Company Raises Net Income Guidance for Fiscal Year 2012 / Provides Fiscal 2012 Third Quarter Outlook

- For the fiscal year ending March 31, 2012 ("Fiscal Year 2012"), the Company is reiterating its net revenue guidance of between RMB395.0 million and RMB415.0 million and is raising its net income guidance to between RMB55.0 million and RMB60.0 million, up from between RMB40.0 million and RMB45.0 million.
- For the quarter ending December 31, 2011 ("Third Quarter 2012"), ATA believes that net revenues will be between RMB136.0 million and RMB141.0 million.

Mr. Kevin Ma, ATA's Chairman and Chief Executive Officer, stated, "We were pleased to deliver strong revenue and income growth in the second quarter, which came in ahead of our internal projections. We benefitted from an increasing test taker base as more individuals in China are seeking certification, particularly in the financial services industries. By progressively expanding our testing services platform through a balanced number of test titles and partnerships with internationally known content providers, ATA is hopeful that it can continue to build on its leading position in the computer-based testing market in China. We also are achieving steady margin improvement as a result of economies of scale being realized. Growth in our HR Select and TOEIC testing businesses has been accelerating, and we remain confident in our belief that fiscal 2012 will be a strong year."

GAAP Results

For Second Quarter 2012, ATA's total net revenues more than doubled to RMB70.4 million (US\$11.0 million) from RMB33.3 million in the prior-year period, primarily due to increased revenues from the Securities Association of China exam, which was postponed from Second Quarter to Third Quarter in the prior year. Revenues from HR Select for Second Quarter 2012 increased 121.3% to RMB6.4 million (US\$1.0 million), and revenues from TOEIC increased 74.0% to RMB5.5 million (US\$0.9 million).

Gross profit for Second Quarter 2012 increased 163.4% to RMB40.1 million (US\$6.3 million) from RMB15.2 million in the same period last fiscal year. Gross margin increased to 56.9% in Second Quarter 2012, compared to 45.7% in the prior-year period, primarily due to realizing greater economies of scale, especially in our testing services.

Higher revenues contributed to income from operations in Second Quarter 2012 of RMB2.2 million (US\$0.3 million), compared to an operating loss of RMB16.9 million in the prior-year period.

Net income for Second Quarter 2012 was RMB1.4 million (US\$0.2 million), compared to a net loss of RMB14.8 million in the prior-year period.

For Second Quarter 2012, basic and diluted earnings per common share were both RMB0.00 (US\$0.00), compared to a loss of RMB0.33 in the same period last fiscal year. Basic and diluted earnings per ADS were both RMB0.00 (US\$0.00) in Second Quarter 2012, compared to a loss of RMB0.66 in the prior-year period.

In Second Quarter 2012, ATA delivered a total of 1.8 million billable tests, an increase of approximately 62.5% from the prior-year period. The Company believes it has the largest test center network of any commercial testing service provider in China and continues to expand, with a network of 2,115 authorized test centers throughout China as of September 30, 2011.

As a result of our first half financial results being stronger than anticipated, we are raising our annual net income guidance. We expect to report higher profitability as our top line grows. We are very proud of the way that our team has continued to leverage our status as an industry leader in this market, and continually seek new and cost-efficient means of marketing our tests to a wide variety of individuals in China. We feel that there will continue to be stable organic growth within the testing industry and look forward to the future with confidence."

Currency Convenience Translation

The Company's financial information is stated in Renminbi ("RMB"), the currency of the People's Republic of China. The translation of RMB amounts for Second Quarter 2012 and six-month period ended September 30, 2011 into U.S. dollars are included solely for the convenience of readers and have been made at the rate of RMB6.378 to US\$1.00, the noon buying rate as of September 30, 2011, in New York for cable transfers in RMB per US\$ as set forth in the H.10 weekly statistical release of the Federal Reserve Board. Such translations should not be construed as representations that RMB amounts could be converted into U.S. dollars at that rate or any other rate, or to be the amounts that would have been reported under U.S. GAAP.

About Non-GAAP Financial Measures

To supplement ATA's consolidated financial information presented in accordance with U.S. generally accepted accounting principles ("GAAP"), ATA uses the following non-GAAP financial measures: net income (loss) excluding share-based compensation expense and foreign currency exchange gain or loss and basic and diluted earnings per common share and ADS excluding share-based compensation expense and foreign currency exchange gain or loss.

The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. ATA believes these non-GAAP financial measures provide meaningful supplemental information about its performance by excluding share-based compensation expense and foreign currency exchange gain or loss, which may not be indicative of its operating performance from a cash perspective.

ATA believes that both management and investors benefit from these non-GAAP financial measures in assessing its performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management's internal comparisons to ATA's historical performance. ATA computes its non-GAAP financial measures using a consistent method from quarter to quarter. ATA believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. A limitation of using non-GAAP net income (loss) excluding share-based compensation expense and foreign currency exchange gain or loss and basic and diluted earnings per common share and per ADS excluding share-based compensation expense and foreign currency exchange gain or loss is that share-based compensation charges and foreign currency exchange gain or loss have been, and are expected to continue to be for the foreseeable future, a significant recurring expense in ATA's business.

Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The table captioned "Unaudited Reconciliations of Non-GAAP Measures to the Most Comparable GAAP Measures" shown at the end of this news release has more details on the reconciliations between GAAP financial measures that are most directly comparable to the non-GAAP financial measures used by ATA.
