Fourth Quarter 2023 Financial Results

Net revenue for the fourth quarter of 2023 was \$86.6 million as compared to \$69.0 million for the fourth quarter of 2022, representing year-over-year growth of 25.5%. The 25.5% year-over-year growth was driven by the acquisition of four dispensaries and commencement of adult-use sales in Maryland, and a more than doubling of the Company's wholesale business in New Jersey, partially offset by retail declines in New Jersey and Michigan.

Gross profit margin for the fourth quarter of 2023 was 48.2% as compared to 44.6% in the fourth quarter of 2022. The year-over-year improvement of 360 basis points was driven by yield improvements in New Jersey, margin optimization in Michigan, and the acquisition of four dispensaries and commencement of adult-use sales in Maryland. In the fourth quarter, gross margin in Maryland declined compared to the previous quarter, resulting from an equipment malfunction which led to a crop failure at its Maryland facility. The product output from that incident led to higher discounting in the quarter. Maryland gross margins in the quarter were also impacted by temporary under absorption of fixed costs in non-flower production due to scale up in this area. The Company is increasing output of non-flower product to meet its growing wholesale business and increase verticality in its four dispensaries. The increased output is expected to partially improve gross margin in Q1 and more fully absorb fixed costs into Q2.

General & Administrative expenses (G&A) for the fourth quarter of 2023 were \$27.7 million as compared to \$34.5 million in the fourth quarter of 2022. G&A expenses, excluding stock-based compensation, were \$25.4 million compared to \$32.9 million in the fourth quarter of 2022. G&A as a percent of revenue, excluding stock-based compensation, was 29.4% in the fourth quarter, achieving the Company's stated goal of 30%, compared to 47.6% in the fourth quarter of 2022. The fourth quarter of 2022 included a \$10.0 million reserve for bad debt related to one customer in Michigan.

GAAP Net loss from continuing operations was \$41.8 million, inclusive of \$57.7 million of non-cash impairment charges, compared to a net loss of \$2.0 million in Q4 2022. The non-cash impairment charges were recorded against goodwill and intangibles for the Company's Michigan and California businesses.

Adjusted EBITDA from continuing operations, a non-GAAP measure, was \$19.6 million, representing a 22.7% Adjusted EBITDA margin, as compared to \$12.2 million and 17.7% in Q4 2022. The year-over-year improvement of 490 basis points was driven by gross margin expansion and G&A expense leverage.

Full Year 2023 Financial Results

Net revenue for the full year 2023 totaled \$317.3 million, as compared to \$247.8 million for 2022, an increase of 28.0%, primarily driven by adult-use sales in New Jersey, the acquisition of four retail dispensaries in Maryland, the commencement of adult-use sales in Maryland, and growth in retail sales in Michigan.

Gross profit margin was 50.3% compared to 41.0% for the full year 2022. The increase was driven by adult-use sales and yield improvements in New Jersey, adult-use sales and the acquisition of four retail dispensaries in Maryland, various margin optimization efforts in Michigan, and cost optimizations in Pennsylvania.

While revenue grew 28.0%, General & Administrative expenses (G&A) declined year-over-

year. G&A expenses were \$115.2 million, as compared to \$115.6 million in 2022. G&A as a percent of revenue was 36.3% as compared to 46.6% in 2022. This 1,030 basis points of reduction as a percentage of revenue was driven by the growth in sales and the Company's across the board efforts to optimize its costs and drive positive cash flow. Also, the fourth quarter of 2022 included a \$10.0 million reserve for bad debt related to one customer in Michigan.

GAAP Net Loss from continuing operations was \$82.3 million, inclusive of \$58.0 million of non-cash impairment charges, compared to a net loss of \$299.4 million in 2022, inclusive of \$311.1 million of non-cash impairment charges. The non-cash impairment charges were recorded against goodwill and intangibles for the Company's Michigan and California businesses.

Adjusted EBITDA from continuing operations, a non-GAAP measure, was \$68.8 million as compared to \$38.8 million in 2022 resulting in an increase of 77.1% year-over-year. The year-over-year increase in Adjusted EBITDA from continuing operations was driven by the growth in revenue of 28.0% year-over-year, and improvements in gross margin. Adjusted EBITDA margin from continuing operations was 21.7% as compared to 15.7% in 2022, an improvement of 600 basis points year-over-year. The year-over-year improvement was driven by the improvements in gross margin and optimizations of G&A.

Balance Sheet and Cash Flow

Cash and cash equivalents, including restricted cash, were \$25.3 million as of December 31, 2023, compared to \$26.8 million as of December 31, 2022. Net cash provided by operating activities was \$9.4 million for the fourth quarter of 2023 compared to \$7.3 million in the fourth quarter of 2022. This represented the Company's sixth consecutive quarter of positive cash flow from continuing operations. Capex spending was \$1.5 million in the fourth quarter of 2023 related to the Company's Hagerstown, Maryland expansion. Free cash flow was \$7.9 million compared to \$3.9 million in the fourth quarter of 2022. During the quarter, payments were made related to \$4.1 million of debt paydown and \$4.7 million of cash distributions to the Company's New Jersey partners.

After initiating a comprehensive evaluation in early 2023, and based on legal interpretations, the Company has changed its tax position to challenge its tax liability under Internal Revenue Code - Section 280E. This has resulted in the reclassification of \$59.2 million of tax liabilities, as of December 31, 2023, to long term liabilities and an uncertain tax position on the balance sheet. The Company will be filing amended returns for calendar years 2020, 2021 and 2022 and expects to receive refunds of approximately \$26 million of federal and state refunds related to 2020 and 2021. The current income tax liability on December 31, 2023 was \$4.8 million and the Company plans to make payments as an ordinary taxpayer going forward.

As of March 13, 2024, there were 367 million basic shares outstanding including 291 million common shares, 13 million preferred shares as converted, and 63 million exchangeable shares. Additionally, there are 42 million warrants and options outstanding at a weighted average price of \$3.91.

Caution Regarding Cannabis Operations in the United States

Investors should note that there are significant legal restrictions and regulations that govern the cannabis industry in the United States. Cannabis remains a Schedule I drug under the US Controlled Substances Act, making it illegal under federal law in the United States to, among other things, cultivate, distribute, or possess cannabis in the United States. Financial transactions involving proceeds generated by, or intended to promote, cannabis-related business activities in the United States may form the basis for prosecution under applicable US federal money laundering legislation.

While the approach to enforcement of such laws by the federal government in the United States has trended toward non-enforcement against individuals and businesses that comply with medical or adult-use cannabis programs in states where such programs are legal, strict compliance with state laws with respect to cannabis will neither absolve TerrAscend of liability under U.S. federal law, nor will it provide a defense to any federal proceeding which may be brought against TerrAscend. The enforcement of federal laws in the United States is a significant risk to the business of TerrAscend and any proceedings brought against TerrAscend thereunder may adversely affect TerrAscend's operations and financial performance.

Definition and Reconciliation of Non-GAAP Measures

In addition to reporting the financial results in accordance with GAAP, the Company reports certain financial results that differ from what is reported under GAAP. Non-GAAP measures used by management do not have any standardized meaning prescribed by GAAP and may not be comparable to similar measures presented by other companies. The Company believes that certain investors and analysts use these measures to measure a company's ability to meet other payment obligations or as a common measurement to value companies in the cannabis industry, and the Company calculates: (i) EBITDA from continuing operations and Adjusted EBITDA from continuing operations as net income (loss), adjusted to exclude [provision for income taxes, finance expenses, depreciation and amortization, relief of fair value upon acquisition, share-based compensation, gain on extinguishment of debt, restructuring related charges, impairment of good will and intangible assets and certain other items which management believes are not reflective of the ongoing operations and performance, (ii) Adjusted EBITDA Margin from continuing operations as EBITDA from continuing operations adjusted for certain material non-cash items such as inventory write

downs outside of the normal course of operations, share based compensation expense, impairment charges taken on goodwill, intangible assets and property and equipment, the gain or loss recognized on the revaluation of our contingent consideration liabilities, the gain or loss recognized on the remeasurement of the fair value of the U.S denominated preferred share warrants and other warrants liabilities, one time fees incurred in connection with our acquisitions and certain other adjustments management believes are not reflective of the ongoing operations and performance, (iii) Free Cash Flow as net cash provided by operating activities from continuing operations as presented in the Consolidated Statements of Cash Flows, less capital expenditures for property and equipment, and (iv) General & Administrative expenses excluding stock-based compensation as a percentage of Revenue, net. Such information is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. The Company believes this definition is a useful measure to assess the performance of the Company as it provides more meaningful operating results by excluding the effects of expenses that are not reflective of the Company's underlying business performance and other one-time or non-recurring expenses.
