"We continue to believe a balanced approach to capital allocation to be in the best interest of the company and consistent with the feedback from our shareholders. Marvell intends to effect the repurchase program in accordance with the conditions of Rule 10b-18 under the Exchange Act. The repurchase program will be subject to market conditions and other factors and does not obligate Marvell to repurchase any dollar amount or number of its common shares. The program may be extended, modified, suspended or discontinued at any time. The repurchases, which are expected to be funded from Marvell's current cash and short-term investments position that stood at approximately \$2.0 billion as of October 27, 2012, may occur in open market, privately negotiated or block transactions.
