Mirion Technologies Appoints Mike Brumbaugh Chief Information Officer

SAN FRANCISCO--(BUSINESS WIRE)--

Mirion Technologies, the leading global provider of detection, measurement, and analysis solutions in the radiation protection industry, today announced the appointment of Mike Brumbaugh as Chief Information Officer. Mr. Brumbaugh will be responsible for the Company's enterprise-wide technology initiatives. Prior to joining Mirion, Mr. Brumbaugh headed the data services development division based in Duesseldorf, Germany for Vodafone.

With over 20 years of experience in the full spectrum of technology management, Mr. Brumbaugh also brings an extensive technical and business management background. "Mike has a proven record of success in delivering superior network and application performance in a highly productive, customer-focused fashion," stated Thomas Logan, Chief Executive Officer of Mirion Technologies. "His leadership in building teams and running complex global operations is a tremendous asset to the Company."

"I am pleased to join this growing team of exceptional professionals. I look forward to creating a technology organization that can contribute to improving efficiencies as we continue to expand," stated Mike Brumbaugh.

Previously, Mr. Brumbaugh led a globally dispersed technical organization in the development and deployment of mobile products and services to over twenty countries in the Vodafone family. Mike also served as the CTO for Vodafone's Global Platform Division based in the U.S. Prior to Vodafone, Mike served as Vice President for Technical Services for Verizon Wireless and was Vice President and Executive Director of IT at AirTouch Cellular. Mike also held numerous director level positions in IT at Pacific Bell.

Mr. Brumbaugh holds a Bachelors of Arts degree in Economics from the University of California, Irvine.
