# Aethlon Medical Announces Second Quarter Fiscal Year 2019 Results

SAN DIEGO, Nov. 6, 2018 /PRNewswire/ -- Aethlon Medical, Inc. (Nasdaq: AEMD), a therapeutic technology company focused on unmet needs in global health, today announced results for its fiscal second quarter ended September 30, 2018.

## Second Quarter Financial Results

The Company's net loss was approximately \$1.4 million, or \$(0.08) per share for the three months ended September 30, 2018 compared to a net loss of approximately \$1.3 million, or \$(0.14) per share for the three months ended September 30, 2017.

At September 30, 2018, the Company had a cash balance of approximately \$5.1 million.

Consolidated operating expenses for the three months ended September 30, 2018 were approximately \$1.35 million in comparison with \$1.24 million for the comparable period a year ago. This increase of approximately \$110,000, was due to increases in payroll and related expenses of \$54,000, in general and administrative expenses of \$37,000 and in professional fees of \$20,000.

The \$54,000 increase in payroll and related expenses was primarily due to a \$53,000 increase in stock-based compensation.

The \$37,000 increase in general and administrative expenses was primarily due to approximately \$79,000 of clinical trial expenses associated with the exosome trial at University of California Irvine, which was partially offset by reductions in a number of additional expenses.

The \$20,000 increase in our professional fees was due to a \$50,000 increase in our Board fees due to the recent expansion of our Board, a \$12,000 increase in ESI's legal fees related to patent work, a \$7,000 increase in scientific consulting fees, and a \$7,000 increase in our marketing and investor relations fees. Those increases were partially offset by a \$43,000 decrease in our legal fees and a \$13,000 decrease in our accounting fees.

The Company had other expense of approximately \$55,000 in the three months ended September 30, 2018 compared to other expense of approximately \$72,000 in for three months ended September 30, 2017.

The unaudited condensed consolidated balance sheet for September 30, 2018 and the unaudited condensed consolidated statements of operations for the three and six months ended September 30, 2018 and 2017 follow at the end of this release.

### **About Aethlon Medical, Inc.**

Aethlon Medical is focused on addressing unmet needs in global health. The Aethlon Hemopurifier® is a clinical-stage immunotherapeutic device designed to combat cancer and life-threatening viral infections. In cancer, the Hemopurifier® depletes the presence of circulating tumor-derived exosomes that promote immune suppression, seed the spread of metastasis and inhibit the benefit of leading cancer therapies. The Hemopurifier® is also an FDA designated "Breakthrough Device" related to the treatment of life-threatening viruses that are not addressed with approved therapies. Additionally, Aethlon owns 80% of Exosome Sciences, Inc., which is focused on the discovery of exosomal biomarkers to diagnose and monitor cancer and neurological disease progression.
