Non-GAAP Information

The Company does not provide an expected GAAP diluted earnings per share range or

reconciliation of Adjusted diluted earnings per share range with a GAAP diluted earnings per share range because, without unreasonable effort, we are unable to predict with reasonable certainty the precise timing of the recognition of expenses associated with the closing activity. These items are uncertain, depend on various factors, and could have a material impact on GAAP EPS in future periods.

In evaluating these non-GAAP financial measures, investors should be aware that in the future the Company may incur expenses or be involved in transactions that are the same as or similar to some of the adjustments in this presentation. The Company's presentation of non-GAAP financial measures should not be construed to imply that its future results will be unaffected by any such adjustments. The Company has provided this information as a means to evaluate the results of its ongoing operations. Other companies in the Company's industry may calculate these items differently than it does. Each of these measures is not a measure of performance under GAAP and should not be considered as a substitute for the most directly comparable financial measures prepared in accordance with GAAP. Non-GAAP financial measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP.
