Non-GAAP Measures

To provide investors with additional information in connection with our results as determined in accordance with GAAP, we use non-GAAP measures of adjusted EBITDA. We use adjusted EBITDA in order to evaluate our operating performance and make strategic decisions regarding future direction of the company since it provides a meaningful comparison to our peers using similar measures. We define adjusted EBITDA as net income (as determined by U.S. GAAP) adjusted for interest expense, depreciation and amortization expense, acquisition deal costs, severance costs, capital market and advisory fees, equity-based compensation and warrant costs. These non-GAAP measures may be different from non-GAAP measures made by other companies since not all companies will use the same measures. Therefore, these non-GAAP measures should not be considered in isolation or as a substitute for relevant U.S. GAAP measures and should be read in conjunction with information presented on a U.S. GAAP basis.

The following table reconciles adjusted EBITDA to net loss (the most comparable GAAP measure) for the three months ended September 30, 2025 and 2024:

	Three Months Ended September 30,		Change	%

Adjusted EBITDA	(3,976,642)	(2,453,254)	(1,523,388)	(62%)

- (i) Sidus Space incurred decreased interest income/expense due to decreased interest expense from a short-term note payable due in Q4 2024 and increased interest income, partially offset by increased interest expense related to an asset based loan.
- (ii) Sidus Space incurred increased depreciation expense in 2025 with the launch and deployment of satellite fixed assets and related satellite software, as well as new ERP software capitalization.
- (iii) Sidus Space incurred internal Fundraising expense related to multiple 2025 capital raises
- (iv) Sidus Space incurred increased equity based compensation expense due to incentive programs implemented by the Board in 2025.
