

# WisdomTree Announces Third Quarter 2020 Results – Diluted Loss Per Share of (\$0.01), or Earnings Per Share of \$0.07, as adjusted

NEW YORK, Oct. 30, 2020 (GLOBE NEWSWIRE) -- WisdomTree Investments, Inc. (NASDAQ: WETF) today reported financial results for the third quarter of 2020.

**\$12.0 million of non-cash charges**, including (i) a loss on revaluation of deferred consideration of \$8.9 million and (ii) a \$3.1 million impairment charge related to our investment in Thesys Group, Inc.

**(\$0.3) million net loss (\$11.0<sup>1</sup> million net income, as adjusted)**, see "Non-GAAP Financial Measurements" for additional information.

**\$60.7 billion of ending AUM**, an increase of 5.3% arising primarily from market appreciation, partly offset by net outflows.

**\$468 million of net outflows**, driven by outflows from our commodity and international developed market equity products, partly offset by inflows into our U.S. equity and emerging market equity products.

0.42% average global advisory fee, an increase of 1 basis point due to AUM mix shift.

**\$64.6 million of operating revenues**, an increase of 11.2% primarily due to higher average AUM and a higher average global advisory fee.

**76.5% gross margin**<sup>1</sup>, a 1.4 point increase primarily due to higher revenues.

**22.8% operating income margin**, a 2.5 point increase primarily due to higher revenues, partly offset by higher operating expenses.

**\$25.0 million issuance of convertible senior notes due 2023**, which were issued on the same terms as the notes previously issued.

**\$4.5 million repurchase of 1.1 million shares of our common stock**, principally in connection with the issuance of the convertible notes.

**\$0.03 quarterly dividend declared**, payable on November 25, 2020 to stockholders of record as of the close of business on November 11, 2020.

"We have restored the momentum built prior to the pandemic through steadfast focus on what we can control and strong execution amid a highly volatile and unusual year. Important elements across our global franchise are starting to align and I'm excited about our growth outlook for the remainder of the year and into 2021."

"Given the strength and sustainability of our execution over the past eight months, we have decided to pursue a 'remote first' philosophy and plan to reduce our office space globally. Technology has brought our team closer together and driven productivity gains while our funds continue to operate flawlessly with coordination from our third-party service providers. We are taking this action because we believe it is the right strategy to drive sustained momentum and future growth of the business and the cost savings could be meaningful."

#### **OPERATING AND FINANCIAL HIGHLIGHTS**

#### Company News

- In August 2020, we issued and sold an additional \$25.0 million in aggregate principal amount of convertible senior notes due 2023 following our issuance in June 2020 of \$150.0 million in aggregate principal amount of such notes.
- In September 2020, we won two awards at the AJ Bell Fund & Investment Trust Awards 2020 for WisdomTree Physical Gold (PHAU) and WisdomTree Cloud Computing UCITS ETF (WCLD).
- In October 2020, we were named "Best International Equity ETF Issuer (\$1BN+)" by the ETF Express U.S. Awards 2020, which recognizes excellence among ETF issuers and service providers across a wide range of categories.

#### Product News

- In August 2020, we announced an index change for WTI Crude Oil ETC (CRUD) following a vote by security holders; we announced that enhancements were made to the WisdomTree Growth Leaders Fund (PLAT) previously the WisdomTree Modern Tech Platforms Fund focusing on growth exposure of platform businesses with the addition of growth screen criteria and a fee reduction; and we cross-listed five funds in Mexico four European products: SGBS, WCLD1, VOLT, WTAI and one U.S. ETF: WCLD.
- In October 2020, we implemented a number of volatility proofing measures for three currency-hedged and six short-and-leveraged ETPs in Europe; we announced a forward share split of 2:1 on the WisdomTree China ex-State-Owned Enterprises Fund (CXSE); we applied an ESG screen and introduced the WisdomTree Composite Risk Score to the WisdomTree Global Quality Dividend Growth UCITS ETF (GGRA), the WisdomTree SmallCap Dividend UCITS ETF (DGSE) and the WisdomTree Emerging Markets Equity Income UCITS ETF (DEM); and we announced a collaboration with 55ip, a financial technology company, to deliver WisdomTree model portfolios utilizing 55ip's automated tax-smart technology.

#### QUARTERLY HIGHLIGHTS

#### **Operating Revenues**

- Operating revenues increased 11.2% from the second quarter of 2020 due to higher average global AUM arising from market appreciation, partly offset by net outflows. Also, our average global advisory fee increased 1 basis point due to AUM mix shift.
- Operating revenues decreased 4.5% from the third quarter of 2019 due to a 2 basis point decline in our average global advisory fee arising from AUM mix shift, notwithstanding the increase in our average AUM.
- Our average global advisory fee was 0.42%, 0.41% and 0.44% during the third quarter of 2020, the second quarter of 2020 and the third quarter of 2019, respectively.

#### **Operating Expenses**

• Operating expenses increased 7.7% from the second quarter of 2020 due to higher incentive compensation accruals, marketing expenses, and higher fund management and administration costs due to higher average AUM and an increase in contractual

gold payments due to higher average gold prices.

• Operating expenses decreased 3.3% from the third quarter of 2019 due to lower sales and business development costs, partly offset by higher contractual gold payments due to higher average gold prices.

#### Other Income/(Expenses)

- We recognized a non-cash loss on revaluation of deferred consideration of (\$8.9) million, (\$23.4) million and (\$6.3) million during the third quarter of 2020, second quarter of 2020 and third quarter of 2019, respectively. These losses arose due to an increase in forward-looking gold prices when compared to the previous periods' forward-looking gold curves. The magnitude of any gain or loss recognized is highly correlated to the magnitude of the change in the forward-looking price of gold.
- Interest expense increased 22.8% from the second quarter of 2020 to \$2.5 million primarily due to higher effective interest rates. This expense decreased 11.3% from the third quarter of 2019 primarily due to a lower level of debt outstanding.
- During the third quarter of 2020, we recognized a non-cash impairment charge of \$3.1 million related to our investment in Thesys.
- Other gains, net, were \$0.7 million, \$1.8 million and \$0.8 million for the third quarter of 2020, second quarter of 2020 and third quarter of 2019, respectively. The third quarter of 2020 and second quarter of 2020 includes a gain of \$0.2 million and \$0.9 million, respectively, arising from an adjustment to the estimated fair value of consideration received from the exit of our investment in AdvisorEngine Inc. Gains and losses also generally arise from the sale of gold earned from management fees paid by our physically-backed gold ETPs, foreign exchange fluctuations, securities owned and other miscellaneous items.

#### Income Taxes

- Our effective income tax rate for the third quarter of 2020 of 123.7% resulted in income tax expense of \$1.4 million. Our tax rate differs from the federal statutory tax rate of 21% primarily due to a non-deductible loss on revaluation of deferred consideration. This loss was partly offset by a lower tax rate on foreign earnings.
- Our adjusted effective income tax rate was 16.7%<sup>1</sup>.

#### NINE MONTH HIGHLIGHTS

- Operating revenues decreased 6.4% as compared to 2019 due to a 3 basis point decline in our average global advisory fee arising from AUM mix shift.
- Operating expenses decreased 10.1% as compared to 2019 due to lower incentive compensation accruals as well as \$3.5 million of severance expense included in the prior period, lower sales and business development costs, third party distribution costs, marketing expenses and other expenses, as well as lower fund management and administration costs primarily due to the sale of our Canadian ETF business. These declines were partly offset by higher contractual gold payments due to higher average gold prices.
- Significant changes in items reported in other income/(expenses) include a decrease in interest expense of 19.2% due to a lower level of debt outstanding; non-cash loss on revaluation of deferred consideration of (\$34.4) million and (\$5.9) million in 2020 and 2019, respectively; non-cash impairment charges of \$22.8 million recorded in 2020; a

loss on extinguishment of debt of \$2.4 million in 2020; non-cash charges of \$6.0 million and \$4.3 million in 2020 and 2019, respectively, arising from the release of tax-related indemnification assets upon the expiration of the statute of limitations (an equal and offsetting benefit was recognized in income tax expense); and a gain of \$1.1 million in 2020 arising from an adjustment to the estimated fair value of consideration received from the exit of our investment in AdvisorEngine.

Our effective income tax rate for 2020 of 7.4% resulted in an income tax benefit of \$1.8 million. Our tax rate differs from the federal statutory rate of 21% primarily due to a valuation allowance on capital losses, a non-deductible loss on revaluation of deferred consideration and tax shortfalls associated with the vesting and exercise of stock-based compensation awards. These items were partly offset by a tax benefit of \$6.0 million recognized in connection with the release of the tax-related indemnification asset described above, a \$2.9 million non-taxable gain recognized upon sale of our Canadian ETF business in the first quarter, a tax benefit of \$2.8 million recognized in connection with the release valuation allowance on interest carryforwards arising from our debt previously held in the United Kingdom and a lower tax rate on foreign earnings.

#### CONFERENCE CALL

WisdomTree will discuss its results and operational highlights during a conference call on Friday, October 30, 2020 at 9:00 a.m. ET. The call-in number will be (877) 303-7209. Anyone outside the U.S. or Canada should call (970) 315-0420. The slides used during the presentation will be available at <a href="http://ir.wisdomtree.com">http://ir.wisdomtree.com</a>. For those unable to join the conference call at the scheduled time, an audio replay will be available on <a href="http://ir.wisdomtree.com">http://ir.wisdomtree.com</a>.

#### ABOUT WISDOMTREE

WisdomTree Investments, Inc., through its subsidiaries in the U.S. and Europe (collectively, "WisdomTree"), is an ETF and ETP sponsor and asset manager headquartered in New York. WisdomTree offers products covering equity, commodity, fixed income, leveraged and inverse, currency and alternative strategies. WisdomTree currently has approximately \$62.5 billion in assets under management globally.

 $\mathsf{WisdomTree}^{\texttt{®}}$  is the marketing name for  $\mathsf{WisdomTree}$  Investments, Inc. and its subsidiaries worldwide.

#### **Non-GAAP Financial Measurements**

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this press release include:

- Adjusted operating income, operating expenses, income before income taxes, income tax expense, net income and diluted earnings per share. We disclose adjusted operating income, operating expenses, income before income taxes, income tax expense, net income and diluted earnings per share as non-GAAP financial measurements in order to report our results exclusive of items that are non-recurring or not core to our operating business. We believe presenting these non-GAAP financial measures provides investors with a consistent way to analyze our performance. These non-GAAP financial measures exclude the following:
  - Unrealized gains or losses on the revaluation of deferred consideration
     Deferred consideration is an obligation we assumed in connection with the ETFS
     acquisition that is carried at fair value. This item represents the present value of
     an obligation to pay fixed ounces of gold into perpetuity and is measured using
     forward-looking gold prices. Changes in the forward-looking price of gold may
     have a material impact on the carrying value of the deferred consideration and
     our reported financial results. We exclude this item when calculating our non GAAP financial measurements as it is not core to our operating business. The
     item is not adjusted for income taxes as the obligation was assumed by a wholly owned subsidiary of ours that is based in Jersey, a jurisdiction where we are
     subject to a zero percent tax rate.
  - Tax shortfalls and windfalls upon vesting and exercise of stock-based compensation awards: GAAP requires the recognition of tax windfalls and shortfalls within income tax expense. These items arise upon the vesting and exercise of stock-based compensation awards and the magnitude is directly correlated to the number of awards vesting/exercised as well as the difference between the price of our stock on the date the award was granted and the date the award vested or was exercised. We exclude these items when calculating our non-GAAP financial measurements as they introduce volatility in earnings and are not core to our operating business.
  - Interest expense from the amortization of discount arising from the bifurcation of the conversion option embedded in the convertible notes: GAAP requires convertible instruments to be separated into their liability and equity components by allocating the issuance proceeds to each of these components. The liability component for convertible instruments that qualify for a derivative scope exception (applicable to our convertible notes) is allocated proceeds equal to the estimated fair value of similar debt without the conversion option. The difference

between the gross proceeds received from the issuance of the convertible instrument and the proceeds allocated to the liability component represents the residual amount that is classified in equity. The discount arising from the recognition of the residual amount classified in equity is amortized as interest expense over the life of the instrument. We exclude this item when calculating our non-GAAP financial measurements as it is non-cash and distorts our actual cost of borrowing. In addition, in August 2020, the FASB issued Accounting Standards Update 2020-06, *Debt – Debt with Conversion and Other Options, Cash Conversion* which includes the elimination of the requirement to bifurcate conversion options qualifying for a derivative scope exception. Once effective, this interest expense will no longer be recognized.

- Other items: Loss on extinguishment of debt, the release of a deferred tax asset valuation allowance recognized on interest carryforwards arising from our debt previously outstanding in the United Kingdom, a gain arising from an adjustment to the estimated fair value of consideration received from the exit of our investment in AdvisorEngine, impairment charges, a gain recognized upon sale of our Canadian ETF business and acquisition and disposition-related costs are excluded when calculating our non-GAAP financial measurements.
- Adjusted effective income tax rate. We disclose our adjusted effective income tax rate as a non-GAAP financial measurement in order to report our effective income tax rate exclusive of items that are non-recurring or not core to our operating business. We believe reporting our adjusted effective income tax rate provides investors with a consistent way to analyze our income taxes. Our adjusted effective income tax rate is calculated by dividing adjusted income tax expense by adjusted income before income taxes. See above for information regarding the items that are excluded.
- Gross margin and gross margin percentage. We disclose our gross margin and gross
  margin percentage as non-GAAP financial measurements because we believe they
  provide investors with a consistent way to analyze the amount we retain after paying
  third-party service providers to operate our ETPs. These measures also assist us in
  analyzing the profitability of our products. We define gross margin as total operating
  revenues less fund management and administration expenses. Gross margin
  percentage is calculated as gross margin divided by total operating revenues.
- Adjusted operating income margin. We disclose adjusted operating income margin as a non-GAAP financial measurement in order to report our operating income margin exclusive of items that are non-recurring or not core to our operating business.

### Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forwardlooking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about

- the ultimate duration of the COVID-19 pandemic and its short-term and long-term impact on our business and the global economy;
- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- competition in our business;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully operate and expand our business in non-U.S. markets; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- declining prices of securities, gold and other precious metals and other commodities can adversely affect our business by reducing the market value of the assets we manage or causing WisdomTree ETP investors to sell their fund shares and trigger redemptions;
- fluctuations in the amount and mix of our AUM, whether caused by disruptions in the financial markets or otherwise, including but not limited to a pandemic event such as COVID-19, may negatively impact revenues and operating margins, and may impede our ability to refinance our debt upon maturity, increase the cost of borrowing or result in our debt being called prior to maturity;
- competitive pressures could reduce revenues and profit margins;
- we derive a substantial portion of our revenues from a limited number of products, and

as a result, our operating results are particularly exposed to investor sentiment toward investing in the products' strategies and our ability to maintain the AUM of these products, as well as the performance of these products and market-specific and political and economic risk;

- a significant portion of our AUM is held in products with exposure to U.S. and international developed markets and we therefore have exposure to domestic and foreign market conditions and are subject to currency exchange rate risks;
- withdrawals or broad changes in investments in our ETPs by investors with significant positions may negatively impact revenues and operating margins;
- over the last few years, we have expanded our business globally. This expansion subjects us to increased operational, regulatory, financial and other risks;
- many of our ETPs have a limited track record, and poor investment performance could cause our revenues to decline; and
- we depend on third parties to provide many critical services to operate our business and our ETPs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm WisdomTree ETP investors.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, see "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2019 and Quarterly Reports on Form 10-Q for the quarters ended March 31, 2020 and June 30, 2020.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.
