Huntsman Receives Six Responsible Care® Certificates for 2019 Health and Safety Performance

THE WOODLANDS, Texas, May 11, 2020 /PRNewswire/ -- Huntsman Corporation (NYSE: HUN) was honored recently by the American Chemistry Council (ACC) with six Responsible Care® Facility Safety Awards in recognition of the company's significant achievements in employee health and safety performance during 2019.

Certificates of Honor recognize facilities that experienced zero fatalities, zero cases resulting in days away from work, and zero job transfer or restriction cases among employees, according to current Occupational Safety and Health Administration (OSHA) guidelines. Huntsman's manufacturing sites in McIntosh, Alabama, and Freeport, Texas, earned Certificates of Honor.

Certificates of Excellence recognize the same among both employees and contractors. Huntsman's R&D locations in The Woodlands, Texas (Huntsman Advanced Technology Center) and Auburn Hills, Michigan, as well as production sites in East Lansing, Michigan, and Charlotte, North Carolina, received Certificates of Excellence.

Ron Gerrard, Huntsman's Senior Vice President of Environmental, Health and Safety and Manufacturing Excellence, said: "Huntsman is, of course, pleased to receive such high honors from the ACC and beyond proud of our associates and contractors who dedicate themselves to working safely every day. It is their commitment to safety that contributed to this recognition and the excellent progress we have made over many years reducing our injury rate, in line with other ACC Responsible Care® companies, to nearly four times lower than the latest U.S. chemical industry average."

About Huntsman:

Huntsman Corporation is a publicly traded global manufacturer and marketer of differentiated and specialty chemicals with 2019 revenues of approximately \$7 billion. Our chemical products number in the thousands and are sold worldwide to manufacturers serving a broad and diverse range of consumer and industrial end markets. We operate more than 70 manufacturing, R&D and operations facilities in approximately 30 countries and employ approximately 9,000 associates within our four distinct business divisions.
