About RealPage

Located in Carrollton, Texas, a suburb of Dallas, RealPage provides on demand (also referred to as "Software-as-a-Service" or "SaaS") products and services to apartment communities and single family rentals across the United States. Its six on demand product lines include OneSite® property management systems that automate the leasing, renting, management, and accounting of conventional, affordable, tax credit, student living, senior living and military housing properties; Level One® and CrossFire® that enable owners to originate, syndicate, manage and capture leads more effectively and at less overall cost; YieldStar® asset optimization systems that enable owners and managers to optimize rents to achieve the overall highest yield, or combination of rent and occupancy, at each property; Velocity™ billing and utility management services that increase collections and reduce delinquencies; LeasingDesk® risk mitigation systems that are designed to reduce a community's exposure to risk and liability; and OpsTechnology® spend management systems that help owners manage and control operating expenses. Supporting this family of SaaS products is a suite of shared cloud services including electronic payments, document management, decision support and learning. Through its Propertyware subsidiary, RealPage also provides software and services to single-family rentals and low density, centrally-managed multifamily housing.
