

CV Sciences, Inc. Reports Second Quarter 2023 Financial Results

SAN DIEGO, Aug. 14, 2023 /PRNewswire/ -- CV Sciences, Inc. (OTCQB:CVSI) (the "Company", "CV Sciences", "our", "us" or "we"), a preeminent consumer wellness company specializing in hemp extracts and other proven science-backed, natural ingredients and products, today announced its financial results for the quarter ended June 30, 2023.

Second Quarter 2023 and Recent Financial and Operating Highlights

- Generated revenue of \$4.0 million for the second quarter 2023 compared to \$4.1 million for second quarter 2022;
- Recognized gross margin of 43.3% for the second quarter 2023 compared to 30.7% for the second quarter 2022 and a sequential improvement from 43.0% for the first quarter 2023;
- Cash balance of \$1.7 million at quarter end compared to \$0.6 million at the end of 2022;
- Generated cash flow from operations of \$2.4 million in the first six months of 2023 compared to cash used in operations of \$1.5 million in the first six months of 2022; cash flow from operations included employee retention credit (ERC) under the CARES Act for a total of \$2.5 million;
- Extinguished outstanding note payable;
- Maintained number one position as top-selling hemp extract brand in the natural product retail sales channel, according to SPINS, the leading provider of syndicated data and insights for the natural, organic and specialty products industry;
- Continued progress in e-commerce channel with 8% increase in subscription revenue during Q2;
- Launched PlusCBD™ Reserve Collection Extra Gummies to support healthy sleep, faster recovery, deeper relaxation and a brighter mood; and
- Continued to evaluate strategic opportunities, including consideration of an inbound or outbound merger, sale, acquisition or other options for the Company.

"We continue to increase our distribution network in the natural product retail channel. Our flagship PlusCBD™ brand continues to improve its number one position and gain market share in the natural product channel, and, with our portfolio of high-quality and proven products, we believe the Company is positioned for future growth," stated Joseph Dowling, Chief Executive Officer of CV Sciences. "Our second quarter gross margins exceeded our expectations and we are encouraged by improvements we have made to reduce operating expenses. We have strengthened our balance sheet and continue to operate cost efficiently and plan to continue participating in the consolidation and brand contraction of the CBD market as we execute on our key strategic initiatives, and leverage core competitive advantages to drive long-term growth and shareholder value."

Sales for second quarter 2023 were \$4.0 million, a decrease of 4% from \$4.1 million for the second quarter 2022. The decline is primarily due to lower number of units sold during the second quarter 2023 by 16%, partially offset by increases in average sales price per unit in the second half of 2022. We generated an operating loss \$1.1 million in the second quarter of 2023, compared to an operating loss of \$2.3 million in the second quarter 2022, mostly due to improved gross margins and lower operating expenses. The Company had negative adjusted EBITDA for the second quarter of 2023 of \$1.2 million, compared to negative adjusted EBITDA of \$1.8 million in the second quarter of 2022.

Conference Call and Webcast

The Company will host a conference call and webcast to discuss these results today at 10:00 am EDT/7:00 am PDT. The webcast of the conference call will be available on the Investor Relations section of the Company's website at https://ir.cvsciences.com/news-events or directly at https://viavid.webcasts.com/starthere.jsp? ei=1627000&tp_key=3c5f3865ae. Investors interested in participating in the live call can also dial (877) 407-0784 from the U.S. or international callers can dial (201) 689-8560. A telephone replay will be available approximately three hours after the call concludes, and will be available through Monday, August 21, 2023, by dialing (844) 512-2921 from the U.S. or (412) 317-6671 from international locations, and entering confirmation code 13740404.

About CV Sciences, Inc.

CV Sciences, Inc. (OTCQB:CVSI) is a consumer wellness company specializing in hemp extracts and other proven, science-backed, natural ingredients and products, which are sold through a range of sales channels from B2B to B2C. The Company's PlusCBD™ branded products are sold at select retail locations throughout the U.S. and are the top-selling brands of hemp extracts in the natural products market, according to SPINS, the leading provider of syndicated data and insights for the natural, organic and specialty products industry. CV Sciences follows all guidelines for Good Manufacturing Practices (GMP) and the Company's products are processed, produced, and tested throughout the manufacturing process to confirm strict compliance with Company and regulatory standards and specifications. With a commitment to science, PlusCBD™ product benefits in healthy people are supported by human clinical research data, in addition to three published clinical case studies available on PubMed.gov. PlusCBD™ was the first hemp extract supplement brand to invest in the scientific evidence necessary to receive self-affirmed Generally Recognized as Safe (GRAS) status. CV Sciences, Inc. has primary offices and facilities in San Diego, California. The Company also operates a drug development program focused on developing and commercializing CBD-based novel therapeutics. Additional information is available from OTCMarkets.com or by visiting www.cvsciences.com.

CV SCIENCES, INC.

NON-GAAP FINANCIAL MEASURES (UNAUDITED)

We prepare our financial statements in accordance with generally accepted accounting principles for the United States (GAAP). The non-GAAP financial measures, such as net income (loss) per share and Adjusted EBITDA included in this press release are different from those otherwise presented under GAAP. We use non-GAAP measures internally to evaluate our performance and make financial and operational decisions that are presented in a manner that adjusts from their equivalent GAAP measures or that supplement the information provided by our GAAP measures. The non-GAAP financial measures exclude non-cash compensation expense for stock options. When evaluating the performance of our

business and developing short and long-term plans, we do not consider share-based compensation charges. Although share-based compensation is necessary to attract and retain quality employees, our consideration of share-based compensation places its primary emphasis on overall shareholder dilution rather than the accounting charges associated with such grants. Because of the varying availability of valuation methodologies and subjective assumptions, we believe that the exclusion of share-based compensation allows for more accurate comparison of our financial results to previous periods. In addition, we believe it useful to investors to understand the specific impact of the application of the fair value method of accounting for share-based compensation on our operating results.

Adjusted EBITDA is defined by us as EBITDA (net income (loss) plus depreciation, interest and income tax expense), further adjusted to exclude certain non-cash expenses and other adjustments as set forth below. We use Adjusted EBITDA because we believe it more clearly highlights trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures, since Adjusted EBITDA eliminates from our results specific financial items that have less bearing on our core operating performance.

We use Adjusted EBITDA in communicating certain aspects of our results and performance, including in this press release, and believe that Adjusted EBITDA, when viewed in conjunction with our GAAP results and the accompanying reconciliation, can provide investors with greater transparency and a greater understanding of factors affecting our financial condition and results of operations than GAAP measures alone. In addition, we believe the presentation of Adjusted EBITDA is useful to investors in making period-to-period comparison of results because the adjustments to GAAP are not reflective of our core business performance.

A reconciliation from our GAAP net income (loss) to non-GAAP net loss for the three and six months ended June 30, 2023 and 2022 is detailed below (in thousands, except per share data):

	Three months ended June 30,			Six months ended June 30,
