Ball Reports Third Quarter Results

Highlights

- Third quarter 2014 comparable earnings per diluted share of \$1.10 vs. \$1.00 in 2013
- Strong operating performance in global beverage and aerospace, and a lower tax rate offset weaker can demand in Brazil and North American food
- Full-year free cash flow will exceed \$600 million
- Net full-year share buyback expected to be in the range of \$500 million

BROOMFIELD, Colo., Oct. 30, 2014 /PRNewswire/ -- Ball Corporation (NYSE: BLL) today reported third quarter net earnings attributable to the corporation of \$147.4 million, or \$1.04 per diluted share, on sales of \$2.2 billion, compared to \$115.2 million, or 78 cents per diluted share, on sales of \$2.3 billion in the third quarter of 2013. Third quarter 2014 net earnings include after tax charges of \$9.4 million, or 7 cents per diluted share, for business consolidation and other activities.

Results for the first nine months of 2014 were net earnings attributable to the corporation of \$394.0 million, or \$2.76 per diluted share, on sales of \$6.5 billion, compared to \$282.3 million, or \$1.88 per diluted share, on sales of \$6.5 billion in the first nine months of 2013. Year-to-date 2014 net earnings include after tax charges of \$40.8 million for business consolidation and debt refinancing costs.

Comparable 2014 earnings per diluted share for the third quarter and year-to-date were \$1.10 and \$3.04, respectively versus third quarter and year-to-date 2013 comparable earnings per diluted share of \$1.00 and \$2.42, respectively. Details of comparable segment earnings and business consolidation activities can be found in Notes 1 and 2 to the unaudited consolidated financial statements that accompany this news release.

"As anticipated, volume comparisons in the third quarter were challenging, led by weaker than expected customer demand for our beverage cans in Brazil following the World Cup and for steel food containers in North America," said John A. Hayes, chairman, president and chief executive officer. "Though we continue to navigate through aluminum premium headwinds in Europe, our focus on global cost containment, exceptional manufacturing

performance and a lower effective tax rate led to improved third quarter results."

Metal Beverage Packaging, Americas & Asia

Metal beverage packaging, Americas and Asia, comparable segment operating earnings were \$133.4 million in the third quarter on sales of \$1.1 billion, compared to \$134.8 million on sales of \$1.1 billion in the third quarter of 2013. For the first nine months, comparable segment operating earnings were \$400.3 million on sales of \$3.2 billion, compared to \$364.5 million on sales of \$3.2 billion during the same period in 2013.

Comparable segment results were roughly flat versus third quarter 2013, as solid beer and specialty container demand in North America were unable to fully offset mid-teen volume declines in Brazil post-World Cup and ongoing softness for 12-ounce carbonated soft drink containers in the U.S. Volumes in China were up mid-single digits. Relentless focus on cost containment across the segment, progress on additional specialty container investments in the U.S., and improving volume conditions as Brazil enters its summer selling season position the segment for better performance going forward.

Metal Beverage Packaging, Europe

Metal beverage packaging, Europe, results in the quarter were comparable segment operating earnings of \$63.8 million on sales of \$489.2 million, compared to \$60.5 million on sales of \$488.9 million in 2013. Results for the first nine months were comparable segment operating earnings of \$193.0 million on sales of \$1.5 billion, compared to \$143.2 million on sales of \$1.4 billion in 2013.

Third quarter comparable results were up slightly with cost savings offsetting higher aluminum premiums and low single-digit volume declines for the segment. Progress continues on the Oss, Netherlands, facility, which will begin additional specialty can production during the second quarter of 2015.

Metal Food & Household Products Packaging

Metal food and household products packaging results in the third quarter were comparable segment operating earnings of \$43.0 million on sales of \$450.6 million, compared to \$58.4 million in 2013 on sales of \$463.6 million. Year-to-date results were comparable segment operating earnings of \$119.1 million on sales of \$1.2 billion, compared to \$140.6 million on sales of \$1.2 billion in 2013.

Segment results were down in the quarter influenced by mid-to-upper single-digit volume declines for steel food containers and ongoing service center manufacturing inefficiencies in the U.S. Strong European extruded aluminum performance continues and Ball is initiating investment in India to meet increasing demand for extruded aluminum packaging in that region.

Aerospace and Technologies

Aerospace and technologies results were comparable segment operating earnings of \$21.2 million on sales of \$221.7 million in the third quarter, compared to \$18.0 million on sales of \$217.5 million in 2013. For the first nine months, comparable segment operating earnings were \$70.1 million on sales of \$683.5 million compared to \$55.0 million on sales of \$675.0 million during the same period last year. Backlog at the end of the quarter was \$846.1 million.

During the quarter, WorldView-3, the first multi-payload, super-spectral, high-resolution commercial satellite for earth observations and advanced geospatial data, successfully launched from Vandenberg Air Force Base. The segment continues to position itself to pursue non-traditional growth projects while leveraging its existing capabilities in the government sector.

Outlook

"Year-to-date we have returned more than \$350 million to shareholders in the form of share repurchases and dividends, and we remain confident that free cash flow will exceed \$600 million for 2014 after capital spending of approximately \$375 million," said Scott C. Morrison, senior vice president and chief financial officer.

"Our third quarter results largely reflected the volume slowdown and current global economic conditions. As we close out the year, we remain confident in our ability to increase EVA dollar generation and achieve our long-term diluted earnings per share growth goal of 10 to 15 percent," Hayes said.

2. Significant Business Consolidation Activities and Other Noncomparable Items

2014

Metal Beverage Packaging, Americas and Asia

The first nine months included charges of \$2.0 million (\$1.3 million after tax) related to a fire at a metal beverage packaging, Americas facility. The third quarter and first nine months also included net income of \$0.8 million (\$0.3 million after tax) and net charges of \$1.0 million (\$0.7 million after tax), respectively, for ongoing costs related to previously closed facilities and other insignificant costs.

During the first quarter, the company received and recorded compensation of \$5.0 million (\$3.7 million after tax) for the reimbursement of severance costs incurred in connection with the company's closure and relocation of the Shenzhen, China, manufacturing facility in 2013. Also during the first quarter, the company sold its plastic motor oil container and pail manufacturing business in China. The third quarter and first nine months included a loss of \$1.1 million (\$1.2 million after tax) and \$0.3 million (\$0.9 million after tax), respectively, in connection with the sale.

Metal Food and Household Products Packaging

In the third quarter, the company recorded charges of \$3.6 million (\$2.2 million after tax) related to a reduction in force to eliminate certain food can production in the Oakdale, California, facility, as well as the completion of a voluntary separation program. The third quarter and first nine months also included charges of \$0.8 million (\$0.5 million after tax) and \$4.1 million (\$2.6 million after tax), respectively, for ongoing costs related to previously closed facilities and other insignificant costs.

During the fourth quarter of 2013, the company announced the closure of its Danville, Illinois, steel aerosol packaging facility in the second half of 2014. The first nine months of 2014 included charges of \$3.8 million (\$2.4 million after tax) in connection with the announced closure.

Metal Beverage Packaging, Europe, and Corporate

The third quarter and first nine months included charges of \$0.9 million (\$0.8 million after tax) and \$3.2 million (\$2.9 million after tax), respectively, for headcount reductions, cost-out initiatives and the relocation of the company's European headquarters from Germany to Switzerland, as well as additional tax expense of \$1.9 million and \$6.1 million, respectively, related to this relocation. The third quarter and first nine months also included charges of \$3.7 million (\$3.1 million after tax) and \$4.7 million (\$4.8 million after tax), respectively, related to the write off of previously capitalized costs associated with the company's Lublin, Poland, facility, and for other insignificant activities.

In January, Ball completed the redemption of its outstanding 7.375 percent senior notes due in September 2019. The redemption of the bonds resulted in a first quarter charge of \$33.1 million (\$20.6 million after tax) for the call premium and the write off of unamortized financing costs and premiums.

2013

In the third quarter, the company recorded an accounts receivable provision of \$27.0 million (\$18.0 million after tax, or \$0.12 per diluted share) as a result of the financial difficulties of a significant customer. This provision represented the company's estimate of the most likely potential loss of value it expected to incur as a result of the financial condition of this customer.

During July 2013, the company signed a compensation agreement with the Chinese government to vacate the Shenzhen manufacturing facility and relocate the production equipment. The third quarter and first nine months included charges of \$6.8 million (\$5.1 million after tax) and \$8.1 million (\$6.1 million after tax), respectively, for closure and relocation costs, which were primarily reimbursed in the fourth quarter 2013 and first quarter 2014.

In February 2013, Ball announced the closure of its Elgin, Illinois, food and household products packaging facility. The third quarter and first nine months included charges of \$1.9 million (\$1.2 million after tax) and \$28.0 million (\$17.0 million after tax), respectively, in connection with the closure.

The third quarter and first nine months included charges of \$1.6 million (\$1.0 million after tax) and \$8.7 million (\$5.3 million after tax) to balance regional supply and demand in Ball's metal beverage packaging, Americas, operations. Additionally, the third quarter and first nine months also included charges of \$5.3 million (\$3.2 million after tax) and \$8.4 million (\$5.1 million after tax), respectively, related to previously announced closures of Ball's Columbus, Ohio, and Gainesville, Florida, metal beverage packaging, Americas, facilities and related voluntary separation programs.

Notes to the Condensed Financial Statements (Third Quarter 2014)

2. Significant Business Consolidation Activities and Other Noncomparable Items (continued)

Other items in the third quarter and first nine months included charges of \$1.7 million (\$1.4 million after tax) and \$5.5 million (\$4.3 million after tax), for the third quarter 2012 relocation of the company's European headquarters from Germany to Switzerland, as well as additional tax expense of \$2.0 million and \$5.9 million, respectively, related to this relocation. The second quarter and first nine months also included a charge of \$5.9 million (\$3.6 million after tax) to migrate certain employees from a multi-employer defined benefit pension plan to a Ball-sponsored defined benefit pension plan. Additionally, the first six months included income of \$3.5 million (\$2.1 million after tax) related to the reimbursement of funds paid in 2012 for the settlement of certain Canadian defined benefit pension liabilities of previously closed facilities.

During the second quarter, Ball issued \$1 billion of 4.00 percent senior notes due in November 2023 and tendered for the redemption of \$375 million of 7.125 percent senior notes originally due in September 2016. The redemption of the bonds, as well as the renegotiation of Ball's bank credit facilities in June, resulted in a charge of \$26.9 million (\$16.3 million after tax) for the call premium and the write off of unamortized financing costs and discounts.
