## First Quarter 2017 Results vs First Quarter 2016 Results

- HSNi's net sales decreased 4% to \$785.4 million. Excluding the results of TravelSmith and Chasing Fireflies, two Cornerstone brands divested in September 2016, and an

additional day for leap year within the HSN segment, HSNi's net sales decreased 1%. HSNi's digital sales penetration increased 200 basis points to 53.8%.

- HSNi's operating income decreased 23% to \$38.6 million.
- Net income was \$21.2 million compared to \$28.6 million in the prior year.
- HSNi's Adjusted EBITDA decreased 18% to \$54.1 million. Excluding the divestitures, Adjusted EBITDA decreased 23% compared to the prior year.
- Diluted EPS and Adjusted EPS were \$0.40 compared to \$0.54 in the prior year.
- As part of the implementation of HSNi's supply chain optimization initiative, HSN incurred additional costs of approximately \$4.0 million, or \$0.05 per diluted share, in the first quarter of 2017 which impacted gross profit and operating expenses.
- HSNi's board of directors approved a quarterly cash dividend of \$0.35 per share payable June 21, 2017 to shareholders of record as of June 7, 2017.
- On April 26, 2017, the Company announced that Mindy Grossman had resigned as chief executive officer effective May 24, 2017. Until a successor is named, the board of directors has established the Office of the Chief Executive consisting of Rod Little, Chief Financial Officer; Bill Brand, Chief Marketing Officer of HSNi and President of HSN; and Judy Schmeling, Chief Operating Officer of HSNi and President of Cornerstone Brands, Inc.

“We continue to focus on stabilization and ultimately growth regeneration in the business. The continued strength of digital sales, and mobile sales in particular, has been very encouraging. Digital sales, which now account for over half of our revenue, continued to grow both in absolute terms and as a proportion of total revenue. Mobile, which we see as our flagship, continues to be our fastest growing sales channel and significant source of new customer acquisition,” said Rod Little, Chief Financial Officer, HSNi.

“We remain committed to our strategies to improve our performance. Our key priorities are: acquiring and retaining customers via a robust and relevant product portfolio, optimizing our digital platforms, and improving our supply chain capabilities and efficiency, all to drive consistent shareholder value creation,” added Mr. Little. “As we look to celebrate our 40th anniversary this summer, we thank Mindy Grossman for her vision, inspiration and leadership over the past decade.”

Mobile sales as a % of digital	29.6 %	26.4 %	320 bps
Catalog circulation (millions) (b)	66.1	83.7	(21 %)

(a) The first quarter of 2016 includes the results of TravelSmith and Chasing Fireflies, two Cornerstone brands divested in September 2016, and an additional day for leap year within the HSN segment.

(b) Excluding the impact of the divestitures, average price point increased 2%; units shipped increased 2% and catalog circulation decreased 14%. The other metrics included in Table 3 were not significantly impacted by the divestitures.

**HSN Segment Results for the First Quarter 2017**

HSN's net sales were \$560.5 million, a decrease of 3% from the prior year. Excluding the benefit of having an additional day for leap year in the first quarter of 2016, HSN's net sales decreased 2%. Digital sales grew 3% with penetration increasing 290 basis points to 46.7%. Sales grew in apparel & accessories, kitchen and home, offset by decreases in other product categories. Shipping revenues declined primarily due to the August 2016 changes

in the standard shipping rates and increased promotions. Average price point increased 4% largely due to changes in product mix. Units shipped decreased 8%.

Gross profit decreased 4% to \$191.1 million. Gross profit rate decreased 40 basis points to 34.1% primarily due to a decrease in shipping revenues and higher fulfillment costs, partially offset by an increase in product margins. The increase in fulfillment costs was primarily the result of the ongoing implementation of HSNi's supply chain optimization which, among other things, includes expanding the automation capabilities in its Piney Flats, Tennessee distribution center.

Operating expenses increased 3% to \$153.6 million driven by higher costs incurred from the supply chain optimization and an increase in bad debt expense. Excluding non-cash charges, operating expenses increased 3% and were 25.4% as a percentage of net sales compared to 24.0% in the prior year.

Operating income decreased \$12.1 million, or 24%, to \$37.5 million. Adjusted EBITDA decreased \$12.1 million, or 20%, to \$48.6 million. HSNi's supply chain optimization implementation resulted in an additional \$4.0 million of costs in the first quarter of 2017 which impacted gross profit and operating expenses.

### **Cornerstone Segment Results for the First Quarter 2017**

Cornerstone's net sales decreased 6% to \$224.9 million. Excluding the results of TravelSmith and Chasing Fireflies which were divested in September 2016, net sales increased 1% and catalog circulation decreased 14%. Digital sales decreased 5% while penetration increased 60 basis points to 71.5%. Excluding the divestitures, digital sales grew 2% and penetration increased 120 basis points.

Gross profit decreased 9% to \$82.0 million and the gross profit rate decreased 130 basis points to 36.5%. Excluding the impact of the TravelSmith and Chasing Fireflies' divestitures, gross profit decreased 3% primarily due to a decrease in shipping margins driven by higher promotional activity in the home brands, partially offset by higher product margins.

Operating expenses decreased 10% to \$80.9 million primarily due to the divested businesses. Excluding the divestitures and non-cash charges, operating expenses increased 2% and were 34.0% as a percentage of net sales compared to 33.6% in the prior year which was primarily due to higher employee-related costs.

Operating income increased \$0.9 million to \$1.1 million. Adjusted EBITDA increased \$0.5 million to \$5.6 million. Excluding the operating results of the divested businesses, Adjusted EBITDA decreased \$4.1 million compared to the prior year due to lower performance in the home brands and the absorption of fixed costs from the divested businesses.

### **Liquidity and Capital Resources**

As of March 31, 2017, HSNi had cash and cash equivalents of \$48.2 million compared to \$42.7 million at December 31, 2016 and \$46.8 million at March 31, 2016. Net cash provided by operating activities for the three months ended March 31, 2017 decreased \$10.2 million to \$22.3 million compared to \$32.5 million in the prior year due to a decrease in operating performance and changes in working capital.

As of March 31, 2017, total debt was \$529 million, resulting in a ratio of total debt to Adjusted EBITDA, as defined in HSNi's credit agreement, of approximately 1.9x as compared to a maximum allowable leverage ratio of 3.5x.

HSNi's board of directors approved a quarterly cash dividend of \$0.35 per share payable June 21, 2017 to shareholders of record as of June 7, 2017.

Since inception of its most recent share repurchase program authorized in January 2015, HSNi has repurchased a total of 1.3 million shares at an aggregate cost of \$75.1 million at an average cost of \$57.56 per share. As of March 31, 2017, there were 2.7 million shares remaining under the existing share repurchase authorization.

### **Effective Tax Rate**

The effective tax rate for HSNi was 39% for the first quarter of 2017 compared to 37% in the prior year. The change in the effective tax rate was primarily due to a change in the accounting rules effective January 1, 2017 which impacts how the tax effects of share-based awards are recognized.

#### **Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995**

This press release may contain forward-looking statements relating to the future performance and financial condition of HSNi, its operating segments and its consolidated subsidiaries. Forward-looking statements are based on management's current expectations and assumptions which may not prove to be accurate. Forward-looking statements are not guarantees of performance or historical facts and there are a number of known and unknown risks, uncertainties, contingencies and other factors (many of which are outside our control) that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include but are not limited to: our ability to attract new and retain existing customers in a cost-effective manner; our exposure to intense competition and our ability to effectively compete for customers; changes in political, business and economic conditions, particularly those that affect consumer confidence, consumer spending or digital sales growth; changes in our relationships with pay television operators, vendors, manufacturers and other third parties; failure to attract and retain television viewers and secure a suitable programming tier of carriage and channel placement for the HSN television network programming; changes to international and national trade laws, regulations and policies (particularly those related to or restricting global trade) could significantly impair HSNi's profitability; interruption, lack of redundancy or difficulties implementing new or upgraded technology in our systems or infrastructure could affect our ability to broadcast, operate websites, process and fulfill transactions, respond to customer inquiries and/or maintain cost efficient operations; any technological or regulatory developments that could negatively impact the way we do business, including legislation or regulations regarding income taxes or sales and use taxes; risks associated with possible systems failures and/or security breaches, including any breach that results in the theft, transfer or unauthorized access or disclosure of customer, employee or company information, or the failure to comply with various laws applicable to HSNi in the event of such a breach; changes in shipping and handling costs, particularly if we are unable to offset them; changes in consumer

expectations towards reduced shipping charges and faster delivery times, particularly if we are unable to meet them; any material change in HSNi's business prospects and/or strategy, including whether HSNi's initiatives and investments will be effective; our ability to offer new or innovative products and services through various platforms in a cost effective manner and consumer acceptance of these products and services; risks associated with litigation, audits, claims and assessments; risks associated with acquisitions including the ability to successfully integrate new businesses and achieve expected benefits and results; and the loss of any key member of our senior management team, including our current chief executive officer transition. More information about potential factors that could affect HSNi's business and financial results is included in our filings with the U.S. Securities and Exchange Commission. Other unknown or unpredictable factors that could also adversely affect HSNi's business, financial condition and results of operations may arise from time to time. In light of these risks and uncertainties, any forward-looking statements may not prove to be accurate. All written or oral forward-looking statements that are made or attributable to us are expressly qualified in their entirety by this cautionary notice. Accordingly, you should not place undue reliance on any forward-looking statements, which only reflect the views of HSNi management as of the date of this press release. Such statements speak only to the date such statements are made and HSNi does not undertake to update any forward-looking statements. ## HSN, INC.'S PRINCIPLES OF FINANCIAL REPORTING

HSNi reports Adjusted EBITDA, Adjusted Net Income and Adjusted EPS, all of which are supplemental measures to GAAP. These measures are among the primary metrics by which we evaluate the performance of our businesses, on which our internal budgets are based and by which management is compensated. We believe that investors should have access to, and we are obligated to provide, the same set of tools that we use in analyzing our results. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. HSNi endeavors to compensate for the limitations of the non-GAAP measures presented by providing the comparable GAAP measures with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measures. We encourage investors to examine the reconciling adjustments between the GAAP and non-GAAP measures contained in this release and which we discuss below.

## Definitions of Non-GAAP Measures

Adjusted EBITDA is defined as operating income excluding, if applicable: (1) non-cash charges including: (a) stock-based compensation expense, (b) amortization of intangibles, (c) depreciation and gains and losses on asset dispositions, and (d) goodwill, long-lived asset and intangible asset impairments; (2) pro forma adjustments for significant

acquisitions; and (3) other significant items. Significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, thereby affecting the comparability of results. Adjusted EBITDA is not a measure determined in accordance with GAAP, and should not be considered a substitute for operating income, net income or any other measure determined in accordance with GAAP. Adjusted EBITDA is used as a measurement of operating efficiency and overall financial performance and HSNi believes it to be a helpful measure for those evaluating companies in the retail and media industries. Adjusted EBITDA should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Adjusted EBITDA has certain limitations in that it does not take into account the impact to HSNi's statement of operations of certain expenses, gains and losses that are excluded from the company's definition of Adjusted EBITDA.

Adjusted Net Income is defined as net income available to common shareholders excluding, net of tax effects, if applicable: (1) goodwill, long-lived asset and intangible asset impairments, (2) pro forma adjustments for significant acquisitions, (3) discontinued operations and (4) other significant items. Significant items, while periodically affecting our results, may vary significantly from period to period and have a disproportionate effect in a given period, thereby affecting the comparability of results. We believe Adjusted Net Income is useful to investors because it represents HSNi's consolidated results taking into account charges which are not allocated to the operating businesses such as interest expense and taxes, but excluding the effects of goodwill and asset impairments, significant acquisition-related adjustments, discontinued operations and certain other significant items.

Adjusted EPS is defined as Adjusted Net Income divided by diluted weighted average shares outstanding. We believe Adjusted EPS is useful to investors because it represents, on a per share basis, HSNi's consolidated results, taking into account charges which are not allocated to the operating businesses such as interest expense and taxes, but excluding the effects of goodwill and asset impairments, significant acquisition-related adjustments, discontinued operations and certain other significant items. Adjusted Net Income and Adjusted EPS have certain limitations in that they do not take into account the impact of goodwill and asset impairments, significant acquisition-related adjustments, discontinued operations and certain other significant items. Therefore, we think it is important to evaluate these measures along with our consolidated statement of operations.
