

COMPANY OVERVIEW

For over three decades, **Capstone Green Energy** has been at the forefront of microturbine technology, revolutionizing how businesses manage their energy supply. In partnership with our worldwide team of dedicated distributors, we have shipped over 10,000 units to 83 countries, providing environmentally friendly and highly efficient on-site energy systems and microgrid solutions.

Today, our commitment to a greener future is unwavering. We offer customers a range of commercial, industrial and utility scale options tailored to their specific needs ranging from 65kW to multiple MWs. Capstone's product portfolio not only showcases our core microturbine technology but also includes flexible Energy-as-a-Service (EaaS) rental and service contracts.

In our pursuit of cutting-edge solutions, we've forged strategic partnerships to extend our impact. Through these collaborations, we proudly offer biomass and heat recovery solutions that enhance the sustainability and efficiency of our client's operations, contributing to a cleaner and more responsible energy landscape.

Capstone estimates that in FY23, it saved customers over \$169 million in annual energy costs and approximately 362,000 tons of carbon. Total savings over the last five years are estimated to be approximately \$1.08 billion in energy savings and approximately 1.9 million tons of carbon savings.
