VAALCO Secures Rig for 2021/2022 Drilling Campaign

HOUSTON, June 16, 2021 (GLOBE NEWSWIRE) -- VAALCO Energy, Inc. (NYSE: EGY; LSE: EGY) (“VAALCO” or the “Company”) today announced that, in conjunction with its 2021/2022 drilling program planned to begin later this year, it has executed a contract with Borr Jack-Up XIV Inc., an affiliate of Borr Drilling Limited, to drill two development wells and two appraisal wellbores with options to drill additional wells. The contract provides, among other things, that the drilling rig can be on location as early as December of this year, with the exact timing dependent on other commitments related to the rig.

George Maxwell, Chief Executive Officer, commented, “We continue to work with our joint owners at Etame on our shared goal of executing another successful drilling campaign that can significantly add production and reserves. Success on all four wells contained within the drilling campaign could result in an increase in production of 7,000 to 8,000 gross barrels of oil per day and significant reserve additions of up to 10.2 million barrels of oil for the two appraisal wellbores that would be converted from resources into 2P reserves at year-end 2022. We are excited to get our next drilling campaign underway later this year.”

Maxwell continued, “With the benefit of our hedging program, our capital commitments over the next 12 months are expected to be fully funded through our cash flow and cash on hand. Additionally, we have several initiatives underway geared toward maximizing our netbacks. We remain firmly focused on maximizing shareholder returns while we continue to progress our refreshed strategic objectives to deliver accretive growth.”

About VAALCO

VAALCO, founded in 1985, is a Houston, USA based, independent energy company with production, development and exploration assets in the West African region.

The Company is an established operator within the region, holding a 58.8% working interest in the Etame Marin Block, located offshore Gabon, which to date has produced over 120 million barrels of crude oil and of which the Company is the operator.

Forward Looking Statements

This document includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this document that address activities, events, plans, expectations, objectives or developments that VAALCO expects, believes or anticipates will or may occur in the future are forward-looking statements. These statements may include statements related to the impact of the COVID-19 pandemic, including the sharp decline in the global demand for and resulting global oversupply of crude oil and the resulting steep decline in oil prices, production quotas imposed by Gabon, disruptions in global supply chains, quarantines of our workforce or workforce reductions and other matters related to the pandemic, well results, wells anticipated to be drilled and placed on production, future levels of drilling and operational activity and associated expectations, the implementation of the Company’s business plans and strategy, prospect evaluations, prospective resources and reserve growth, its activities in Equatorial Guinea, expected sources of and potential difficulties in obtaining future capital funding and future liquidity, its ability to restore production in non-producing wells, our ability to find a replacement for the FPSO or to renew the FPSO charter, future operating losses, future changes in crude oil and natural gas prices, future strategic alternatives, future and pending acquisitions, capital expenditures, future drilling plans, acquisition and interpretation of seismic data and costs thereof, negotiations with governments and third parties, timing of the settlement of Gabon income taxes, and expectations regarding processing facilities, production, sales and financial projections. These statements are based on assumptions made by VAALCO based on its experience and perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond VAALCO’s control. These risks include, but are not limited to, crude oil and natural gas price volatility, the impact of production quotas imposed by Gabon in response to production cuts agreed to as a member of OPEC, inflation, general economic conditions, the outbreak of COVID-19, the Company’s success in discovering, developing and producing reserves, production and sales differences due to timing of liftings, decisions by future lenders, the risks associated with liquidity, lack of availability of goods, services and capital, environmental risks, drilling risks, foreign regulatory and operational risks, and regulatory changes.

Investors are cautioned that forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. VAALCO disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
