Summary of the “Mental Health, More Critical Than Ever” Panel

Mental health-related issues continue to capture attention around the unmet need via media, social media, investors and drug developers. Novel drugs continue to emerge from the clinic and into commercialization, offering increased therapeutic benefit over standard of care. Maxim Group's Jason McCarthy and Joanne Lee will host an interactive panel discussion with the senior management from Alzamend, Intra-Cellular Therapies (ITCI), Reviva Pharmaceuticals (RVPH) and Bionomics (BNOX).

Summary of the Maxim Group Virtual Healthcare Conference

The exponential growth in knowledge and expertise in science and medicine continues to drive opportunities in the healthcare space. These include multiple therapeutic categories and emerging technologies, which presenting companies at this year’s Maxim Healthcare Conference are focused on, and for many, that includes key data-driven events in 2023. Maxim Senior Analysts will host a wide range of biotechnology and medical device companies in a series of presentations and interactive discussions with CEOs and key management.

About Alzamend Neuro

Alzamend is a clinical-stage biopharmaceutical company focused on developing novel products for the treatment of Alzheimer’s, bipolar disorder, MDD and PTSD. Our mission is to rapidly develop and market safe and effective treatments. Our current pipeline consists of

two novel therapeutic drug candidates, AL001 - a patented ionic cocrystal technology delivering lithium via a therapeutic combination of lithium, proline and salicylate, and ALZN002 - a patented method using a mutant-peptide sensitized cell as a cell-based therapeutic vaccine that seeks to restore the ability of a patient's immunological system to combat Alzheimer's. Both of our product candidates are licensed from the University of South Florida Research Foundation, Inc. pursuant to royalty-bearing exclusive worldwide licenses.
