# Perimeter Showcases Innovative Imaging Technology at Aptitude Health/TME's Fall Summit on Breast Cancer Care

*Industry-leading event gathers influential breast care physicians to explore best practices and the future of patient care*

TORONTO and DALLAS, Sept. 26, 2025 /CNW/ - [Perimeter Medical Imaging AI](#), Inc. (TSXV: PINK) (OTCQX: PYNKF) ("Perimeter" or the "Company"), a commercial-stage medical technology company, announced today that it will be exhibiting at Aptitude Health/TME's Fall Summit, *"Take the Lead in Breast Cancer Care,"* in New Orleans, Sept. 26-27. The annual summit gathers about 50 of the nation's leading breast cancer physicians for high-level, multi-disciplinary discussions on advancing care for high-risk and newly diagnosed breast cancer patients.

"Perimeter's OCT (optical coherence tomography) technology gives surgeons the ability to visualize margins in the OR. Combined with AI capabilities in our next generation platform, it could mark a major advance in intraoperative care," said Perimeter CEO Adrian Mendes. "This intimate forum is a unique opportunity to expose our device to an esteemed group of leading breast cancer physicians and other experts at the forefront of cancer care."

Perimeter's [S-Series OCT](#) received U.S. Food and Drug Administration ("FDA") clearance in 2021 under a general imaging indication, and the performance of an AI-assisted version is currently under [FDA evaluation](#) specifically for use in intraoperative breast cancer imaging.

TME's *Take the Lead in Breast Cancer Care* symposium convenes surgeons, oncologists, pathologists, genetic specialists, and industry for closed-door roundtable discussions and breakout sessions that explore innovative diagnostics and therapeutic discoveries, real-world clinical insights and challenges, and opportunities to advance patient outcomes.

## **About Perimeter Medical Imaging AI, Inc.**

Based in Toronto, Canada and Dallas, Texas, [Perimeter Medical Imaging AI](#) (TSX-V: PINK) (OTCQX: PYNKF) is a medical technology company driven to transform cancer surgery with ultra-high-resolution, real-time, advanced imaging tools to address areas of high unmet medical need. Available across the U.S., our FDA-cleared Perimeter S-Series OCT system provides real-time, cross-sectional visualization of excised tissues at the cellular level. The breakthrough-device-designated investigational Perimeter B-Series OCT with ImgAssist AI represents our next-generation artificial intelligence technology that is currently being

evaluated in a pivotal clinical trial, with support from a grant of up to US\$7.4 million awarded by the Cancer Prevention and Research Institute of Texas. The company's ticker symbol "PINK" is a reference to the pink ribbons used during Breast Cancer Awareness Month.

*Perimeter B-Series OCT is limited by U.S. law to investigational use and not available for sale in the United States. Perimeter S-Series OCT has 510(k) clearance under a general indication and has not been evaluated by the U.S. FDA specifically for use in breast tissue, breast cancer, other types of cancer, margin evaluation, and reducing re-excision rates. The safety and effectiveness of these uses has not been established. For more information, please visit [www.perimetermed.com/disclosures](http://www.perimetermed.com/disclosures).*

*Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*

## **Forward-Looking Statements**

This news release contains statements that constitute "forward-looking information" within the meaning of applicable Canadian securities legislation. In this news release, words such as "may," "would," "could," "will," "likely," "believe," "expect," "anticipate," "intend," "plan," "estimate," and similar words and the negative form thereof are used to identify forward-looking statements. Forward-looking information may relate to management's future outlook and anticipated events or results and may include statements or information regarding the future financial position, business strategy and strategic goals, competitive conditions, research and development activities, projected costs and capital expenditures, research and clinical testing outcomes, taxes and plans and objectives of, or involving, Perimeter. Without limitation, information regarding the potential benefits of Perimeter S-Series OCT and Perimeter B-Series OCT, the expected benefits of Perimeter's updated version of its ImgAssist AI, and Perimeter's expectations regarding the PMA submission to the FDA are forward-looking information. Forward-looking statements should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether, or the times at or by which, any particular result will be achieved. No assurance can be given that any events anticipated by the forward-looking information will transpire or occur. Forward-looking information is based on information available at the time and/or management's good-faith belief with respect to future events and are subject to known or unknown risks, uncertainties, assumptions, and other unpredictable factors, many of which are beyond Perimeter's control. Such forward-looking statements reflect Perimeter's current view with respect to future events, but are inherently subject to significant medical, scientific, business, economic, competitive, political, and social uncertainties and contingencies. In making forward-looking statements, Perimeter may make various material assumptions, including but not limited to (i) the accuracy of Perimeter's financial projections; (ii) obtaining positive results from trials; (iii) obtaining necessary regulatory approvals; and (iv) general business, market, and economic conditions. Further risks, uncertainties and assumptions include, but are not limited to, those applicable to Perimeter and described in Perimeter's Management Discussion and Analysis for the year ended December 31, 2023, which is available on Perimeter's SEDAR+ profile at <https://www.sedarplus.ca>, and could cause actual events or results to differ materially from those projected in any forward-looking statements. Perimeter does not intend, nor does Perimeter undertake any obligation, to update or revise any forward-looking information contained in this news release to reflect

subsequent information, events, or circumstances or otherwise, except if required by applicable laws.
