Horizons ETFs Rebalances Marijuana-Focused Index ETF Suite

Horizons ETFs maintains the world's largest suite of cannabis ETFs

TORONTO, Sept. 27, 2019 /CNW/ - Horizons ETFs Management (Canada) Inc. (**Horizons ETFs**) has completed the quarterly rebalance of the constituent holdings of the [Horizons Marijuana Life Sciences Index ETF](#) ("HMMJ":TSX), the [Horizons US Marijuana Index ETF](#) ("HMUS":NEO) and the [Horizons Emerging Marijuana Growers Index ETF](#) ("HMJR":NEO).

HORIZONS ETFs
by Mirae Asset

HMMJ is the world's first ETF offering direct exposure to North American-listed securities that are involved with marijuana bioengineering and production. Once again, the ETF has added additional companies to its portfolio as more firms have become eligible for inclusion in its underlying index – the North American Marijuana Index.

The HMMJ portfolio recently expanded to include the following two constituents:

Company Name	Ticker	Exchange
Akerna Corp.	KERN	NASDAQ
Fire & Flower Holdings Corp.	FAF	Toronto Stock Exchange

HMMJ is an index (or passively managed) ETF, which seeks to replicate, to the extent possible, the performance of the North American Marijuana Index, net of expenses. This index is designed to provide exposure to the performance of a basket of North American publicly listed life sciences companies with significant business activities in the marijuana industry. The North American Marijuana Index selects from a current universe of companies that have operations that may include one or more of biopharmaceuticals, medical manufacturing, distribution, bioproducts and other ancillary businesses related to the marijuana industry.

"HMMJ is relatively flat year to date, as the Marijuana sector has underperformed the broader markets. While underwhelming, key events on the horizon could result in renewed

investor interest, like the second phase of Canadian cannabis legalization permitting edibles, beverages, extracts and topicals on October 17th. According to Deloitte, that market segment could be worth an additional \$2.7 billion," said Steve Hawkins, President and CEO of Horizons ETFs. "Even when the marijuana sector has struggled as of late, HMMJ currently provides some additional performance benefits through its securities lending mechanisms. Year-to-date, including the Q3 distribution trading ex-dividend today, HMMJ has provided \$.85 cents per unit of income for its investors."

Rebalancing of the North American Marijuana Index, and consequently HMMJ, occurs each calendar quarter. At that point, all stocks eligible for inclusion are generally re-weighted by their respective market capitalization. The holdings of HMMJ and its current portfolio weights are regularly updated and available at <https://www.HorizonsETFs.com/HMMJ>.

Performance Update as at September 20, 2019*

	1 Month	3 Month	6 Months	YTD	1 Year	Annualized Since Inception**
HMMJ	-9.17%	-26.23%	-38.96%	-0.67%	-43.70%	19.53%
NAMMAR Index	-8.05%	-27.59%	-38.04%	-3.08%	-44.46%	9.19%
TX60AR Index	4.85%	2.76%	6.72%	20.39%	8.78%	7.06%

** Since HMMJ's inception on April 4, 2017.

The indicated rates of return are the historical annual compounded total returns, including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Additionally, index returns do not take into account management, operating or trading expenses that may be incurred in replicating the index. The rates of return above are not indicative of future returns. ETFs are not guaranteed, their values change frequently, and past performance may not be repeated. The index is (indices are) not directly investible.

HMUS Rebalance

This was the second rebalance of HMUS since the ETF was launched in April. HMUS is the world's first U.S.-focused marijuana index ETF.

HMUS seeks to replicate, to the extent possible, the performance of the US Marijuana Companies Index, net of expenses. This index is designed to provide exposure to the performance of a basket of publicly listed companies having significant business activities in, or significant exposure to, the marijuana or hemp industries in the United States. Constituents of this index are selected from Canadian and U.S. exchanges. While some securities may be listed on major North American exchanges, the majority of the securities currently trade on North American exchanges that include but are not limited to the Canadian Securities Exchange and the Aequitas NEO Exchange.

This rebalance included the addition of one new index constituent:

Company Name	Ticker	Exchange
--------------	--------	----------

Akerna Corp.	KERN	NASDAQ
--------------	------	--------

"We created HMUS because we believe the U.S. marijuana and hemp markets have the potential to be the world's largest cannabis market," said Mr. Hawkins. "In 2018, the U.S. marijuana sector generated an estimated \$10.5 billion in revenue. By 2024, Arcview Market Research and BDS Analytics predict that all U.S. states will legalize medical usage and the recreational marijuana market will be permitted in almost half, worth an estimated \$44.8 billion."

Rebalancing of the US Marijuana Companies Index, and consequently HMUS, occurs each calendar quarter. At that point, all stocks eligible for inclusion are generally re-weighted by their respective market capitalization. The holdings of HMUS and its current portfolio weights are regularly updated and available at <http://www.HorizonsETFs.com/HMUS>.

HMJR Rebalance

HMJR seeks to replicate, to the extent possible, the performance of the Emerging Marijuana Growers Index, net of expenses. This index is designed to provide exposure to the performance of a basket of primarily North American publicly listed small-capitalization companies primarily involved in the cultivation, production and/or distribution of marijuana.

HMJR invests in companies with market capitalizations generally between CAD \$50 million and CAD \$500 million. The ETF's portfolio is 100% invested in marijuana producers and distributors, and it can have exposure to companies outside of North America.

The HMJR portfolio recently expanded to include the following 12 constituents:

Company Name	Ticker	Exchange
Acreage Holdings Inc.	ACRG/U	Canadian Securities Exchange
Althea Group Holdings LTD.	AGH	Australian Securities Exchange
EXMceuticals	EXM	Canadian Securities Exchange
4Front Ventures Corp.	FFNT	Canadian Securities Exchange
The Flowr Corporation	FLWR	TSX Venture Exchange
Green Growth Brands Inc.	GGB	Canadian Securities Exchange
Integrated Cannabis Company Inc.	ICAN	Canadian Securities Exchange
Jushi Holdings Inc.	JUSH/B	AEQUITAS NEO
MPX International Corp.	MPXI	Canadian Securities Exchange
PharmaCielo Ltd.	PCLO	TSX Venture Exchange
Wildflower Brands Inc.	SUN	Canadian Securities Exchange
TerrAscend Corp.	TER	Canadian Securities Exchange

"This quarter, the HMJR portfolio saw 12 cannabis companies added to its portfolio, including Althea Group Holdings, an Australian-based licensed producer," said Mr. Hawkins. "HMJR continues to be a showcase of emerging cannabis companies within the growing global marijuana sector and highlights the potential for greater legalization opportunities, worldwide."

Rebalancing of the Emerging Marijuana Growers Index, and consequently HMJR, occurs each calendar quarter. At that point, all stocks eligible for inclusion are generally re-weighted

by their respective market capitalization. The holdings of HMJR and its current portfolio weights are regularly updated and available at <http://www.HorizonsETFs.com/HMJR>.

About Horizons ETFs Management (Canada) Inc. (www.HorizonsETFs.com)
