ExxonMobil Supports Online Education with \$100,000 for Carlsbad Municipal Schools

- Contribution to help facilitate the transition to online learning
- Laptops to be provided to in-need students

CARLSBAD, N.M.--(BUSINESS WIRE)-- The Carlsbad Municipal School District is receiving \$100,000 from [ExxonMobil](#) to support online education in response to unprecedented circumstances associated with the COVID-19 pandemic. Funding will help provide technology and internet connectivity to low income students who are living in remote locations with limited access to the internet.

To support the need for social distancing to minimize the impact of COVID-19, New Mexico made the difficult decision on March 16 to close school buildings to students for the remainder of the school year. The closure impacts 7,000 students in 14 schools in the district.

"ExxonMobil is committed to doing our part to support the community during the COVID-19 pandemic," said Staale Gjervik, senior vice president at ExxonMobil Upstream Oil and Gas Company and president of XTO Energy. "We have long supported initiatives designed to support students and teachers and know that these are not easy times for many families or teachers."

In a short amount of time, teachers have been asked to modify their plans and develop new lessons that can be presented to their students remotely. Gjervik said that ExxonMobil's goal is to help the school district and ensure students maintain their studies with as minimal disruption as possible.

"Carlsbad's schools and teachers need support and encouragement during these difficult times," Gjervik said. "We hope our contribution will help facilitate the transition to online learning during this period and ease the burden on families and the schools."

The Carlsbad Municipal School District has developed a Continuous Learning Plan for the remainder of the year and plans to submit it to the Public Education Department by April 6, 2020. The plan will be shared with the community as soon as it is complete and ready to be deployed.

"We have been charged with moving to a distance-based education model in a very short

period of time. Assistance from ExxonMobil is helping to make this transition successful. The district appreciates and looks forward to the continuing relationship with ExxonMobil in service to our students." said Dr. Gerry Washburn, superintendent of The Carlsbad Municipal Schools.

In addition to donations to the Carlsbad Municipal School District and other community groups, ExxonMobil is responding to the COVID-19 pandemic by maximizing production of products such as isopropyl alcohol, a key ingredient in hand sanitizer, and polypropylene, used to make protective equipment for health care workers and first responders.

ExxonMobil is also working with the Global Center for Medical Innovation to [design and support the manufacturing of reusable shields and masks](#) for health care workers.

ExxonMobil is a founding member of the Permian Strategic Partnership, an alliance of 19 energy companies operating in the Permian Basin, working in partnership with community leaders to address public education, healthcare, housing, roads and workforce development. In 2018, ExxonMobil contributed nearly \$35 million to higher education, medical care, environmental research and arts and civic organizations in Texas and New Mexico.

About ExxonMobil

Exxon Mobil Corporation, one of the largest publicly traded international energy company, uses technology and innovation to help meet the world's growing energy needs. ExxonMobil engages in a range of philanthropic activities that advance education, with a focus on math and science in the United States, promote women as catalysts for economic development, and combat malaria. In 2018, together with its employees and retirees, ExxonMobil, its divisions and affiliates, and the ExxonMobil Foundation provided \$211 million in contributions worldwide. About Carlsbad Municipal Schools

The Carlsbad Municipal School District currently has fourteen (14) schools, including Hillcrest, a separate PreK building, the Early Childhood Education Center (Kindergarten), an Early College High School and approximately 7,000 students. The district prides itself on an individualized and personalized approach to educating its students. The Carlsbad Municipal School is continuously seeking opportunities to improve and expand learning opportunities for students from pre-kindergarten to post-secondary school levels. We will continue to look at this opportunity as a chance to enhance our instructional practices and meet the social and emotional needs of our students. We know that it will take partnerships with the community to meet students' needs in this current situation.
