

Marathon Patent Group Surpasses \$1.5 Million in Patent Settlement & Licensing Proceeds in Second Quarter

Company Currently Has 33 Active Lawsuits With 42 Different Defendants

ALEXANDRIA, VA -- (Marketwired) -- 08/15/13 -- **Marathon Patent Group, Inc.** (OTCBB: MARAD) ("Marathon"), a patent licensing company, announced today its financial results for the second quarter ended June 30, 2013 ("Q2 2013").

For Q2, 2013, the Company reported gross revenue of \$1,524,979, as a result of three patent licensing and settlement agreements. Q2 2013 marks the first quarter the Company has reported significant licensing and settlement revenue. Included in the gross revenue amount is the value of certain patents received in settlement from a defendant.

Gross profit margin was approximately 50% during the quarter. Cost of revenues mainly consists of expenses incurred in connection with the Company's patent enforcement activities, such as legal fees, consulting costs, patent maintenance, royalty fees for acquired patents as well as the amortization of acquired patents.

As of June 30, 2013 the Company reported cash and cash equivalents of approximately \$6.4 million.

Commenting on the announcement, Doug Croxall, Founder & CEO of Marathon Patent Group, stated, "Q2 2103 was Marathon's first full quarter of patent enforcement activity. We launched our first patent licensing campaign in March 2013 and we are pleased to have already generated over \$1.5 million in settlements. During the second quarter, we launched two new licensing campaigns, Sampo and Relay IP. Since the start of the third quarter both of those licensing campaigns have produced revenue in the form of settlement and license agreements. The speed in which we have begun to monetize our patents speaks directly to both the quality of patents and our effectiveness of enforcement."

Mr. Croxall continued, "We have built a robust, highly scalable IP monetization platform that leverages our ability to manage multiple licensing campaigns while actively pursuing the acquisition of other patent portfolios. We have over \$6 million in cash and no debt; this gives us a tremendous opportunity to continue to expand our portfolio while we work to monetize our existing portfolios via licensing campaigns."
