MicroVision Receives \$14.5 Million in Component Orders

Delivery to Fortune Global 100 customer scheduled to begin in the second half of 2015

REDMOND, Wash.--(BUSINESS WIRE)-- [MicroVision, Inc.](http://www.microvision.com) (NASDAQ: MVIS), a leader in innovative ultra-miniature projection display technology, today announced it has received orders totaling \$14.5 million for components for its Fortune Global 100 customer.

MicroVision plans to begin shipment of components for these orders in the second half of 2015 and expects fulfillment to continue into 2016. MicroVision and its Fortune Global 100 customer recently entered into a licensing agreement whereby MicroVision granted a non-exclusive license to its patented PicoP® display technology to the Fortune Global 100 company. The components MicroVision is selling to its customer are expected to be incorporated into display modules the Fortune Global 100 has developed. MicroVision will also be entitled to royalty payments upon any sales by its customer of the display modules. MicroVision is currently fulfilling component orders received in the second half of 2014 for this same customer.

About MicroVision

MicroVision is the creator of PicoP® display technology, an ultra-miniature laser projection solution for mobile consumer electronics, automotive head-up displays and other applications. MicroVision's patented display technology helps OEMs break down display boundaries and offer enhanced visibility to mobile experiences. Nearly two decades of research has led MicroVision to become an independently recognized leader in the development of intellectual property. MicroVision's IP portfolio has been recognized by the Patent Board as a top 50 IP portfolio among global industrial companies and is also included in the Ocean Tomo 300 Patent Index. The company is based in Redmond, Wash.

Forward-Looking Statements

Certain statements contained in this release, including those relating to timing of shipments, future and future product royalty payments, sales and technology applications, and those containing words such as "scheduled," "expects," "plans," and "will" are forward-looking statements that involve a number of risks and uncertainties. Factors that could cause actual results to differ materially from those projected in the company's forward-looking statements include the following: our ability to raise additional capital when needed; products incorporating our PicoP display engine may not achieve market acceptance, commercial

partners may not perform under agreements as anticipated, we may be unsuccessful in identifying parties interested in paying any amounts or amounts we deem desirable for the purchase or license of IP assets, our or our customers failure to perform under open purchase orders; our financial and technical resources relative to those of our competitors; our ability to keep up with rapid technological change; government regulation of our technologies; our ability to enforce our intellectual property rights and protect our proprietary technologies; the ability to obtain additional contract awards; the timing of commercial product launches and delays in product development; the ability to achieve key technical milestones in key products; dependence on third parties to develop, manufacture, sell and market our products; potential product liability claims; and other risk factors identified from time to time in the company's SEC reports, including the company's Annual Report on Form 10-K filed with the SEC. Except as expressly required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in circumstances or any other reason.
