

## Ball Receives Multiple 2017 Canmaker 'Can of the Year' Awards for its L'Oréal Men Expert and Tactile Cans

BROOMFIELD, Colo., Dec. 14, 2017 /PRNewswire/ --Ball Corporation (NYSE: BLL) recently won silver and bronze at this year's Canmaker "Can of the Year" Awards for its L'Oréal Men Expert Antiperspirant can in the "Aerosol Cans" category and its Tactile can in the "Prototype" category.

Ball utilized its innovative ReAl<sup>®</sup> technology to make the new silver award-winning L'Oréal Men Expert Antiperspirant can. ReAl<sup>®</sup> paves the way for greater lightweighting potential, as well as stronger cans. Ball's ReAl<sup>®</sup> technology provides increased strength and allows Ball to lightweight the L'Oréal Men Expert Can by approximately 12 percent. Additionally, the 80-station necker Ball uses to manufacture this can enables the production of more intricate shapes.

"ReAl<sup>®</sup> is an excellent fit for L'Oréal Men Expert, as the sustainability benefits of meaningful lightweighting coupled with the innovative shaping and bold graphics differentiate the brand on the shelf and deliver value to eco-conscious consumers," said Jim Peterson, chief operating officer of Food and Aerosol Packaging.

For the bronze award-winning Tactile can, Ball's innovative design and distinctive tactile print finish was brought to life by a snake featured prominently on the aluminum aerosol can.

Tactile ink provides texture on the can for consumer interaction with the package. Ball is able to apply the ink around 360 degrees of the can. Enough of the tactile ink is "laid" on the can that it provides grip for the consumer. Tactile ink is a subtle art and Ball leverages significant technical experience with printing this ink on aerosol cans which it gleaned from learnings in its beverage business.

## **About Ball Corporation**

Ball Corporation supplies innovative, sustainable packaging solutions for beverage, food and household products customers, as well as aerospace and other technologies and services primarily for the U.S. government. Ball Corporation and its subsidiaries employ 18,450 people worldwide and reported 2016 sales of \$9.1 billion. For more information, visit www.ball.com, or connect with us on Facebook or Twitter.

## **Forward-Looking Statements**

This release contains "forward-looking" statements concerning future events and financial performance. Words such as "expects," "anticipates," "estimates," "believes," "targets," "likely" and similar expressions typically identify forward-looking statements, which are generally any statements other than statements of historical fact. Such statements are based on current expectations or views of the future and are subject to risks and uncertainties, which could cause actual results or events to differ materially from those expressed or implied. You should therefore not place undue reliance upon any forwardlooking statements and any of such statements should be read in conjunction with, and, qualified in their entirety by, the cautionary statements referenced below. The company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Key factors, risks and uncertainties that could cause actual outcomes and results to be different are summarized in filings with the Securities and Exchange Commission, including Exhibit 99 in our Form 10-K, which are available on our website and at www.sec.gov. Additional factors that might affect: a) our packaging segments include product demand fluctuations; availability/cost of raw materials; competitive packaging, pricing and substitution; changes in climate and weather; competitive activity; failure to achieve synergies, productivity improvements or cost reductions; mandatory deposit or other restrictive packaging laws; customer and supplier consolidation, power and supply chain influence; changes in major customer or supplier contracts or a loss of a major customer or supplier; political instability and sanctions; currency controls; and changes in foreign exchange or tax rates; b) our aerospace segment include funding, authorization, availability and returns of government and commercial contracts; and delays, extensions and technical uncertainties affecting segment contracts; c) the company as a whole include those listed plus: changes in senior management; regulatory action or issues including tax, environmental, health and workplace safety, including U.S. FDA and other actions or public concerns affecting products filled in our containers, or chemicals or substances used in raw materials or in the manufacturing process; technological developments and innovations; litigation; strikes; labor cost changes; rates of return on assets of the company's defined benefit retirement plans; pension changes; uncertainties surrounding geopolitical events and governmental policies both in the U.S. and in other countries, including the U.S. government elections, budget, sequestration and debt limit; reduced cash flow; ability to achieve cost-out initiatives and synergies; interest rates affecting our debt; and successful or unsuccessful acquisitions and divestitures, including with respect to the Rexam PLC acquisition and its integration, or the associated

divestiture; the effect of the acquisition or the divestiture on our business relationships, operating results and business generally.
