

# MicroVision Announces Fourth Quarter and Full Year 2018 Results

REDMOND, Wash., March 05, 2019 (GLOBE NEWSWIRE) -- MicroVision, Inc. (NASDAQ:MVIS), a leader in innovative ultra-miniature projection display and sensing technology, today announced results for the quarter and full year ended December 31, 2018.

Revenue for the fourth quarter of 2018 was \$1.8 million, compared to \$2.3 million for the fourth quarter of 2017. MicroVision's net loss for the fourth quarter of 2018 was \$11.9 million, or \$0.13 per share, compared to a net loss of \$8.1 million, or \$0.10 per share for the fourth quarter of 2017.

Revenue for full year 2018 was \$17.6 million, compared to \$9.6 million for full year 2017. MicroVision's net loss for full year 2018 was \$27.3 million, or \$0.31 per share, compared to a net loss of \$25.5 million, or \$0.35 per share for full year 2017.

"We made tremendous progress in 2018 and are very excited by the sales opportunities we have for 2019," said Perry Mulligan, MicroVision's Chief Executive Officer. "By advancing our core technology, products, company culture and our ability to execute we have positioned the company to deliver our technology and solutions to multiple OEMs in 2019."

The company has implemented Revenue Standard ASC 606 for the year beginning January 1, 2018. The Company transitioned to the new standard using the full retrospective approach, and per the standard, historical periods have been adjusted as if the new standard was in place for historical periods.

#### **Financial Results Conference Call**

The conference call will be available for rebroadcast from the Investor Relations section of MicroVision's web site on the Investor Relations Events Calendar page.

#### **About MicroVision**

MicroVision is the creator of PicoP® scanning technology, an ultra-miniature sensing and projection solution based on the laser beam scanning methodology pioneered by the company. MicroVision's platform approach for this sensing and display solution means that

its technology can be adapted to a wide array of applications and form factors. We combine our hardware, software, and algorithms to unlock value for our customers by providing them a differentiated advanced solution for a rapidly evolving, always-on world.

Extensive research has led MicroVision to become an independently recognized leader in the development of intellectual property. MicroVision's IP portfolio has been recognized by the Patent Board as a top 50 IP portfolio among global industrial companies and has been included in the Ocean Tomo 300 Patent Index. The company is based in Redmond, Washington.

MicroVision and PicoP are trademarks of MicroVision, Inc. in the United States and other countries. All other trademarks are the properties of their respective owners.

#### **Forward-Looking Statements**

Certain statements contained in this release, including those relating to advancing technology products and solutions, opportunities to bring products to market, shipping plans for products, future product and technology development and sales, enabling advanced solutions and other products and those containing words such as "positioned" are forwardlooking statements that involve a number of risks and uncertainties. Factors that could cause actual results to differ materially from those projected in the company's forward-looking statements include the following: our ability to raise additional capital when needed; products incorporating our PicoP display engine may not achieve market acceptance, commercial partners may not perform under agreements as anticipated, we may be unsuccessful in identifying parties interested in paying any amounts or amounts we deem desirable for the purchase or license of IP assets, our or our customers failure to perform under open purchase orders; our financial and technical resources relative to those of our competitors; our ability to keep up with rapid technological change; government regulation of our technologies; our ability to enforce our intellectual property rights and protect our proprietary technologies; the ability to obtain additional contract awards; the timing of commercial product launches and delays in product development; the ability to achieve key technical milestones in key products; dependence on third parties to develop, manufacture, sell and market our products; potential product liability claims; and other risk factors identified from time to time in the company's SEC reports, including the company's Annual Report on Form 10-K filed with the SEC. Except as expressly required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in circumstances or any other reason.
