Sidus Space Principal Satellite Engineer Ryan Jeffrey Awarded Space & Satellite Professionals International (SSPI) “20 Under 35” Honor

CAPE CANAVERAL, Fla.--(BUSINESS WIRE)-- [Sidus Space, Inc.](https://www.sidus.space) (NASDAQ:SIDU), a Space-as-a-Service satellite company focused on mission critical hardware manufacturing; multi-disciplinary engineering services; satellite design, production, launch planning, mission operations; and in-orbit support, is proud to announce that Sidus Space Principal Satellite Engineer Ryan Jeffrey has been named to the Space & Satellite Professionals International (SSPI) “20 under 35” list. The annual list of “20 under 35” features twenty young professionals who continue to demonstrate growth potential within their organization and will be industry professionals to watch in the future.

Jeffrey joined Craig Technologies (a parent company to Sidus Space) in 2013, where he completed an internship before joining full-time as a Manufacturing Engineer. Since then, Jeffrey served as Lead Engineer for

Craig Technologies Aerospace Solutions (transitioned to Sidus Space), where he was responsible for the development and launch of the CraigX Flight Test Platform (a 2D and 3D engineering generation and analysis from start to finish), which successfully deployed in 2019. He also served as the lead engineer for Concept Constellation, a Satellite-as-a-Service hosted payload solution for testing spaceflight subcomponents to raise the Technology Readiness Level of Flight Hardware.

In his current role of Principal Satellite Engineer with Sidus, Jeffrey manages all aspects of the development and execution of LizzieSat™— a multipurpose satellite that integrates custom payloads leveraging flight-proven communications, power, navigation & computing subsystems to provide domestic and international customers with valuable data from Low Earth Orbit.

“Ryan is an integral part of the Sidus Space team. Since the near-decade we’ve been working together, Ryan is accomplished beyond his years, having successfully developed and launched our EFPT™, managing the design, fabrication, and test of the Orion Crew Capsule Mini Lift Station, and will play a significant role in the launch services for multiple LizzieSat™ satellite deployments with SpaceX,” said Founder and CEO of Sidus Space Carol Craig. “At Sidus, it’s important for us to invest in young talent and Ryan’s continued

passion for the industry and ability to embrace opportunities showed my team the importance of having this up-and-coming leader join our staff.”

The complete list of the “20 under 35” honorees can be found [here](#).

About Sidus Space

Sidus Space (NASDAQ: SIDU), located in Cape Canaveral, Florida, operates from a 35,000-square-foot manufacturing, assembly, integration, and testing facility focused on vertically integrated Space-as-a-Service solutions including end-to-end satellite support. The company’s rich heritage includes the design and manufacture of many flight and ground component parts and systems for various space-related customers and programs. Sidus Space has a broad range of Space-As-a-Service offerings including space-rated hardware manufacturing, design engineering, satellite manufacturing and platform development, launch and support services, data analytics services and satellite constellation management.

Sidus Space has a mission of Bringing Space Down to Earth™ and a vision of enabling space flight heritage status for new technologies while delivering data and predictive analytics to domestic and global customers. Any corporation, industry, or vertical can start their journey off-planet with Sidus Space’s rapidly scalable, low-cost satellite services, space-based solutions, and testing alternatives. More than just a “Satellite-as-a-Service” provider, Sidus Space is a trusted Mission Partner—from concept to Low Earth Orbit and beyond. Sidus Space is ISO 9001:2015, AS9100 Rev. D certified, and ITAR registered.

Forward-Looking Statements

Statements in this press release about future expectations, plans and prospects, as well as any other statements regarding matters that are not historical facts, may constitute ‘forward-looking statements’ within the meaning of The Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements relating to the expected trading commencement and closing dates. The words ‘anticipate,’ ‘believe,’ ‘continue,’ ‘could,’ ‘estimate,’ ‘expect,’ ‘intend,’ ‘may,’ ‘plan,’ ‘potential,’ ‘predict,’ ‘project,’ ‘should,’ ‘target,’ ‘will,’ ‘would’ and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: the uncertainties related to market conditions and other factors described more fully in the section entitled ‘Risk Factors’ in Sidus Space’s Annual Report on Form 10-K for the year ended December 31, 2021, and other periodic reports filed with the Securities and Exchange Commission. Any forward-looking statements contained in this press release speak only as of the date hereof, and Sidus Space, Inc. specifically disclaims any obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
