BioSig Technologies to Present at the MicroCap Conference

Santa Monica, CA, April 06, 2018 (GLOBE NEWSWIRE) -- BioSig Technologies, Inc. (OTCQB: BSGM), a medical device company developing a proprietary biomedical signal processing platform designed to address an unmet technology need for the \$4.6 billion electrophysiology (EP) marketplace, today announced that it will be presenting at the MicroCap Conference, which is taking place in New York City on April 9th and 10th. BioSig will be presenting on April 9th at 10:30 AM (EST) on Track 1.

Mr. Kenneth Londoner, Chairman & CEO of BioSig Technologies, Inc., will discuss the Company's PURE EP™ System and the impact it could make in a nearly \$5 billion-dollar market. Mr. Londoner will also address the Company's recent milestones, such as submission of the 510(k) application to FDA, and provide a business update regarding financing plans and commercialization. To schedule a one-on-one meeting with BioSig, please contact Natasha Russkina, VP Business Development and Corporate Finance at nrusskina@biosigtech.com.

The MicroCap Conference is an exclusive event for investors who specialize in small and microcap stocks. It is an opportunity to be introduced to and speak with management at some of the most attractive small companies, learn from various expert panels, and mingle with other microcap investors.

The MicroCap Conference will take place in New York City at the Essex House on April 9th and 10th. Registration will begin on Monday at 7:00AM and will last until the evening. The event will consist of company presentations, 1-on-1 meetings, roundtables and expert panel discussions.

About BioSig Technologies

BioSig Technologies is a medical device company developing a proprietary biomedical signal processing technology designed to improve the \$4.6 billion electrophysiology (EP) marketplace (www.biosigtech.com). Led by a proven management team and a veteran, independent Board of Directors, Los Angeles-based BioSig Technologies is preparing to commercialize its PURE EP™ System. The technology has been developed to address an unmet need in a large and growing market.

The Company's first product, PURE EP™ System, is a novel cardiac signal acquisition and display system which is engineered to assist electrophysiologists in clinical decision making during procedures to diagnose and treat patients with abnormal heart rates and rhythms. BioSig's main goal is to deliver technology to improve upon catheter ablation treatments for

the prevalent and deadly arrhythmias, Atrial Fibrillation and Ventricular Tachycardia. BioSig has partnered with Minnetronix on technology development and is working toward FDA 510(k) clearance for the PURE EP™ System.

Forward-looking Statements

This press release contains “forward-looking statements.” Such statements may be preceded by the words “intends,” “may,” “will,” “plans,” “expects,” “anticipates,” “projects,” “predicts,” “estimates,” “aims,” “believes,” “hopes,” “potential” or similar words. Forward-looking statements are not guarantees of future performance, are based on certain assumptions and are subject to various known and unknown risks and uncertainties, many of which are beyond the Company’s control, and cannot be predicted or quantified and consequently, actual results may differ materially from those expressed or implied by such forward-looking statements. Such risks and uncertainties include, without limitation, risks and uncertainties associated with (i) our inability to manufacture our product candidates on a commercial scale on our own, or in collaboration with third parties; (ii) difficulties in obtaining financing on commercially reasonable terms; (iii) changes in the size and nature of our competition; (iv) loss of one or more key executives or scientists; and (v) difficulties in securing regulatory approval to market our product candidates. More detailed information about the Company and the risk factors that may affect the realization of forward-looking statements is set forth in the Company’s filings with the Securities and Exchange Commission (SEC), including the Company’s Annual Report on Form 10-K and its Quarterly Reports on Form 10-Q. Investors and security holders are urged to read these documents free of charge on the SEC’s website at <http://www.sec.gov>. The Company assumes no obligation to publicly update or revise its forward-looking statements as a result of new information, future events or otherwise.
