20.0023. Transfer from Schedule D to Schedule BA - acquired (investing)		(134,033,354)

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of **Athene Annuity and Life Company** (the Company) have been prepared in conformity with the accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Iowa.

The Insurance Division, Department of Commerce, of the State of Iowa (the Division) recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Iowa Insurance Law. The NAIC's *Accounting Practices & Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Iowa. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

Among the products issued by the Company are indexed universal life insurance and indexed annuities. These products allow a portion of the premium to earn interest based on certain indices, primarily the Standard & Poor's 500 Composite Stock Price Index. Call options, futures, variance swaps and total return swaps are purchased to hedge the growth in interest credited to the customer as a direct result of increases in the related indices. In 2006, the Commissioner of the Division issued Bulletin 06-01, *Accounting for Derivative Instruments Used to Hedge the Growth in Interest Credited for Index Products*, which prescribes that an insurer may elect to recognize changes in the fair value of derivative instruments purchased to hedge indexed products in the statement of operations. The Company has elected to apply Bulletin 06-01 to its futures, variance swaps and total return swaps, which resulted in a decrease of \$1.5 million and less than \$0.1 million to the Company's net income for the years ended December 31, 2018 and 2017, respectively. Application of Bulletin 06-01 does not impact the Company's statutory surplus amounts.

In 2009, the Commissioner of the Division promulgated Iowa Administrative Code (IAC) Section 191-97, *Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve*, which prescribes that an insurer may elect (i) to use an amortized cost method to account for certain derivative instruments, such as call options, purchased to hedge the growth in interest credited to the customer on indexed insurance products and (ii) to utilize an indexed annuity reserve calculation methodology under which call options associated with the current index interest crediting term are valued at zero. The Company has elected to apply IAC Section 191-97 to its over the counter (OTC) call options and reserve liabilities. As a result, the Company's net income decreased by \$182.3 million and increased by \$97.2 million for the years ended December 31, 2018 and 2017, respectively, and the Company's statutory surplus increased by \$38.7 million and decreased by \$66.2 million as of December 31, 2018 and 2017, respectively.

The NAIC requires annuities issued by life insurance companies on or after January 1, 2015, to use the 2012 Individual Annuity Reserving (IAR) Mortality Table. In 2015, the Division promulgated IAC Section 43.3(5), which set an elective alternative effective date of January 1, 2016 for adoption of the 2012 IAR Mortality Table. The Company chose to use the Annuity 2000 Mortality Table for all annuities issued in 2015, which resulted in an increase of \$0.6 million and \$1.2 million to the Company's net income for the years ended December 31, 2018 and 2017, respectively. The Company's statutory surplus increased by \$3.3 million and \$2.7 million as of December 31, 2018 and 2017, respectively.

The Company received a permitted practice from the Division which allowed the Company to record a surplus reset under SSAP No. 72, *Surplus and Quasi-Reorganizations*, during the quarter ended March 31, 2017. This approval is deemed a permitted practice as it was granted greater than six months following a change of control, which is the criteria outlined in SSAP No. 72. The acquisition of the Company by Athene Holding Ltd (AHL) on October 2, 2013 represented a 100% change of ultimate ownership as well as a substantive change in the operations of the Company. The surplus reset resulted in a reclassification between unassigned surplus and gross paid-in and contributed surplus of \$1,502.3 million, which is equal to the negative unassigned surplus balance on October 2, 2013 immediately following the execution of all transactions which occurred as a result of the change in control. This permitted practice has no impact on the Company's net income or total capital and surplus.

A reconciliation of the Company's net income and statutory surplus between practices prescribed or permitted by the State of Iowa and NAIC SAP is shown below:

	SSAP #	F/S Page	F/S Line #	2018	2017
NET INCOME					
(1) State basis (Page 4, Line 35, Columns 1 & 2)	XXX	XXX	XXX	80,635,223	239,330,813

(8) NAIC SAP (5-6-7=8)	XXX	XXX	XXX	1,192,184,780	1,227,725,981

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium paying period of the related policies. Annuity considerations are recognized as revenue when received. Accident and health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity, and expense experience for the year and to the appropriate level of statutory surplus to be retained by the Company.

NOTES TO FINANCIAL STATEMENTS

In addition, the Company uses the following accounting policies, as applicable:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds, other than loan-backed and structured securities, are stated at amortized cost or fair value based on their rating by the NAIC. Bonds held at amortized cost are amortized using the scientific interest method on a yield-to-worst basis.
- (3) Common stocks are stated at market value except that investments in stocks of subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis. Federal Home Loan Bank (FHLB) stock is carried at fair value, which is presumed to be par because it can only be redeemed by the bank.
- (4) Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32, *Preferred Stock*.
- (5) Mortgage loans on real estate are stated at amortized cost.
- (6) Loan-backed and structured securities are stated at amortized cost or fair market value based on their rating by the NAIC. Changes to estimated cash flows on the securities are accounted for retrospectively for securities that are highly rated at the time of purchase and in which the security cannot be contractually prepaid or settled in such a way that the Company would not recover substantially all of the recorded investment. The prospective method is used for those securities where an other than temporary impairment has been taken, the security is not highly rated at the time of purchase, securities where receipt of all contractual principal cash flows is not expected, or those securities that can be contractually prepaid or settled in such a way that the Company would not recover substantially all of the recorded investment. Loan-backed and structured securities stated at amortized cost are amortized or accreted using the scientific interest method.
- (7) The Company carries investments in affiliated common stocks directly and indirectly owned at Statutory (insurance companies) or GAAP (non-insurance companies) net worth plus unamortized goodwill, if applicable, multiplied by the percent of the Company's ownership interest.
- (8) Investments in joint ventures, partnerships, or limited liability companies are valued at the US GAAP equity of the entity, adjusted for audited results upon receipt. Changes in US GAAP equity are recorded as an unrealized gain or loss in the Company's capital and surplus. These investments are valued based on the timeliness of information received, which ranges from recording timely to a lag of up to three months.
- (9) Call option derivative assets that hedge the growth in interest credited to the hedged policy as a direct result of changes in the related indices are recorded at amortized cost. Replication synthetic asset transactions are reported at amortized cost. Derivative instruments used in hedging transactions that meet the criteria of a highly effective hedge shall be considered an effective hedge and are permitted to be valued and reported in a manner that is consistent with the hedged items. All other derivative assets and liabilities are stated at fair value.
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation for either life or accident and health business.
- (11) Unpaid losses and loss adjustment expenses on any accident and health business include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates. While management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are periodically reviewed and any adjustment is reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

Management's assessment of the relevant conditions through February 27, 2019 does not give rise to substantial doubt of the Company's ability to continue as a going concern.

Note 2. Accounting Changes and Corrections of Errors

During the current year's financial statement preparation, the Company discovered errors within prior period Annual Statements relating to A-791 amortization and reserves. After consideration of materiality and in accordance with SSAP No. 3, *Accounting Changes and Correction of Errors*, these corrections were recorded directly to surplus. The impact of the correction of A-791 amortization represented a reclassification of \$54.8 million between income and surplus, with no net impact to surplus, and the impact of the correction of reserves increased surplus by \$0.5 million in 2018. The impact of these amounts represented less than 1% of ending capital and surplus as of both December 31, 2018 and 2017.

Note 3. Business Combinations and Goodwill

- A. On October 2, 2013, Athene Annuity & Life Assurance Company (AADE) contributed Athene Annuity & Life Assurance Company of New York (AANY), a New York insurance company, to the Company, which included remaining unamortized goodwill of \$10.7 million. The Company maintained AADE's original goodwill amortization schedule.

1	2	3	4	5	6	7
Purchased Entity	Acquisition Date	Cost of Acquired Entity	Original Amount of Admitted Goodwill	Admitted Goodwill as of the Reporting Date	Amount of Goodwill Amortized During the Reporting Period	Admitted Goodwill as a % of SCA BACV, Gross of Admitted Goodwill
Athene Annuity & Life Assurance Company of New York	10/02/2013 193,313,705 10,649,373 4,259,749 1,064,937 1.5%

- (4) The following table shows the gross unrealized losses and fair values of loan-backed securities, which have not been impaired to fair value, aggregated by length of time that individual securities have been in a continuous unrealized loss position as of December 31, 2018.

a. The aggregate amount of unrealized losses:	
1. Less than 12 Months	212,928,231
2. 12 Months or Longer	48,103,676
b. The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 Months	5,103,903,561
2. 12 Months or Longer	994,103,628

- (5) A full analysis of all relevant qualitative considerations was completed in reaching the conclusion that the impairments were not other-than-temporary, including the intent and ability to hold the investment for a period of time sufficient to allow for a recovery in value. Specific events that may influence the operations of the issuer and impaired earnings potential are reviewed in addition to length of time and extent to which the fair value has been less than cost.

Note 6. Joint Ventures, Partnerships and Limited Liability Companies

A. The Company has no investments in Joint Venture, Partnerships or Limited Liability Companies representing more than 10% of its admitted assets.

B. The Company recognized other-than-temporary impairments of \$45.4 million and \$1.1 million as of December 31, 2018 and 2017, respectively, on partnerships and limited liability companies included in Schedule BA. The impairments were based on an assessment that future cash flows of affected limited partnerships would be less than the cost basis of the limited partnership. Fair value is determined by statements received from the partnerships and limited liability companies.

Note 7. Investment Income

A. Due and accrued income was excluded from surplus on the following basis: All investment income due and accrued with amounts that are over 90 days past due with the exception of mortgage loans in default.

B. The total amount excluded was \$0.4 million and \$0.1 million as of December 31, 2018 and 2017, respectively.

NOTES TO FINANCIAL STATEMENTS

Note 8. Derivative Instruments

A, B, C. The Company utilizes derivative instruments which may include the following:

Options: The Company has issued fixed indexed products. These contracts credit interest based on certain indices, primarily the Standard & Poor's 500® Composite Stock Price Index. Over-the-counter (OTC) option contracts, call options and call spreads are purchased to hedge the growth in interest credited to the customer as a direct result of increases in the related indices. Upon exercise, the Company will receive the fair value of the call option. The parties with whom the Company enters into OTC option contracts are highly rated financial institutions where contracts are supported by collateral, which minimizes the credit risk associated with such contracts.

Variance Swaps: The Company has issued fixed indexed products. These contracts credit interest based on certain indices, primarily the Standard & Poor's 500® Composite Stock Price Index. The Company uses variance swaps to hedge the market risks from changes in volatility for these products. Under variance swaps, the Company and the counterparty agree to exchange amounts calculated based on a fixed rate (implied volatility at inception of transaction) and realized volatility over the life of the transaction (similar to an interest rate swap). Generally, no cash is exchanged at the outset of the contract and neither party makes principal payments. The parties with whom the Company enters into OTC variance swaps contracts are highly rated financial institutions which minimizes the credit risk associated with such contracts.

Interest Rate Swaps: The Company uses interest rate swaps to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and liabilities. Under interest rate swaps, the Company agrees with other parties to exchange, at specified intervals, the difference between fixed-rate and floating-rate interest amounts calculated by reference to an agreed notional principal amount. Generally, no cash is exchanged at the outset of the contract and neither party makes principal payments.

The interest rate swaps that qualify for hedge accounting in accordance SSAP No. 86, *Derivatives*, are recorded in a manner consistent with the hedged asset or liability. Qualifying interest rate swaps hedging liabilities, are carried at amortized cost. Cash which is exchanged as the difference between fixed and floating interest rates is recognized in the statements of operations through investment income. If the contract is terminated prior to maturity, a realized gain or loss is reported in the statements of operations for the amount of cash exchanged in order to close the contract.

Futures: Under exchange-traded futures contracts, the Company agrees to purchase a specified number of contracts with other parties and to post variation margin on a daily basis in an amount equal to the difference in the daily fair values of those contracts. Futures contracts are purchased to hedge the growth in interest credited to the customer as a direct result of increases in the related indices. The clearing broker with whom the Company enters into exchange-traded futures are regulated futures commission merchants who are members of a trading exchange.

Futures are recorded at fair value of margin on deposit with the clearing broker and changes in this margin on deposit are recognized in the Summary of Operations through investment income.

Currency Swaps: Foreign currency swaps are used by the Company to reduce the risk from fluctuations in foreign currency exchange rates associated with its assets denominated in foreign currencies. With a foreign currency swap transaction, the Company agrees with another party to exchange, at specified intervals, the difference between one currency and another at a forward exchange rate calculated by reference to an agreed upon principal amount. The principal amount of each currency is exchanged at the inception and termination of the currency swap by each party.

The currency swaps that qualify for hedge accounting in accordance with SSAP No. 86 are recorded in a manner consistent with the hedged asset or liability. The change in the value of the hedged item due to fluctuations in foreign exchange rates is recorded as unrealized capital gains or losses until the time of sale. As such, the qualifying currency swap also records the change in value associated with fluctuations in foreign currency exchange rates in unrealized capital gains and losses.

Forwards: The Company uses foreign exchange forward contracts to hedge certain invested assets against movement in foreign currency. The price is agreed upon at the time of the contract and payment for such a contract is made at a specified future date. Foreign exchange forward contracts are utilized in non-qualifying hedging relationships.

Credit Default Swaps: Credit default swaps are used to synthetically create the characteristics of a bond, or hedge credit risk, referred to as a replication synthetic asset transaction (RSAT). An RSAT is created by coupling a bond with a credit default swap to create a synthetic instrument that is cheaper than its cost in the cash market or one which has better default characteristics. These transactions provide the Company with a periodic premium to compensate it for accepting credit risk and are used to enhance investment income and improve the default characteristics of the portfolio. The exposure amount of such agreement, which is usually the notional amount, is equal to the maximum proceeds that must be paid by a counterparty for a defaulted security. Should a credit event occur on a reference entity, a counterparty would be required to pay the notional amount in exchange for receipt of an obligation of the reference entity. Generally, there is no cash requirement at the initiation of the credit default swap contract.

Credit default swaps used in replication transactions are carried at amortized cost. The premiums received are accrued and recognized in the Summary of Operations through investment income over the life of the agreements. A capital loss would be recorded on the date of default, through the Summary of Operations, to reflect the difference between the notional amount paid and the fair value of the bonds received.

Total Return Swaps: The Company purchases total return swaps to gain exposure and benefit from a reference asset without actually having to own it. Total return swaps are contracts in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of the underlying asset, which includes both the income it generates and any capital gains.

See Note 1 for further explanation of the accounting policy for derivatives.

- D. There were no derivative contracts with financing premiums.
- E. There were no gains or losses recognized in unrealized gains or losses during the reporting period representing the component of the derivative instrument's gain or loss excluded from the assessment of hedge effectiveness.
- F. There were no net gains or losses recognized in unrealized gains or losses during the reporting period resulting from derivatives that no longer qualify for hedge accounting.
- G. There are no derivatives accounted for as cash flow hedges of a forecasted transaction.
- H. There were no derivative contracts with premium cost.

	(1) Ordinary	(2) Capital	(3) Ordinary	(4) Capital	(5) (Col. 1 - 3) Ordinary	(6) (Col. 2 - 4) Capital
Impact of Tax Planning Strategies:						
(a) Determination of adjusted gross deferred tax assets and net admitted deferred tax assets, by tax character as a percentage.						
1. Adjusted Gross DTAs amount from Note 9A1(c)	398,428,885		398,978,337		(549,452)	
2. Percentage of adjusted gross DTAs by tax character attributable to the impact of tax planning strategies	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%
3. Net Admitted Adjusted Gross DTAs amount from Note 9A1(e)	398,428,885		398,978,337		(549,452)	
4. Percentage of net admitted adjusted gross DTAs by tax character admitted because of the impact of tax planning strategies	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%

b. Do the Company's tax-planning strategies include the use of reinsurance? Yes [] No [X]

B. Regarding deferred tax liabilities that are not recognized

No DTLs have been recognized with respect to life insurance policies owned by the Company insuring the lives of certain officers and employees. The Company intends to realize tax-exempt benefits upon the deaths of the insured lives. If, however, the Company surrendered all of the policies prior to the deaths of the insured lives, the Company would incur a tax liability of approximately \$42.2 million on unprovided taxable temporary differences of approximately \$201.1 million.

No unrecognized DTL exists for temporary differences related to investments in foreign subsidiaries or foreign corporate joint ventures that are essentially permanent in duration.

NOTES TO FINANCIAL STATEMENTS

C. Current income taxes incurred consist of the following major components:

	(1) 12/31/2018	(2) 12/31/2017	(3) (Col. 1 - 2) Change
1. Current Income Tax			
(a) Federal	19,768,341	(73,122,463)	92,890,804
(b) Foreign			
(c) Subtotal	19,768,341	(73,122,463)	92,890,804
(d) Federal income tax on net capital gains	49,211,753	71,779,687	(22,567,934)
(e) Utilization of capital loss carry-forwards			
(f) Other		(2,793,692)	2,793,692
(g) Federal and foreign income taxes incurred	68,980,094	(4,136,468)	73,116,562
2. Deferred Tax Assets:			
(a) Ordinary:			
(1) Discounting of unpaid losses			
(2) Unearned premium reserve			
(3) Policyholder reserves	343,851,628	286,096,061	57,755,567
(4) Investments		1,468,722	(1,468,722)
(5) Deferred acquisition costs	43,309,581	50,047,604	(6,738,023)
(6) Policyholder dividends accrual			
(7) Fixed Assets	4,147	4,351	(204)
(8) Compensation and benefits accrual	8,990,029	9,165,913	(175,884)
(9) Pension accrual			
(10) Receivables - nonadmitted	855,376	1,208,872	(353,496)
(11) Net operating loss carry-forward	3,291	42,327,509	(42,324,218)
(12) Tax credit carry-forward		6,794,558	(6,794,558)

(e) Capital:			
(1) Investments			
(2) Net capital loss carry-forward			
(3) Real estate			
(4) Other (including items <5% of total ordinary tax assets)			
(99) Subtotal			
(f) Statutory valuation allowance adjustment			
(g) Nonadmitted			
(h) Admitted capital deferred tax assets (2e99 - 2f - 2g)			
(i) Admitted deferred tax assets (2d + 2h)	398,428,885	398,978,337	(549,452)
3. Deferred Tax Liabilities:			
(a) Ordinary:			
(1) Investments	117,876,061	119,319,983	(1,443,922)
(2) Fixed assets			
(3) Deferred and uncollected premium	1,704,457	1,861,492	(157,035)
(4) Policyholder reserves	246,689,960	280,632,360	(33,942,400)
(5) Other (including items <5% of total ordinary tax liabilities)	7,594	195,370	(187,776)
(99) Subtotal	366,278,072	402,009,205	(35,731,133)
(b) Capital:			
(1) Investments	12,768,988	13,855,372	(1,086,384)
(2) Real estate			
(3) Other (including items <5% of total capital tax liabilities)			
(99) Subtotal	12,768,988	13,855,372	(1,086,384)
(c) Deferred tax liabilities (3a99 + 3b99)	379,047,060	415,864,577	(36,817,517)
4. Net deferred tax assets/liabilities (2i - 3c)	19,381,825	(16,886,240)	36,268,065

The change in net deferred taxes is comprised of the following (this analysis is exclusive of the tax effect of unrealized capital gain (losses) as the deferred taxes on unrealized gains (losses) are reported separately from the Change in Net Deferred Income Taxes in the surplus section of the Annual Statement):

Change in Net Deferred Income Tax:

	2018	2017	Change
Adjusted gross deferred tax assets	398,428,885	398,978,337	(549,452)
Total deferred tax liabilities	<u>(379,047,060)</u>	<u>(415,864,577)</u>	<u>36,817,517</u>
Net deferred tax assets (liabilities)	19,381,825	(16,886,240)	36,268,065
Tax effect of unrealized gains (losses)			<u>16,761,743</u>
Change in net deferred income tax			<u>53,029,808</u>

NOTES TO FINANCIAL STATEMENTS

- D. The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate to income before income taxes. Among the more significant book to tax adjustments were the following:

Reconciliation of Federal Income Tax Rate to Actual Effective Rate:

	<u>2018</u>	<u>Effective Tax Rate</u>
Provision computed at statutory rate	\$29,120,511	21.0%
Permanent differences		
IMR	58,383	0.0%
Nontaxable income	(3,175,266)	-2.3%
Nondeductible expenses	887,967	0.6%
Affiliated expenses	(713,206)	-0.5%
Non-admitted assets	(42,239)	0.0%
Specific reserves in surplus	140,934	0.1%
Prior year true-up and adjustments	(4,196,011)	-3.0%
Unrealized gain ceded	(19,435,254)	-13.9%
Reinsurance adjustment A-791	11,054,041	8.0%
Tax rate change	2,250,426	1.6%
Total	<u>\$15,950,286</u>	<u>11.6%</u>
Federal and foreign income taxes incurred	\$19,768,341	14.3%
Realized capital gains (losses) tax	49,211,753	35.5%
Change in net deferred income taxes	(53,029,808)	-38.2%
Total statutory income taxes	<u>\$15,950,286</u>	<u>11.6%</u>

- E. The Company has the following carry forwards at December 31, 2018:

- (1) The Company has tax attribute carry forwards as follows:

<u>Year Incurred</u>	<u>Operations Loss Deductions</u>	
	<u>Amount</u>	<u>Expiring</u>
2013 2nd short period	\$15,671	2033

- (2) The amount of capital gains taxes incurred available for recoupment in the event of future capital losses are:

<u>Recovery Year</u>	<u>Recoverable Taxes</u>
2018	\$36,689,176
2017	\$0
2016	\$0

- (3) There are no aggregate amount of deposits reported as admitted assets under Section 6603 of the Internal Revenue Code as of December 31, 2018 and 2017.

- F. The Company files as a member of a consolidated federal income tax return with its parent company, AAE. The Company is a party to a written tax sharing agreement that has been approved by the Board of Directors. Allocation of tax benefits is based on separate returns. Losses are paid at the time they can be used in the consolidated return. Intercompany tax balances are settled quarterly.

The Company has also entered into a supplemental tax sharing agreement with Athene Re USA IV, Inc. (Athene Re IV), whereby the Company is obligated to perform all of Athene Re IV's tax sharing obligations and is entitled to accept all of Athene Re IV's tax sharing benefits. Accordingly, any current taxes payable or receivable by Athene Re IV is reflected by the Company.

The following entities are included in the consolidated return:

Athene Annuity & Life Assurance Company
 Athene Annuity and Life Company
 Athene Annuity & Life Assurance Company of New York
 Athene Life Insurance Company of New York
 Structured Annuity Reinsurance Company
 Athene Re USA IV, Inc.

- G. Federal or Foreign Income Tax Loss Contingencies

The Company does not have any tax loss contingencies for which it is reasonably possible that the total tax liability will significantly increase within 12 months of the reporting date.

Note 10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

- A, B, C. The Company's various affiliated relationships, agreements and transactions are discussed within Notes 10A through 10F and the 2018 affiliated transactions are disclosed in Schedule Y, part 2.

During February 2018, Athene Life Re Ltd. (ALRe) formed a subsidiary Bermuda reinsurer, Athene Annuity Re Ltd. (AARe) which has been licensed with the Bermuda Monetary Authority. During 2018, pursuant to a Contribution Agreement, AHL contributed Athene USA Corporation, an indirect parent of the Company, and its subsidiaries to AHL's wholly owned subsidiary ALRe.

The Company recaptured, amended, and entered into new reinsurance agreements with affiliates during 2018. See Note 23, Reinsurance for the details of those changes.

NOTES TO FINANCIAL STATEMENTS

The Company cedes a quota share of its annuity business to AARe and AADE, a 100% quota share of its funding agreement business to AARe and 100% of the Closed Block liabilities to Athene Re IV. The Company cedes to Structured Annuity Reinsurance Company a 100% quota share of its benefits payable for all structured annuity contracts issued by the Company to Aviva London Assignment Corporation (an affiliated company prior to October 2, 2013). See disclosures in Schedule S and Schedule Y, part 2.

Some employees of Athene Employee Services LLC participate in one or more Share Award Agreements (the Agreements) sponsored by AHL, an indirect parent of the Company, for which the Company has no legal obligation. Salary expense of Athene Employee Services LLC is partially allocated to the Company through the Shared Services Agreement. Under SSAP No. 104R, *Share-Based Payments*, the stock compensation expense associated with the Agreements that would have been allocated to the Company is required to be recorded as a capital contribution to the reporting entity. The Company has allocated the stock compensation expense associated with the Agreements based on the same methodology as the Shared Services Agreement. In accordance with SSAP No. 104R, the Company incurred expense and recorded a capital contribution under the Agreements totaling \$9.1 million and \$17.6 million in 2018 and 2017, respectively, which includes amounts contributed by the Company to downstream insurance subsidiaries.

During July 2018, the Company received a \$15.0 million capital contribution from its direct parent, AADE, and the Company made a \$15.0 million capital contribution to its wholly-owned subsidiary, AANY.

- D. As of December 31, 2018 and 2017, respectively, the Company reported \$0.4 million and \$0.3 million receivable due from affiliates and \$14.0 million and \$20.0 million payable due to affiliates. All intercompany balances shown as payable to or receivable from parent, subsidiaries and affiliates are settled within 45 days of their incurrence under the terms of the intercompany expense sharing agreements.
- E. The Company has guaranteed the tenant obligations of a former affiliate, Aviva Investors Americas LLC, under a lease of premises located on the 21st floor of 375 Park Avenue, New York City, as disclosed in Note 14. The Company has been indemnified for any liability relating to this guarantee under the terms of the stock purchase agreement between Aviva plc and AHL. The Company has no exposure associated with this guarantee.
- F. The Company participates in an investment management agreement with Athene Asset Management LLC (AAM), an affiliate, under which AAM has agreed to provide asset management services in exchange for management fees. The Company pays 30 basis points (bps) per annum on the Company's managed assets. The Company incurred AAM investment expenses of \$150.9 million and \$139.0 million in 2018 and 2017, respectively.

The Company participates in a Shared Services and Cost Sharing Agreement with certain other affiliated companies pursuant to which each party thereto agreed to provide certain financial, legal and other services to the other parties. The Company incurred related expenses under these agreements totaling \$236.0 million and \$223.0 million in 2018 and 2017, respectively.

- G. The operating results and financial position of the Company as reported in these financial statements would not be significantly different from those that would have been obtained if the Company were autonomous.
- H. Amounts deducted from the value of an upstream intermediate entity or ultimate parent: NONE
- I. The Company does not hold an investment in a subsidiary, controlled or affiliated company (SCA) that exceeds 10% of admitted assets.
- J. The Company did not recognize any impairment write downs for its investment in SCAs during the statement period.
- K. The Company does not hold an investment in a foreign insurance subsidiary.
- L. The Company does not hold an investment in a downstream noninsurance holding company.
- M. Subsidiary, Controlled or Affiliated (SCA) Investments

N. Investment in Insurance SCAs

The Company owns all of the outstanding capital stock of Athene Re IV, a special purpose financial captive life insurance company domiciled in the State of Vermont.

- Athene Re IV, with the explicit permission of the Commissioner of the Vermont Department of Financial Regulation of the State of Vermont, has included as admitted assets the value of a letter of credit serving as collateral for reinsurance credit taken by the Company in connection with reinsurance agreements entered into between Athene Re IV and the Company. Under NAIC SAP, the letters of credit would not otherwise be treated as admitted assets.
- The monetary effect on net income and surplus as a result of using an accounting practice that differed from NAIC SAP, the amount of the investment in the insurance SCA per audited statutory equity and amount of the investment if the insurance SCA had completed statutory financial statements in accordance with the AP&P Manual is as follows:

SCA Entity (Investments in Insurance SCA Entities)	Monetary Effect on NAIC SAP		Amount of Investment	
	Net Income Increase (Decrease)	Surplus Increase (Decrease)	Per Audited Statutory Equity	If the Insurance SCA Had Completed Statutory Financial Statements *
Athene Re IV	0	152,500,000	28,814,895	0

* Per AP&P Manual (without permitted or prescribed practices)

As of the issue date of this report, the 2018 statutory audit of Athene Re IV has not been completed.

- If Athene Re IV had not been permitted to include the letter of credit in surplus, its risk-based capital would have been below Mandatory Control Level.

O. The Company does not hold an investment in a SCA where the Company's share of losses exceeds its investment in the SCA.

Note 11. Debt

A. Athene USA Corporation (AUSA) is the holder of a five-year, Unsecured Revolving Promissory Note dated May 1, 2016 (the Promissory Note) with a maximum principal amount not to exceed \$200,000,000, among AUSA and certain of its subsidiaries, including the Company. The Promissory Note was approved by the Iowa Insurance Division. Interest shall accrue on the principal balance from time to time outstanding at a rate per annum equal to 1 month London Interbank Offered Rate + 162.5 bps. The Company shall pay such interest in arrears quarterly on the last day of each March, June, September and December, on any day any portion of the principal balance is repaid or prepaid. No amount has been drawn under the Promissory Note by the Company during the years ended December 31, 2018 or 2017, and as such, no interest expense has been incurred by the Company during the years ended December 31, 2018 or 2017.

B. FHLB Agreements

- The Company is a member of the FHLB of Des Moines. Through its membership, the Company is eligible to borrow under variable rate short-term federal fund arrangements to provide additional liquidity. During 2018, the Company borrowed \$183.0 million from the FHLB through their variable rate short-term federal funds program, which was accounted for as borrowed money under SSAP No. 15, *Debt and Holding Company Obligations*. The borrowing matured on August 24, 2018 and carried an interest rate of 2.16%, with interest due at maturity. The Company incurred interest expense on the short-term borrowing of \$1.3 million for the year ended December 31, 2018. There were no borrowings outstanding under the short-term federal funds borrowing arrangement as of December 31, 2018.

The Company has issued funding agreements to the FHLB of Des Moines in exchange for cash resulting in a liability of \$913.0 million as of December 31, 2018. The Company uses these funds in an investment spread strategy, consistent with its other investment spread operations. As such, the Company applies SSAP No. 52, *Deposit-Type Contracts*, accounting treatment to these funds, consistent with its other deposit-type contracts. It is not part of the Company's strategy to utilize these funds for operations, and any funds obtained from the FHLB of Des Moines for use in general operations would be accounted for consistent with SSAP No. 15 as borrowed money.

NOTES TO FINANCIAL STATEMENTS

The Company must provide appropriate collateral to borrow under the arrangements described above. The borrowing capacity available to the Company under these agreements is largely a factor of the Company's ability to post eligible collateral, as well as internal limits such as single-holder exposure limits (10% of the entity's balance sheet liabilities) and NAIC capital requirements.

The tables below indicate the amount of FHLB of Des Moines stock purchased, collateral pledged, assets and liabilities related to the agreements with FHLB of Des Moines.

(2) FHLB Capital Stock
a. Aggregate Totals

A. Defined Benefit Plans: NONE

B, C, D. Not applicable.

E. Defined Contribution Plans

The Company is allocated a portion of the costs related to a qualified contribution savings and retirement plan sponsored by AUSA. The plan is a qualified 401(k) plan covering officers and employees. The plan provides only non-discretionary company matching contributions. Expenses allocated to the Company from the plans for AUSA's contributions amounted to \$4.6 million and \$3.9 million for 2018 and 2017, respectively.

F. Multiemployer Plans: NONE

G. Consolidated/Holding Company Plans: NONE

H. Postemployment Benefits and Compensated Absences

The Company participates in a post-retirement medical benefit plan sponsored by AUSA. The plan is unfunded and the benefits are generally based on a combination of age and years of service at retirement. The allocated expense amounted to \$0.1 million and \$0.2 million for 2018 and 2017, respectively.

The Company has deferred compensation plans for agents, officers and directors, which are not funded by the Company. The liabilities for these plans are included on Page 3, Line 21. These plans were frozen as of December 31, 2016.

I. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17): NONE

Note 13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

(1) At December 31, 2018 the Company has authorized and issued 10.0 million shares of \$1 par common stock which are outstanding and owned by AADE.

(2) Preferred stock: NONE

(3) The payment of dividends by the Company to its parent is regulated under Iowa law. Under Iowa law, the Company may pay dividends only from the earned surplus arising from its business and must receive the prior approval (or non-disapproval) of the Iowa Insurance Commissioner to pay any dividend that would exceed certain statutory limitations.

In connection with the acquisition of Aviva USA during 2013, AHL entered into a Net Worth Maintenance Agreement to provide capital support to the Company such that AHL is obligated to maintain the Company's capital and surplus in an amount sufficient to maintain the Company's total adjusted capital to be at least 200% of company action level risk based capital. The agreement also provides that the Company will not pay any dividends if such dividends would cause the company action level risk based capital ratio to fall below 200%.

(4) No dividends were paid by the Company during 2018 or 2017.

(5) Within the limitations presented in item (3), above, the Company may pay dividends in 2019 of \$152.7 million.

(6) The unassigned surplus is held for the benefit of the Company's shareholder.

(7) Unpaid advances to surplus: NONE

(8) No shares of stock are held by the Company, including stock of affiliated companies, for special purposes.

(9) Changes in balances of special surplus: NONE

(10) The portion of unassigned funds (surplus) represented or reduced by unrealized gains and (losses), net of capital gains tax is \$75.0 million at December 31, 2018.

(11) Surplus Notes: NONE

(12) - (13) Quasi-reorganization: As discussed in Note 1, during the quarter ended March 31, 2017 the Company recorded a surplus reset under SSAP No. 72 in the amount of \$1,502.3 million, resulting in a reclassification between unassigned surplus and gross paid-in and contributed surplus.

NOTES TO FINANCIAL STATEMENTS

Note 14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

(1) As of December 31, 2018, the Company has unfunded commitments to invest in certain bonds and partnership interests. The total unfunded commitments are \$1,310.2 million.

The Company has guaranteed the tenant obligations of a former affiliate, Aviva Investors Americas LLC, under a lease of premises located on the 21st floor of 375 Park Avenue, New York City. The Company has been indemnified for any liability relating to this guarantee under the terms of the stock purchase agreement between Aviva plc and AHL.

(2)

(1)	(2)	(3)	(4)	(5)
Nature and circumstances of guarantee and key attributes, including date and duration of agreement	Liability recognition of guarantee. (Include amount recognized at inception. If no initial recognition, document exception allowed under SSAP No. 5R.)	Ultimate financial statement impact if action under the guarantee is required	Maximum potential amount of future payments (undiscounted) the guarantor could be required to make under the guarantee. If unable to develop an estimate, this should be specifically noted.	Current status of payment or performance risk of guarantee. Also provide additional discussion as warranted
Guarantee the tenant obligations of former affiliate Aviva Investors Americas LLC under lease of premises located on the 21st floor of 375 Park Avenue, New York City. In addition to guaranteeing the payment of rent under the lease, the Company has guaranteed the payment of all additional rent due under the lease and agreed to indemnify the landlord from any out-of-pocket loss, costs or damages arising out of any failure by Aviva Investors Americas LLC to pay or perform any of its obligations under the lease including, without limitations, reasonable attorneys' fees and costs of collection. This guarantee arose due to the landlord's requirement that an entity with publicly available financial information serve as guarantor. The lease term runs through April 30, 2020.	Rent payable under the lease is \$1,979,647 per annum.	The Company has been indemnified for any liability relating to this guarantee under the terms of the stock purchase agreement between Aviva plc and AHL. No liability has been recorded for the Company's obligation under this guarantee. Given the lack of performance risk by Aviva Investors Americas LLC and the existence of the indemnification, the fair value of the guarantee has been determined to be \$0.
Total		XXX		XXX

(3) Only one guarantee has been made by the Company. Aggregate compilation is not necessary given the indemnification noted above.

B. Assessments

(1) Based on the 2018 National Organization of Life and Health Insurance Guaranty Associations (NOLHGA) Report, the Company has identified insolvencies. The Company fulfilled premium-based guaranty funds assessments of \$0.2 million during the current period. It is expected that the identified insolvencies will result in retrospective premium-based guaranty fund assessments against the Company. During 2018, future estimated costs to be assessed against the Company, from identified insolvencies from the NOLHGA Report were reduced by less than \$0.1 million, which has been credited to operations in the current period and the liability reduced.

(2)

a. Assets recognized from paid and accrued premium tax offsets and policy surcharges prior year-end42,528

b. Decreases current year:

	(1)	(2)
Paid premium tax offset applied		143,550

c. Increases current year:

	(1)	(2)
Change in accrued premium tax offset		112,711

d. Assets recognized from paid and accrued premium tax offsets and policy surcharges current year-end 11,689

(3) The Company does not have guaranty fund liabilities or assets related to assessments from insolvencies of entities that wrote long-term care contracts.

C. Gain Contingencies: NONE

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits: NONE

E. Joint and Several Liabilities: NONE

NOTES TO FINANCIAL STATEMENTS

F. All Other Contingencies

On July 27, 2015, John Griffiths, on behalf of himself and others similarly situated, filed a putative class action complaint in the United States District Court for the District of Massachusetts. An amended complaint was filed on December 18, 2015. The complaint asserts claims against AHL, the Company and Athene London Assignment Corporation (Athene London), in addition to an Aviva defendant. AHL is a named defendant due to its purchase of Aviva USA Corporation, and the Company and Athene London are named as successors to Aviva Life Insurance Company and Aviva London Assignment Corporation, respectively. The complaint alleges a putative class of all persons who are the beneficial owners of assets which were used to purchase structured settlement annuities that Aviva Life Insurance Company, Aviva London Assignment Corporation, and Aviva International Insurance Limited (collectively, the Aviva Entities) or their predecessors, as applicable, delivered to purchasers on or after April 1, 2003 that were backed by a capital maintenance agreement issued by Aviva International Insurance Limited or its predecessor (the CMA). The complaint alleges that the Aviva Entities sold structured settlement annuities to the public on the basis that such products were backed by the CMA, which was alleged to be a source of great financial strength. The complaint further alleges that the Aviva Entities used the CMA to enhance the sales volume and raise the price of the annuities. The complaint claims that, as a result of Aviva USA Corporation's sale to AHL, the CMA terminated. According to the complaint, no notice of this termination was provided to the owners of the structured settlement annuities. The complaint alleges that the termination of the CMA gave rise to claims for breach of contract, breach of fiduciary duty, promissory estoppel, and unjust enrichment. On October 23, 2018, the Court granted final approval of the settlement. On November 8, 2018, the Court dismissed the action pursuant to the settlement approval which required AHL to: (1) enter into a capital maintenance agreement with Athene London requiring AHL to provide capital to Athene London upon a missed structured settlement payment that is not timely cured and (2) paying a monetary amount that is immaterial to AHL. AHL has complied with the settlement.

The Company and certain of its insurance subsidiaries have experienced increased service and administration complaints related to the conversion and administration of the block of life insurance business acquired in connection with Athene Holding Ltd.'s acquisition of Aviva USA Corporation and reinsured to affiliates of Global Atlantic Financial Group Ltd. The life insurance policies included in this block have been and are currently being administered by AllianceOne, a subsidiary of DXC Technology Company, which was retained by such Global Atlantic affiliates to provide services on such policies. AllianceOne also administers certain annuity policies that were on Aviva USA Corporation's legacy policy administration systems that were also converted in connection with the acquisition of Aviva USA Corporation and have experienced similar service and administration issues.

As a result of the difficulties experienced with respect to the administration of such policies, Athene received notifications from several state regulators, including but not limited to the New York Department of Financial Services (NYDFS), the California Department of Insurance and the Texas Department of Insurance, indicating, in each case, that the respective regulator planned to undertake a market conduct examination or enforcement proceeding of the Company or one of its subsidiaries, as applicable, relating to the treatment of policyholders subject to Athene reinsurance agreements with affiliates of Global Atlantic and the conversion of such annuity policies, including the administration of such blocks by AllianceOne. On June 28, 2018, Athene Life Insurance Company of New York (ALICNY) entered into a consent order with the NYDFS resolving that matter in a manner that ultimately did not have a material impact on its financial condition, when considering AHL's indemnification from affiliates of Global Atlantic, which was passed to ALICNY in the form of a capital contribution in the third quarter of 2018.

In addition to the foregoing, the Company has received inquiries, and expects to continue to receive inquiries, from other regulatory authorities regarding the conversion matter. In addition to the examinations and proceedings initiated to date, it is possible that other regulators may pursue similar formal examinations, inquiries or enforcement proceedings and that any examinations, inquiries and/or enforcement proceedings may result in fines, administrative penalties and payments to policyholders. The Company is not currently able to estimate the amount of any such fines, penalties or payments arising from these matters with reasonable certainty, but it is possible that such amounts may be material.

Pursuant to the terms of the reinsurance agreements between Athene and the relevant affiliates of Global Atlantic, the applicable affiliates of Global Atlantic have financial responsibility for the ceded life block and are subject to significant administrative service requirements, including compliance with applicable law. The agreements also provide for indemnification to Athene, including for administration issues.

On January 23, 2019, the Company received a letter from the NYDFS, with respect to a recent Pension Risk Transfer (PRT) transaction, which expressed concerns with the Company's interpretation and reliance upon certain exemptions from licensing in New York in connection with certain activities performed by employees in the PRT channel, including specific activities performed within New York. The Company is currently in discussions with the NYDFS to identify approaches to resolve its concerns. Reasonably possible losses, if any, cannot be estimated at this time.

In 2000 and 2001, two insurance companies which were subsequently merged into the Company purchased from American General Life Insurance Company (American General) broad based variable corporate-owned life insurance (COLI) policies that, as of December 31, 2018, had an asset value of \$361.7 million. In January 2012, the COLI policy administrator delivered to the Company a supplement to the existing COLI policies and advised that American General and ZC Resource Investment Trust (ZC Trust) had unilaterally implemented changes set forth in the supplement that if effective, would: (1) potentially negatively impact the crediting rate for the policies and (2) change the exit and surrender protocols set forth in the policies. In March 2013, the Company filed suit against American General, ZC Trust, and ZC Resource LLC in Chancery Court in Delaware, seeking, among other relief, a declaration that the changes set forth in the supplement were ineffectual and in breach of the parties' agreement. The parties filed cross motions for judgment as a matter of law, and the court granted defendants' motion and dismissed without prejudice on ripeness grounds. The issue that negatively impacts the crediting rate for one of the COLI policies has subsequently been triggered and on April 3, 2018, the Company filed its suit against the same defendants in Chancery Court in Delaware seeking substantially similar relief, which defendants have moved to dismiss and the Company has opposed. The Court heard oral arguments on February 13, 2019 and has taken the matter under advisement. If the supplement is ultimately deemed to be effective, the purported changes to the policies could impair the Company's ability to access the value of guarantees associated with the policies. The value of the guarantees included within the asset value reflected above is \$187.2 million as of December 31, 2018.

On April 6, 2016, the U.S. Department of Labor (DOL) issued the fiduciary rule which imposes upon third parties who sell annuities within Employee Retirement Income Security Act of 1974 (as amended, ERISA) plans or to individual retirement account (IRA) holders a fiduciary duty to retirement investors. On June 21, 2018, the Fifth Circuit Court of Appeals issued a mandate officially vacating as a whole the DOL's 2016 Fiduciary Rule.

The U.S. Securities and Exchange Commission (SEC) has indicated that it will work with the DOL to propose rules creating a uniform standard of conduct applicable to broker-dealers and investment advisers in 2019, which, if adopted, may affect the distribution of the Company's products. The NAIC is working to propose changes to the Suitability in Annuity Transactions Model Regulation and some states separately are updating their suitability regulations to include the best interest concept. Should the SEC, NAIC, or state specific rules, once adopted, not align, the distribution of the Company's products could be further complicated.

In addition to the cases previously discussed, the Company is routinely involved in litigation and other proceedings, reinsurance claims and regulatory proceedings arising in the ordinary course of its business. At present, no contingencies related to pending litigation and regulatory matters are considered material in relation to the financial position of the Company.

Note 15. Leases: NONE

NOTES TO FINANCIAL STATEMENTS

Note 16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

(1) The table below summarizes the face amount of the Company's financial instruments with off-balance sheet risk.

	ASSETS		LIABILITIES	
	2018	2017	2018	2017
a. Swaps	1,386,980,247	272,611,042	615,827,040	1,294,914,660
b. Futures	2,025	2,142	1,176	1,180
c. Options	32,992,889,916	28,726,383,325	317,059,918	950,984,057
d. Total	34,379,872,188	28,998,996,509	932,888,134	2,245,899,897

(2) The Company's futures, swaps, and options have off-balance sheet risk. See Note 8 for information regarding the Company's derivative instruments.

(3) The Company is exposed to credit-related losses in the event of nonperformance by counterparties on derivative instruments. The Company does not anticipate non-performance by any of these counterparties. Purchasing instruments from financial institutions with high credit ratings minimizes the credit risk associated with such instruments. The amount of exposure is represented by the fair value (market value) at the reporting date less any posted collateral. Collateral support documents are negotiated to further reduce this exposure where deemed necessary. Exchange-traded derivatives are affected through a regulated exchange and positions are marked to market daily.

(4) The counterparty may be required to post collateral for any derivative contracts that are entered. The amount of collateral that is required is determined by the market value and credit threshold of the counterparty.

The current credit exposure of the Company's derivative contracts is limited to the fair value at the reporting date less collateral held. Credit risk is managed by entering into transactions with creditworthy counterparties and obtaining collateral where appropriate and customary. The Company also attempts to minimize its exposure to credit risk through the use of various credit monitoring techniques. 100% of the net credit exposure for the Company from derivative contracts is with investment-grade counterparties.

Note 17. Sale, Transfer and Servicing of Financial Assets and Extinguishment of Liabilities

A. Transfers of Receivables Reported as Sales: NONE

B. Transfer and Servicing of Financial Assets: NONE

C. Wash Sales

(1) In the course of the Company's asset management, securities have been sold and reacquired within 30 days of the sale date to enhance the Company's yield on its investment portfolio.

(2) The details by NAIC designation 3 or below, or unrated securities sold during the year ended December 31, 2018 and reacquired within 30 days of the sale date are:

Description	NAIC Designation	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)
Bonds	3	1	1,477,500	1,477,851	(351)

Note 18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans: NONE

Note 19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators: NONE

Note 20. Fair Value Measurements

A. Fair Value Measurements

(1) Fair value measurements at reporting date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value					
Bonds: Corporates		179,204			179,204
Bonds: CMBS		1,466			1,466
Bonds: RMBS		523,251			523,251
Common stocks unaffiliated	38,455,956	47,049,822	2,489,736		87,995,514
Derivative assets: Bond hedges		30,536			30,536
Derivative assets: Currency swaps		2,762,349			2,762,349

Total liabilities at fair value	1,459,963	34,850,143			36,310,106

There were no transfers between Level 1 and Level 2 of the fair value hierarchy during 2018.

NOTES TO FINANCIAL STATEMENTS

(2) Fair value measurements in (Level 3) of the fair value hierarchy

Description	Beginning Balance at 01/01/2018	Transfers into Level 3	Transfers out of Level 3	Total gains and (losses) included in Net Income	Total gains and (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Ending Balance at 12/31/2018
a. Assets										
Common stocks unaffiliated	376,723		(2,508)		2,115,480	41				2,489,736
Total Assets	376,723		(2,508)		2,115,480	41				2,489,736

Assets transferred out of Level 3 primarily included assets the Company previously priced by using an internal model but is now able to obtain pricing from a recognized external pricing source.

- (3) Transfers between fair value hierarchy levels are recognized at the end of the period in which the transfer occurs.
- (4) The following discussion describes the valuation methodologies and inputs used for assets and liabilities measured and disclosed at fair value. The techniques utilized in estimating the fair values of financial instruments are reliant on the assumptions used.

Fair value estimates are based on quoted market prices when available. When quoted market prices are not available, the Company utilizes commercially available pricing vendors that utilize observable market inputs, like recent trading activity, to derive fair value. When vendor prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates the fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect risk inherent in a particular methodology, model or input employed.

The Company's financial assets and liabilities carried at estimated fair value have been classified, for disclosure purposes, based on a hierarchy defined by current accounting guidance. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The levels of the fair value hierarchy are as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.

Level 2 - Quoted prices for inactive markets or valuation techniques that require observable direct or indirect inputs for substantially the full term of the asset or liability.

Level 2 inputs include the following:

1. Quoted prices for similar assets or liabilities in active markets,
2. Observable inputs other than quoted market prices, and
3. Observable inputs derived principally from market data through correlation or other means.

Level 3 - Prices or valuation techniques with unobservable inputs significant to the overall fair value estimate. These valuations use critical assumptions not readily available to market participants. Level 3 valuations are based on market standard valuation methodologies, including discounted cash flows, matrix pricing, or other similar techniques.

Assets and liabilities are valued as discussed below in part C.

B. Other Fair Value Disclosures: NONE

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Assets - Bonds	37,981,837,760	37,954,373,669	5,300,876	36,373,820,430	1,602,716,454		
Assets - Preferred stocks	118,416,506	121,789,115		118,416,506			
Assets - Common stocks unaffiliated	87,995,515	87,995,515	38,455,956	47,049,823	2,489,736		
Assets - Mortgage loans - first liens	6,136,598,355	6,070,077,813			6,136,598,355		
Assets - Mortgage loans - other than first liens	1,641,130,080	1,639,441,726			1,641,130,080		
Assets - Policy loans	189,508,910	189,508,910		189,508,910

Assets - Derivative assets	926,384,753	749,445,723	5,831,937	920,552,816			
Assets - Derivative collateral assets	42,236,577	42,236,577	42,236,577				
Assets - Other invested assets	1,978,332,557	1,989,268,742		320,062,382	122,160,426	1,536,109,749	
Assets - Separate account: variable products	28,603,153	28,603,153		28,603,153			
Assets - Separate account: group annuity	4,704,855,127	4,859,199,705	555,001,631	3,498,234,610	629,917,978	21,700,908	
Liabilities - Deposit-type contracts	448,010,726	435,597,932			448,010,726		
Liabilities - Derivative liabilities	76,359,967	39,463,437	18,639,320	53,731,976	3,988,671		
Liabilities - Derivative collateral liability	875,837,195	875,837,195	875,837,195				
Liabilities - Separate account: funding agreements	936,161,170	912,994,994		936,161,170			
Liabilities - Separate account: group annuity deposit-type contracts	705,438	719,053			705,438		

Bonds and short-term investments – The Company obtains the fair value for most marketable, public bonds without an active market from several commercial pricing services. These are classified as Level 2 assets. The pricing services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers, and other reference data. If the Company cannot value a public bond with a commercial pricing vendor, the Company obtains broker quotes (or utilizes an internally-developed model) and are considered to be Level 3. The Company values privately placed bonds based on the credit quality and duration of comparable marketable securities, which may be securities of another issuer. In some instances, the Company uses a matrix-based pricing model. These models consider the current level of risk-free interest rates, corporate spreads, credit quality of the issuer, and cash flow characteristics of the security. Privately placed fixed maturity securities are classified as Level 2 or 3.

Preferred stocks and common stocks unaffiliated – The Company values equity securities, typically private equities or equity securities not traded on an exchange, using several commercial pricing services or an internal model. The securities priced by a commercial pricing service are classified as Level 2 and the securities priced by an internal model are classified as Level 3. In addition, unaffiliated common stocks include FHLB stock, which is carried at fair value, which is presumed to be par because it can only be redeemed by the bank and is classified as Level 2.

NOTES TO FINANCIAL STATEMENTS

Mortgage loans – The Company estimates mortgage loans on a monthly basis using discounted cash flow analysis and rates being offered for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations. The discounted cash flow model uses unobservable inputs, including estimates of discount rates and loan prepayments. Mortgage loans are classified as Level 3.

Policy loans – The fair value of policy loans classified as Level 2 is equal to the carrying value of the loans, which are collateralized by the cash surrender value of the associated insurance contracts.

Derivatives – Derivative contracts can be exchange traded or over-the-counter. Over-the-counter derivatives are valued using valuation models or an income approach using third-party broker valuations. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, measures of volatility, prepayment rates, and correlation of the inputs. The Company considers and incorporates counterparty credit risk in the valuation process through counterparty credit rating requirements and monitoring of overall exposure. The Company also evaluates and includes its own nonperformance risk in valuing derivatives. The majority of the Company's derivatives trade are in liquid markets; therefore, the Company can verify model inputs and model selection does not involve significant management judgment and are classified within Level 2. If the Company cannot verify model inputs and model selection does involve significant management judgment, the derivatives are classified as Level 3.

Other invested assets – Within other invested assets, partnerships are valued based on net asset value information provided by the general partner or related asset manager. These partnership interests usually include multiple underlying investments for which either observable market prices or other valuation methods are used to determine the fair value. These investments are reported in the Net Asset Value (NAV) column. Other than partnerships, other invested assets may include surplus notes and other investments with bond or stock characteristics and the Company attempts to value these using several commercial pricing services, which would be classified as Level 2 assets. If the Company cannot value with a commercial pricing vendor, the Company obtains broker quotes (or utilizes an internally-developed model) and are considered to be Level 3 assets.

Separate account assets (variable products) – Separate account assets classified as Level 2 are valued based on the fair value of the underlying funds. Fair values and changes in the fair values of the underlying funds accrue directly to the policy owners and are not included in the Company's revenues and expenses or surplus.

Separate account assets (group annuity) – Financial instruments within this separate account classified as Level 2 and 3 or included in the NAV column are valued using the same fair value assumptions and methods utilized in the general account.

Deposit-type contracts (including separate account group annuity) – Deposit-type contracts classified as Level 3 include single premium immediate annuities (SPIA) and supplemental contracts. Fair value of SPIA and supplemental contracts are calculated by discounting best estimate cash flows based on mortality and market interest rate assumptions.

Separate account liabilities (funding agreements) – Fair value of the funding agreements within this separate account are calculated by discounting future cash flows using market rates on the valuation date, and are classified as Level 2.

D. Not Practicable to Estimate Fair Value: NONE

E. Net Asset Value

The Company invests in certain non-fixed income, alternative investments in the form of limited partnerships (investment funds) which are reported at NAV. Adjustments to the carrying amount reflect the Company's pro rata ownership percentage of the operating results as indicated by NAV in the investment fund financial statements. The NAV from the investment fund financial statements can be on a lag of up to three months when investee information is not received in a timely manner. These investments are listed in the NAV column of the fair value tables above as this is the primary method for reporting fair value for these investments.

As of December 31, 2018, the Company has \$1,092.2 million unfunded commitments to invest in these investment funds.

Note 21. Other Items

A. Unusual or Infrequent Items: NONE

B. Troubled Debt Restructuring: NONE

C. Other Disclosures

The Company is the owner and beneficiary of life insurance policies included in aggregate write-ins for other than invested assets at their cash surrender values pursuant to SSAP No. 27, *Off-Balance-Sheet and Credit Risk Disclosures*. At December 31, 2018, the cash surrender value in the investment vehicle was \$361.7 million and was allocated 100% to other invested assets based on the primary underlying investment characteristics.

During 2018, the Company was notified by Accordia Life and Annuity Company (Accordia) of corrections made to balances previously provided related to novated life insurance policies. As a result, 18,438 policies with statutory policy reserves of \$522.8 million were denovated during 2018. These policies were previously 100% ceded to Accordia through a coinsurance agreement entered into in 2013, and therefore the novation and subsequent denovation had no impact on the Company's balance sheet, income or capital and surplus position.

D. Business Interruption Insurance Recoveries: NONE

E. State Transferable and Non-transferable Tax Credits

(1) Carrying value of transferable and non-transferable state tax credits gross of any related tax liabilities and total unused transferable and non-transferable state tax credits by state and in total

(1) Description of State Transferable and Non-transferable Tax Credits	(2) State	(3) Carrying Value	(4) Unused Amount
Enhanced Capital Connecticut Fund I, LLC	CT	754,768	337,844
Guaranty Fund Assessment Credits	Various ..	11,689	11,689
21F1999 - Total		766,457	349,533

(2) The Company estimated the utilization of the remaining transferable and non-transferable state tax credits by projecting future premium taking into account policy growth and rate changes, projecting future tax liability based on projected premium, tax rates and tax credits, and comparing projected future tax liability to the availability of remaining transferable and non-transferable state tax credits.

(3) Impairment loss: NONE

	Total Admitted	Total Nonadmitted
a. Transferable	754,768
b. Non-transferable	11,689

F. Subprime-Mortgage-Related Risk Exposure

- (1) The Company engages in direct lending to the subprime markets. The Company's exposure to subprime risk is primarily limited to whole mortgage loans and investments within the fixed maturity investment portfolio in the form of securities collateralized by mortgages that have characteristics of subprime lending.

The Company generally defines subprime whole mortgage loans as borrowers with impaired credit history and lower FICO scores. In 2018 and 2017, the Company invested in residential whole loans which consisted of borrowers with lower FICO scores. The price paid for the residential loans factored in the consideration of the borrower's ability to repay along with the overall credit profile of the loan. The Company will continue to monitor the performance of the subprime residential mortgage loans along with performance expectations.

The Company's portfolio also contains residential mortgage backed securities that include subprime mortgage exposure. The risk of such defaults is generally higher in the case of subprime mortgages. The acquisition value of these residential mortgage backed securities factored in the consideration of that default risk. Quarterly, we monitor and evaluate the undiscounted expected future cash flows associated with these residential mortgage backed securities based on updates to key assumptions.

Note 22. Events Subsequent

Subsequent events have been considered through February 27, 2019 for the statutory statement dated December 31, 2018. There have been no Type I events subsequent to the close of the books and accounts for this statement that have a material effect on the financial condition of the Company.

Type II events subsequent consisted of the following:

During February 2019, the Company terminated the compensation plans for agents, officers and directors and paid out \$42.8 million of the liability on Page 3, Line 21.

Note 23. Reinsurance

Gains on cession of inforce blocks of business are to be accounted for in accordance with Appendix A-791 of the NAIC Accounting Practices and Procedures Manual which requires that any increase in surplus (net of federal income tax) resulting from reinsurance agreements entered into or amended which involve the reinsurance of business issued prior to the effective date of the agreements shall be deferred and identified separately as a surplus item by the ceding company. Subsequent recognition of the surplus increase as income shall be reflected on a net of tax basis as earnings emerge from the business reinsured. Based on the emergence of earnings of previous reinsurance of inforce blocks of business in 2018 and 2017, \$2.1 million and \$118.2 million, respectively, was amortized into income.

Effective January 1, 2018, the Company entered into a coinsurance agreement with AADE to cede 50% of all retail annuity business issued by the Company on or after January 1, 2018. This treaty is applied prior to any further cession of this business under other treaties.

NOTES TO FINANCIAL STATEMENTS

Effective January 1, 2018, the Company recaptured a modified coinsurance reinsurance agreement originally entered into with ALRe on April 1, 2017. This agreement ceded 80% of the PRT business issued on or after April 1, 2017. The Company subsequently entered into a modified coinsurance agreement with AARe effective January 1, 2018 to cede the same 80% quota share of the PRT business. The modified coinsurance reserves that were recaptured from ALRe and ceded to AARe were \$1,781.5 million as of January 1, 2018.

Effective January 1, 2018, the Company recaptured a modified coinsurance reinsurance agreement originally entered into with ALRe on October 1, 2013. The agreement ceded 80% of all fixed spread annuity and fixed spread life insurance business inforce as of October 1, 2013. The Company subsequently entered into a modified coinsurance agreement with AARe effective January 1, 2018 to cede the same 80% quota share of this business. The modified coinsurance reserves that were recaptured from ALRe and ceded to AARe were \$810.2 million as of January 1, 2018.

Effective January 1, 2018, the Company partially recaptured a modified coinsurance reinsurance agreement originally entered into with ALRe on October 1, 2013. The agreement ceded 100% of all inforce and future funding agreements in both the general and the separate accounts and 80% of all inforce (as of October 1, 2013) and future annuity business which is not covered by the fixed spread treaty. The annuity business was recaptured, and the funding agreements remain ceded to ALRe. The Company subsequently entered into a modified coinsurance agreement with AARe effective January 1, 2018 to cede the same 80% quota share of the inforce and future annuity business, after the impacts of all other reinsurance agreements are applied. The modified coinsurance reserves that were recaptured from ALRe and ceded to AARe were \$34,100.5 million as of January 1, 2018.

Effective October 1, 2018, the Company recaptured a modified coinsurance reinsurance agreement originally entered into with ALRe on October 1, 2013. The agreement ceded 100% of all inforce and future funding agreements in both the general and the separate accounts. The Company subsequently entered into a funds withheld coinsurance agreement with AARe effective October 1, 2018 to cede 100% of all inforce and future funding agreements in both the general and the separate accounts. The modified coinsurance reserves held in the separate account that were recaptured from ALRe and ceded to AARe under this funds withheld coinsurance agreement were \$691.8 as of October 1, 2018. There were no funding agreements in the general account as of October 1, 2018.

A. Ceded Reinsurance Report

Section 1 - General Interrogatories

- (1) Are any of the reinsurers listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee or director of the Company? NO
- (2) Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. branches of such companies) which is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business? NO

Section 2 - Ceded Reinsurance Report - Part A

- (1) Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits? NO
- (2) Does the Company have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts which, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies? NO

Section 3 - Ceded Reinsurance Report - Part B

- (1) What is the estimated amount of the aggregate reduction in surplus, for agreements not reflected in Section 2 above, of termination of all reinsurance agreements, by either party, as of the date of this statement? Where necessary the Company may consider the current or anticipated experience of the business reinsured in making this estimate. \$0
- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts which were in force or which had existing reserves established by the Company as of the effective date of the agreement? YES

If yes, what is the amount of reinsurance credits, whether an asset or a reduction of liability, taken for such new agreements or amendments?

During 2018, the Company executed reinsurance agreements including the cession of contracts in force through modified coinsurance with reserves of \$36,692.2 million and through funds withheld coinsurance with reserves of \$691.8 million. See details above.

B. Uncollectible Reinsurance: NONE

C. Commutation of Ceded Reinsurance

As discussed above, during 2018, the Company recaptured several reinsurance treaties from ALRe.

The Company has reported the following in its operations in the current year as a result of commutation of reinsurance.

(1) Claims incurred	
(2) Claims adjustment expenses incurred	
(3) Premiums earned	\$37,384,018,886
(4) Other	
(5) _____ Company _____	Amount
Athene Life Re Ltd.	\$37,384,018,886

D. Certified Reinsurer Rating Downgraded or Status Subject to Revocation: NONE

E. Variable Annuity Reinsurance with an Affiliated Captive Reinsurer: NONE

F. Reserve Credits Taken on Variable Annuity Reinsurance with an Affiliated Captive Reinsurer: NONE

G. Ceding Entities That Utilize Captive Reinsurers to Assume Reserves Subject to the XXX/AXXX Captive Framework

The Company does not cede XXX/AXXX reserves to a captive affiliate with a Risk-Based Capital Shortfall or a non-zero Primary Security Shortfall.

Note 24. Retrospectively Rated Contracts & Contracts Subject to Redetermination: NONE

Note 25. Change in Incurred Losses and Loss Adjustment Expenses: NONE

NOTES TO FINANCIAL STATEMENTS

Note 26. Intercompany Pooling Arrangements: NONE

Note 27. Structured Settlements: NONE

Note 28. Health Care Receivables: NONE

Note 29. Participating Policies

- A. As of December 31, 2018 and 2017, 54.2% and 59.2%, respectively, of life insurance policies were participating. All participating life insurance policies are included in reinsurance agreements with Athene Re IV or Accordia.
- B. The method of accounting for policyholder dividends is based upon dividends credited annually to policyholders on their policy anniversary date plus the change from the prior period on one year's projected dividend liability on policies in force at the statement date. Source data is produced from the Company's policy administration system.
- C. The amount of dividend expense incurred was \$0 and less than \$0.1 million for the years ended December 31, 2018 and 2017, respectively.
- D. There was no additional income allocated to participating policyholders.

Note 30. Premium Deficiency Reserves: NONE

Note 31. Reserves for Life Contracts and Annuity Contracts

- (1) The Company waives deduction of deferred fractional premiums upon death of insured and returns any portion of the final premium beyond the date of death. The reserve for surrender values promised in excess of the legally computed reserves is shown in Exhibit 5, Miscellaneous Reserves.

The Company offers riders on its fixed annuities which provides for future withdrawal and death benefits. In accordance with the NAIC's Accounting Practices and Procedures Manual, the rider should be reserved for under the revised Actuarial Guideline 33 (AG33). The Company requested and received approval to use an alternative methodology under the Practical Consideration section of AG 33 from the Insurance Division, Department of Commerce of the State of Iowa for policies issued prior to January 1, 2014. The reserve held at December 31, 2018 was based on Actuarial Guideline 43 (AG43) for policies issued prior to January 1, 2014, the approved alternative method for these contracts. For policies issued January 1, 2014 and after, the reserve was based on Actuarial Guideline 33 (AG33).

- (2) Mean reserves for substandard policies are determined by computing the regular mean reserve for the policy and holding in addition one half of the extra premium charge for the year. For payout annuities involving life contingencies, reserve for substandard policies are calculated using rated ages instead of the true issue ages of the insureds.
- (3) As of December 31, 2018, the Company had \$1,674.2 million of insurance in force for which the gross premiums were less than the net premiums according to the standard of valuation set by the State of Iowa. Reserves to cover the above shortfall in premium totaled \$36.9 million at December 31, 2018, are calculated annually, and were included in reserves on Page 3, Line 1 (Exhibit 5, Miscellaneous Reserves).
- (4) The tabular interest at December 31, 2018, (Page 7, Line 4), tabular less actual reserve released (Page 7, Line 5) and tabular cost (Page 7, Line 9) have been determined by formula as described in the NAIC instructions for Page 7.
- (5) The tabular interest on funds not involving life contingencies is calculated as the product of the mean fund balance and the average valuation interest rate.
- (6) There are no significant "Other Increases (net)" on Page 7, Line 7 or Exhibit 7, Line 4, as of December 31, 2018.

Note 32. Analysis of Annuity Actuarial Reserves and Deposit Type Liabilities by Withdrawal Characteristics

NOTES TO FINANCIAL STATEMENTS

Note 33. Premium and Annuity Considerations Deferred and Uncollected

A. Deferred and uncollected life insurance premiums and annuity considerations as of the current period, were as follows:

Type	(1) Gross	(2) Net of Loading
(1) Industrial		
(2) Ordinary new business		
(3) Ordinary renewal	6,771,343	8,112,338
(4) Credit Life		
(5) Group Life		
(6) Group Annuity		
(7) Totals	6,771,343	8,112,338

Note 34. Separate Accounts

A. Separate Account Activity

- (1) The Company maintains three separate account arrangements. The first arrangement includes one separate account containing funding agreement policies issued to the FHLB, known as Separate Account – Funding Agreements. The second arrangement includes one separate account, known as ALAC Separate Account I, consisting of individual variable annuities of a non-guaranteed return nature. The third arrangement, known as Group Annuity Separate Accounts, includes three separate accounts supporting annuities payable under group fixed annuity contracts issued to various employers, or trusts established by such employers, in respect of those employers' pension plans.
- (2) In accordance with the products/transactions recorded within the separate account, some assets are considered legally insulated whereas others are not legally insulated from the general account. The legal insulation of the separate account assets prevents such assets from being generally available to satisfy claims resulting from the general account. As of December 31, 2018 and 2017, the Company's separate account statements included legally insulated assets of \$5,029.2 million and \$2,344.7 million, respectively. The assets legally insulated from the general account as of December 31, 2018, are attributed to the following products/transactions:

(1) Product/Transaction	(1) Legally Insulated Assets	(2) Separate Account Assets (Not Legally Insulated)
Separate Account - Funding Agreements		0
Separate Account I - Variable Annuities	28,603,153	
Group Annuity Separate Accounts	5,000,571,263	
Total	5,029,174,416	0

- (3) The Company's variable annuity product guarantees a minimum death benefit. The Company's general account has not paid towards separate account guarantees for the past five years. The Company's variable annuity separate account has not paid risk charges for the past five years.

The Company's Group Annuity Separate Account liabilities are guaranteed by the general account. The Company's general account has not paid towards separate account guarantees during the years ended December 31, 2018 and 2017. To compensate the general account for the risk taken, the Group Annuity Separate Accounts have paid risk charges of \$8.9 million and \$1.9 million as of December 31, 2018 and 2017, respectively.

- (4) There are no securities lending transactions in the separate account.

B. General Nature and Characteristics of Separate Accounts Business

Separate Account - Funding Agreements: The funding agreement policies are secured by the assets in the Company's general account which are not subject to claims that arise out of any other business of the Company. The funding agreement policies may not be accelerated by the holder unless there is a default under the agreement, but the Company may retire the funding agreement policies at any time. The assets and liabilities of this separate account are carried at amortized cost.

ALAC Separate Account I: Net investment experience of this separate account is credited directly to the policyholder and can be positive or negative, as determined by the performance and/or fair value of the investments held in the separate account. These variable annuities generally provide an incidental death benefit of the greater of account value or premium paid. The assets and liabilities of these accounts are carried at fair value. This business has been included in column 4 of the table below.

Group Annuity Separate Accounts: The group fixed annuity contracts obligate the Company's general account to make annuity payments if the separate account is not able to do so. The assets and liabilities of this separate account are carried at amortized cost. During 2018, the Company's general account contributed \$173.8 million of seed money to Group Annuity Separate Accounts.

NOTES TO FINANCIAL STATEMENTS

Information regarding the separate accounts of the Company is as follows. All amounts are for separate accounts as of or for the year ended December 31, 2018.

	(1)	(2)	(3)	(4)	(5)
	Indexed	Nonindexed Guarantee Less than/equal to 4%	Nonindexed Guarantee More than 4%	Nonguaranteed Separate Accounts	Total
