#### Fourth Fiscal Quarter 2020 Highlights:

- **Earnings Performance:** Investment income increased by 7.2% to \$12.6 million on higher average earning assets, stable investment yields and higher fee income.
- **Portfolio Activity:** Invested \$20.7 million in one new portfolio company and \$1.3 million in existing portfolio companies. Received \$22.6 million in repayments and net

proceeds, including the exit of our investment in Universal Survey Center, Inc., which resulted in prepayment fee income of \$0.3 million and the repayment of our debt investment of \$13.7 million at par.

- **Portfolio Credit Performance:** Continued strong company performance with a decrease in non-accruals to 1.4% of the portfolio at fair value.
- **Net Asset Value:** Increased 3.1% from June 30, 2020 to \$233.7 million or \$7.40 per share as of September 30, 2020.
- **Equity Issuance:** Issued 374,211 shares of common stock at a weighted-average price of \$7.66 per share, or 103.5% of NAV, through our at-the-market trading program, generating net proceeds of \$2.8 million.
- **Conservative Capital Base:** Maintained a debt-to-equity ratio of 96.4%.

#### **Fourth Fiscal Quarter 2020 Results:**

Interest income increased by \$0.3 million, or 2.6%, due to a 1.6% increase in the weighted average principal balance of our interest-bearing portfolio quarter over quarter. Other income increased by \$0.5 million, or 537.6%, quarter over quarter primarily due to prepayment fees received and an increase in dividend income. Total expenses increased by 14.5% quarter over quarter, primarily due to a \$0.7 million decrease in fee credits granted by the Adviser.

Net Investment Income for the quarter ended September 30, 2020 was \$6.1 million, an increase of 0.5% as compared to the prior quarter, or \$0.195 per share.

The Net Increase in Net Assets Resulting from Operations was \$10.2 million, or \$0.33 per share for the quarter ended September 30, 2020, compared to \$15.0 million, or \$0.48 per share, for the quarter ended June 30, 2020. The current quarter increase was driven by net investment income and \$4.0 million of net unrealized appreciation.

#### **Fiscal Year Ended 2020 Results:**

Interest income increased by \$0.3 million, or 0.6%, during the fiscal year ended September 30, 2020, compared to the prior year, due to an increase in the weighted average principal balance of our interest-bearing portfolio year over year, partially offset by a decrease in the weighted average yield on interest-bearing investments driven mainly by the overall decrease in LIBOR throughout the year and spread compression. The weighted average principal balance of our interest-bearing investment portfolio for the year ended September 30, 2020, was \$418.0 million, compared to \$373.7 million for the year ended September 30, 2019, an increase of \$44.3 million, or 11.9%.

Other income decreased by \$2.3 million, primarily due to a decrease in success fees, prepayment penalties and dividend income recognized, compared to the prior year, with lower overall repayments received during the fiscal year ended September 30, 2020, compared to the prior year.

Total expenses decreased 10.4% year over year, primarily due to a \$3.1 million decrease in preferred dividend expense due to the redemption of our previously outstanding term preferred stock in October 2019 and a \$1.6 million increase in credits to fees from the Adviser, partially offset by a \$2.0 million increase in interest expense on borrowings and notes payable.

Net Investment Income for the years ended September 30, 2020 and 2019, was \$25.2 million, or \$0.81 per share, and \$24.6 million, or \$0.84 per share, respectively.

Net Decrease in Net Assets Resulting from Operations for the year ended September 30, 2020 was \$1.9 million, or \$0.06 per share, compared to the Net Increase in Net Assets Resulting from Operations for the year ended September 30, 2019 of \$19.9 million, or \$0.68 per share. The year over year change was driven mainly by \$18.2 million of unrealized depreciation recognized during the current year. Since March 2020, the U.S. loan market has exhibited a heightened level of volatility and wider credit spreads associated with the uncertainty and potentially adverse economic ramifications of the spread of COVID-19. The combination of the marked increase in market spreads for comparable loan investments and discounts applied to any portfolio company whose markets, or operations have been impacted by the COVID-19 pandemic, were the primary drivers of net unrealized depreciation of investments for year ended September 30, 2020. The decreased performance of certain of our portfolio companies and a decrease in comparable multiples used to estimate the fair value of certain of our portfolio companies also impacted the total net unrealized depreciation.

**Subsequent Events:** Subsequent to September 30, 2020, the following significant events occurred:

- **Distributions and Dividends Declared:** In October 2020, our Board of Directors declared the following monthly distributions to common stockholders:

<b>Record Date</b>	<b>Payment Date</b>	<b>Distribution per Common Share</b>
October 23, 2020	October 30, 2020	\$ 0.065
November 20, 2020	November 30, 2020	0.065
December 23, 2020	December 31, 2020	0.065
	<b>Total for the Quarter</b>	<b>\$ 0.195</b>

**Comments from Gladstone Capital's President, Bob Marcotte:** "The ramifications and impact of Covid-19 were certainly unprecedented; however, we are pleased to report that, on balance, our portfolio performed well and we are closing our fiscal year on a strong note with favorable earnings momentum. While there may be additional challenges ahead, and we have a ways to go to fully recover the unrealized losses of fiscal 2020, our investment principles and strategies are intact and given our modest leverage, we are well positioned to grow our earning asset base and net interest income as we transition into fiscal 2021."
