2017 Fourth Quarter Financial Review

- For the three months ended December 31, 2017, total revenue increased to \$9.9 million, compared to \$3.1 million for the fourth quarter of the prior year. The year-over-year increase was primarily the result of increased rental revenue due to the Company's larger property portfolio.
- Total expenses for the three months ended December 31, 2017 were \$8.6 million, compared to \$5.1 million in the same quarter of the prior year. Within total expenses, general and administrative expenses were \$1.1 million in the fourth quarter of 2017, down from \$1.3 million in the prior year quarter. This decrease in general and administrative expenses was primarily the result of a reduction in non-cash LTIP expense.
- Net loss attributable to common stockholders for the three months ended December 31, 2017 was \$(0.2) million, or \$(0.01) per share, compared to \$(1.9) million, or \$(0.11)

per share for the fourth quarter of the prior year. This decrease was primarily due to significantly higher rental revenue, compared to the prior year quarter.

- Quarterly FFO per share grew to \$0.14, compared to \$(0.06) for the fourth quarter in the prior year.
- Quarterly AFFO per share grew to \$0.15, compared to \$0.06 for the fourth quarter in the prior year.
- Quarterly Normalized Adjusted Funds from Operations (“Normalized AFFO”) per share grew to \$0.15, compared to \$0.06 for the fourth quarter in the prior year.

2017 Full Year Financial Review

- For the year ended December 31, 2017, total revenue increased to \$30.3 million, compared to \$8.2 million for the prior year. This increase was primarily due to the increased size of the Company’s property portfolio.
- Total expenses for the year ended December 31, 2017 were \$30.4 million, compared to \$14.6 million in the prior year. The year-over-year growth in total expenses was largely driven by the significantly increased size of the Company’s property portfolio. Within total expenses, general and administrative expenses were \$5.5 million for the year ended December 31, 2017, compared to \$4.2 million in 2016. This increase was primarily due to increased costs associated with our Sarbanes-Oxley implementation efforts and a full year’s worth of public company costs.
- Net loss attributable to common stockholders for the year ended December 31, 2017 was \$(1.8) million, or \$(0.09) per share, compared to \$(6.4) million, or \$(0.68) per share for the prior year. This decrease was primarily due to increased rental revenue driven by the growth in the Company’s property portfolio.
- The Company’s FFO per share for the year ended December 31, 2017 grew to \$0.41, compared to \$(0.43) for the prior year.
- The Company’s AFFO per share for the year ended December 31, 2017 grew to \$0.54, compared to \$(0.03) for the prior year.
- The Company’s Normalized AFFO per share for the year ended December 31, 2017 grew to \$0.56 compared to \$(0.02) for the prior year.

Non-GAAP Financial Measures

Funds from operations (“FFO”), Adjusted funds from operations (“AFFO”), and Normalized AFFO are non-GAAP financial measures within the meaning of the rules of the SEC. The

Company considers FFO, AFFO, and Normalized AFFO to be important supplemental measures of its operating performance and believes FFO is frequently used by securities analysts, investors, and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. In accordance with the National Association of Real Estate Investment Trusts' ("NAREIT") definition, FFO means net income or loss computed in accordance with GAAP before non-controlling interests of holders of operating partnership units, excluding gains (or losses) from sales of property and extraordinary items, plus real estate related depreciation and amortization (excluding amortization of deferred financing costs), and after adjustments for unconsolidated partnerships and joint ventures. The Company did not incur any gains or losses from the sales of property or record any adjustments for unconsolidated partnerships and joint ventures during the years ended December 31, 2017 and 2016. Because FFO excludes real estate related depreciation and amortization (other than amortization of deferred financing costs), the Company believes that FFO provides a performance measure that, when compared period-over-period, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from the closest GAAP measurement, net income or loss.

AFFO is a non-GAAP measure used by many investors and analysts to measure a real estate company's operating performance by removing the effect of items that do not reflect ongoing property operations. Management calculates AFFO by modifying the NAREIT computation of FFO by adjusting it for certain cash and non-cash items and certain recurring and non-recurring items. For the Company these items include recurring acquisition and disposition costs, loss on the extinguishment of debt, recurring straight line deferred rental revenue, recurring stock-based compensation expense, recurring amortization of deferred financing costs, recurring capital expenditures, recurring lease commissions, recurring tenant improvements, an advisory fee settled with the issuance of OP Units, and other items.

Management calculates Normalized AFFO, which is also a non-GAAP financial measure, by modifying AFFO by adjusting for non-recurring income and expenses. For the Company this item includes the costs of establishing a system of Sarbanes-Oxley compliant internal controls and procedures. During the second and third quarters of 2017, Normalized AFFO included the portion of our General Counsel and Secretary's salary for 2017 that is reimbursable by the Company to Inter-American Management, LLC, the Company's external manager (the "Advisor"). During the fourth quarter of 2017, the Company learned that the Advisor may request that such reimbursement arrangement be extended; therefore, until the terms of such potential extension are finalized, the Company is removing such expense from Normalized AFFO.

Management believes that reporting AFFO in addition to FFO is a useful supplemental measure for the investment community to use when evaluating the operating performance of the Company on a comparative basis. Management also considers Normalized AFFO to be a useful measure to evaluate the Company's operating results excluding non-recurring income and expenses. Normalized AFFO can help investors compare the operating performance of the Company between periods or as compared to other companies. The Company's FFO, AFFO, and Normalized AFFO computations may not be comparable to FFO, AFFO, and Normalized AFFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, that interpret the NAREIT definition differently than the Company does or that compute FFO, AFFO, and Normalized AFFO in a different

manner.
