About the Sidoti & Company Emerging Growth Convention

The Sidoti & Company Fall 2016 Emerging Growth Convention will focus on companies with market capitalizations of \$600 million and less, connecting their executive management teams with institutional and high-net-worth investors while building interest and visibility into the most overlooked, undervalued segment of the equity market. Sidoti & Company, founded in 1999, is Wall Street's preeminent provider of equity research generally focused on companies with market capitalizations of under \$3 billion. Sidoti & Company's approach affords institutional investor clients a combination of high-quality research of over 250 companies, a small- and micro-cap company focused nationwide sales effort, broad access to corporate management teams, and extensive trading support. Sidoti & Company serves nearly 500 institutional clients in the U.S., Canada and the U.K., including many leading managers of portfolios with \$200 million to \$2 billion of assets. They also hosts a biannual Emerging Growth Convention in New York, and is a provider of company sponsored research.

About Relmada Therapeutics, Inc.

Relmada Therapeutics is a clinical-stage, publicly traded biotechnology company developing novel versions of proven drug products together with new chemical entities that potentially address areas of high unmet medical need in the treatment of central nervous system (CNS) diseases. The Company has a diversified portfolio of four products at various stages of development, including d-Methadone (dextromethadone, REL-1017), an N-methyl-D-aspartate (NMDA) receptor antagonist for depression and neuropathic pain; LevoCap ER (REL-1015), an abuse resistant, sustained release dosage form of the opioid analgesic levorphanol; oral buprenorphine (BuTab, REL-1028), an oral dosage form of the opioid analgesic buprenorphine; and topical mepivacaine (MepiGel, REL-1021), an orphan drug designated topical formulation of the local anesthetic mepivacaine. The Company's product development efforts are guided by the internationally recognized scientific expertise of its research team. The Company's approach is expected to reduce clinical development risks and costs while potentially delivering valuable products to address areas of high unmet medical needs.
