsequent to March 31, 2014, the following significant event occurred:

- **Distributions Declared:** Declared the following monthly cash distributions to stockholders:
