# Microvision to Present at the AeA Micro Cap Financial Conference

REDMOND, Wash.--(BUSINESS WIRE)--

Microvision (NASDAQ:MVIS), the leader in light scanning technologies for display and imaging products, today announced that its CEO, Alexander Tokman, will speak at the AeA Micro Cap Financial Conference on May 8, 2007, in Monterey, California.

The AeA Micro Cap Financial Conference provides public technology companies with an environment in which to showcase their companies to the investment community. Mr. Tokman will make a short presentation during the general session and then a series of presentations at the breakout meetings at the Monterey Plaza Hotel from 1:15 p.m. to 5:30 p.m. PT on May 8th.

Additional conference information can be found at [www.aeanet.org](http://www.aeanet.org).

About Microvision: [www.microvision.com](http://www.microvision.com)

Headquartered in Redmond, Wash., Microvision Inc. is the world leader in the development of high-resolution displays and imaging systems based on the Company's proprietary silicon micro-mirror technology. The Company's technology has applications in a broad range of consumer, military, medical, industrial, and professional products.

## Forward-Looking Statements Disclaimer

Certain statements contained in this release, including those relating to product applications, are forward-looking statements that involve a number of risks and uncertainties. Factors that could cause actual results to differ materially from those projected in the Company's forward-looking statements include the following: our ability to raise additional capital when needed; risks related to Lumera's business and the market for its equity, market acceptance of our technologies and products; our financial and technical resources relative to those of our competitors; our ability to keep up with rapid technological change; our dependence on the defense industry and a limited number of government development contracts; government regulation of our technologies; our ability to enforce our intellectual property rights and protect our proprietary technologies; the ability to obtain additional contract awards; the timing of commercial product launches and delays in product development; the ability to achieve key technical milestones in key products; dependence on third parties to develop, manufacture, sell and market our products; potential product liability claims and other risk factors identified from time to time in the Company's SEC reports, including the Company's Annual Report on Form 10-K filed with the SEC.
