

# OMEGA HEALTHCARE INVESTORS

## INVESTOR PRESENTATION

June 2022

# Disclaimers; Forward-looking Statements and Non-GAAP Information

- This presentation may include projections and other “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements relate to future events and expectations and involve unknown risks and uncertainties. Omega’s actual results or actions may differ materially from those projected in the forward-looking statements. For a summary of the specific risk factors that could cause results to differ materially from those expressed in the forward-looking statements, see Omega’s filings with the Securities and Exchange Commission.
- This presentation may contain certain non-GAAP financial information including EBITDA, Adjusted EBITDA, Total Adjusted Debt (a/k/a, Funded Debt), Adjusted FFO, FAD, Total Cash Fixed Charges and certain related ratios. A reconciliation of these non-GAAP disclosures is available in the Exhibit to this presentation or on our website under “Non-GAAP Financial Measures” at [www.omegahealthcare.com](http://www.omegahealthcare.com). Other financial information is also available on our website.
- Information presented on operator revenue mix, census and coverage data is based on information provided by our operators for the indicated periods ended. We have not independently verified this information, and we are providing this data for informational purposes only. Information on operator coverage calculations can be found under “Portfolio Metrics” in our most recent quarterly supplement available at our Investor Relations website at [www.omegahealthcare.com](http://www.omegahealthcare.com).
- Information is provided as of March 31, 2022, unless specifically stated otherwise. We assume no duty to update or supplement the information provided.
- The sourcing of all information provided in this presentation can be found on page 60.

# Strategy that Supports Long-Term Shareholder Value Creation

# COVID-19 Update

## Impact

- 1** COVID-19 is particularly impactful to the old and frail, a key cohort of SNFs and ALFs
- 2** Occupancy declined ~13% between February 2020 and January 2021 before rebounding ~5% through Mid-April 2022
- 3** Expenses in December were up ~\$33 per patient day from January 2020

## Response

- 1** Operators implemented new and evolving protocols to limit the spread of COVID-19
- 2** Staff at SNFs and ALFs have risked their health and the health of their families to protect residents
- 3** The Federal and many State governments provided significant and necessary financial relief to the industry
- 4** However, State relief has varied significantly, and Federal relief has slowed in the last 18 months

## Outcomes

- 1** The contagion rate within SNFs declined significantly in 1Q22, after the spike in 4Q21 due to the omicron variant
- 2** Operators representing ~15% of our 1Q22 contractual rent and mortgage payments, had stopped paying rent as of March 2022
- 3** However, operators representing approximately 91% of our 2Q22 contractual rent and mortgage payments paid rent in April 2022

*\*See next page for more information*

# COVID-19 Operator Update

As previously disclosed, as of the end of 1Q22, operators representing approximately 15% of our 1Q22 annualized contractual rent and mortgage obligations did not pay all of their contractual obligations in 1Q22.

In April 2022, Omega collected rent from operators representing approximately 91% of our 2Q22 annualized contractual rent and mortgage obligations.

We continue to work diligently to resolve our outstanding operator issues. However, until we reach agreements with these operators, the ultimate resolution of these operator issues is unknown.

Furthermore, with many operators continuing to struggle with the impact of COVID-19 on both occupancy and staffing, there remains an elevated risk that additional operators may be unable to pay in accordance with their contractual terms.

For additional information, please refer to our 1<sup>st</sup> Quarter 2022 Form 10-Q at [www.omegahealthcare.com](http://www.omegahealthcare.com)

# What Will Happen Next Regarding COVID-19?

## While Questions Remain ...

When will the pandemic end?

Will government financial support continue to be both sufficient and timely through the conclusion of this crisis?

How quickly will occupancy recover to pre-COVID-19 levels?

Will operator costs remain elevated for the foreseeable future due to increased infection control protocols?

If these costs occur, will they be covered by increased government reimbursement?

## ... We Have Confidence in the Future

Skilled nursing facilities still fulfill an essential need within the healthcare continuum

The secular tailwind of improving demographics will remain in place after this pandemic

Our relationship with our operators will be even stronger for having faced this pandemic together

# 2

## Why Invest?

# Investment Thesis

1

**Established,  
Experienced and  
Diversified**

2

**Consistent  
Growth, High-Yield**

3

**Anchored  
Operating Model**

4

**Effective  
Balance Sheet  
Management**

5

**Well Positioned to  
Capitalize on  
Future Growth**

# Investment Thesis and Supporting Elements

1

## Established, Experienced and Diversified

- Experienced and proven management team
- A diversified portfolio provides consistency
- Long leases and limited new supply provide clarity
- Quality operators bring patient care expertise

2

## Consistent Growth, High-Yield

- Prudent fixed rent escalators provide tenant durability
- Strong dividend yield provides equity support
- Triple-net leases provide earnings dependability
- High margins provide superior yields

3

## Anchored Operating Model

- A low cost, needs-based service offering provides security
- A stable discharge and reimbursement environment provides resiliency

4

## Effective Balance Sheet Management

- A conservative balance sheet and well-laddered debt provides stability
- Significant liquidity provides flexibility
- Proven access to capital markets provides predictability

5

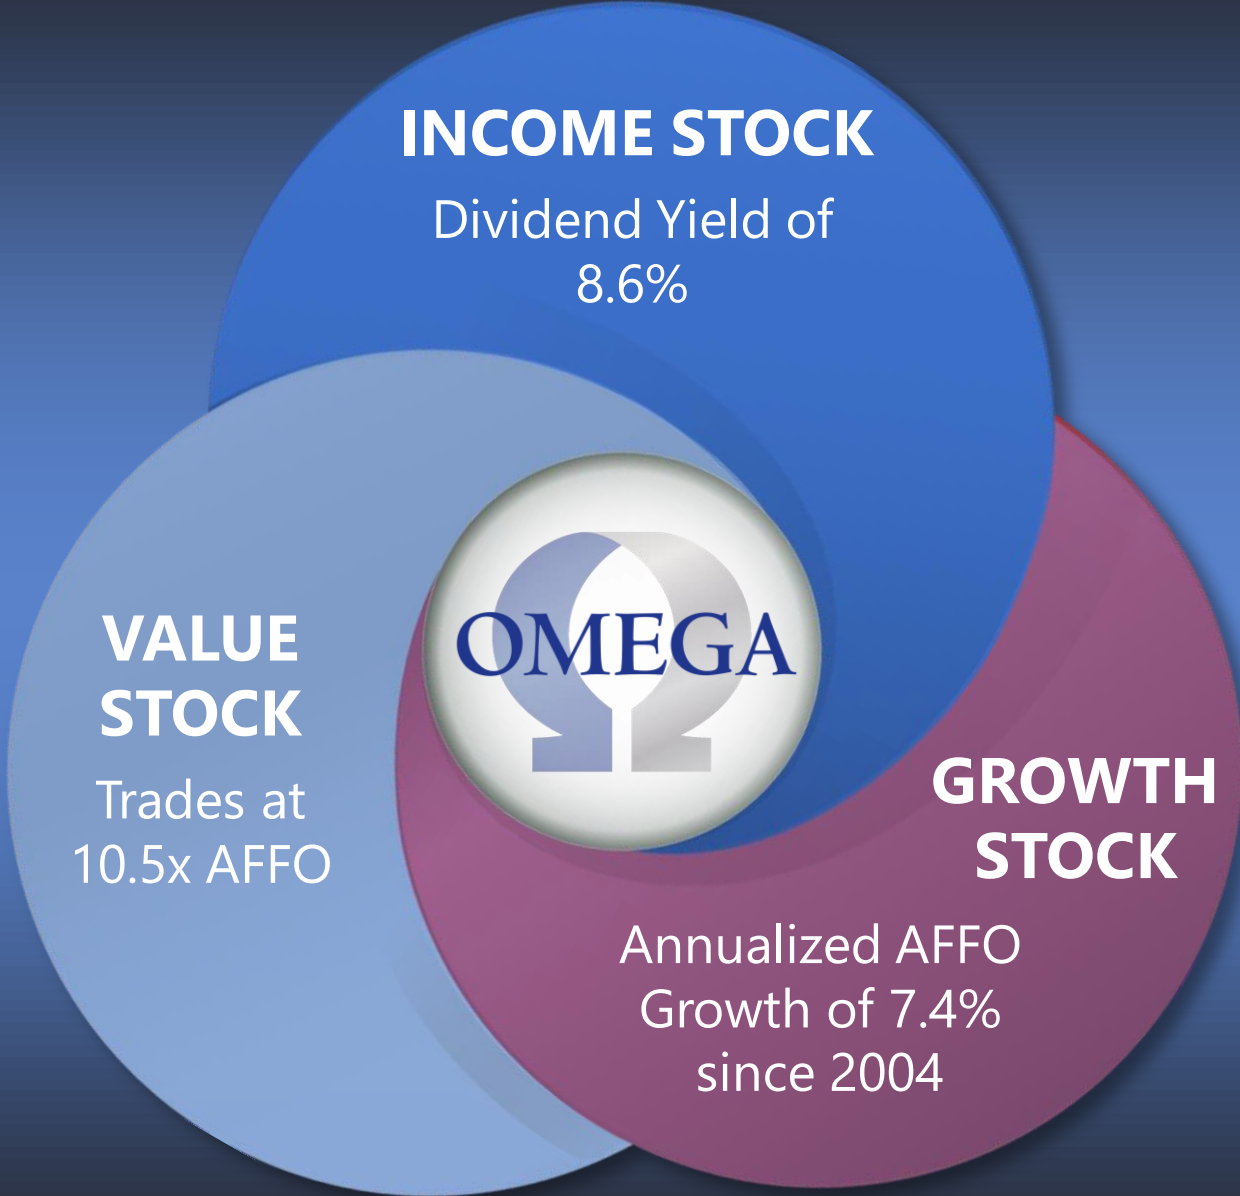

## Well Positioned to Capitalize on Future Growth

- A growing aging population provides opportunity
- Leveraging existing operator relationships provides demand
- Acquisitions and development provide growth

# Attractive Investment Opportunity

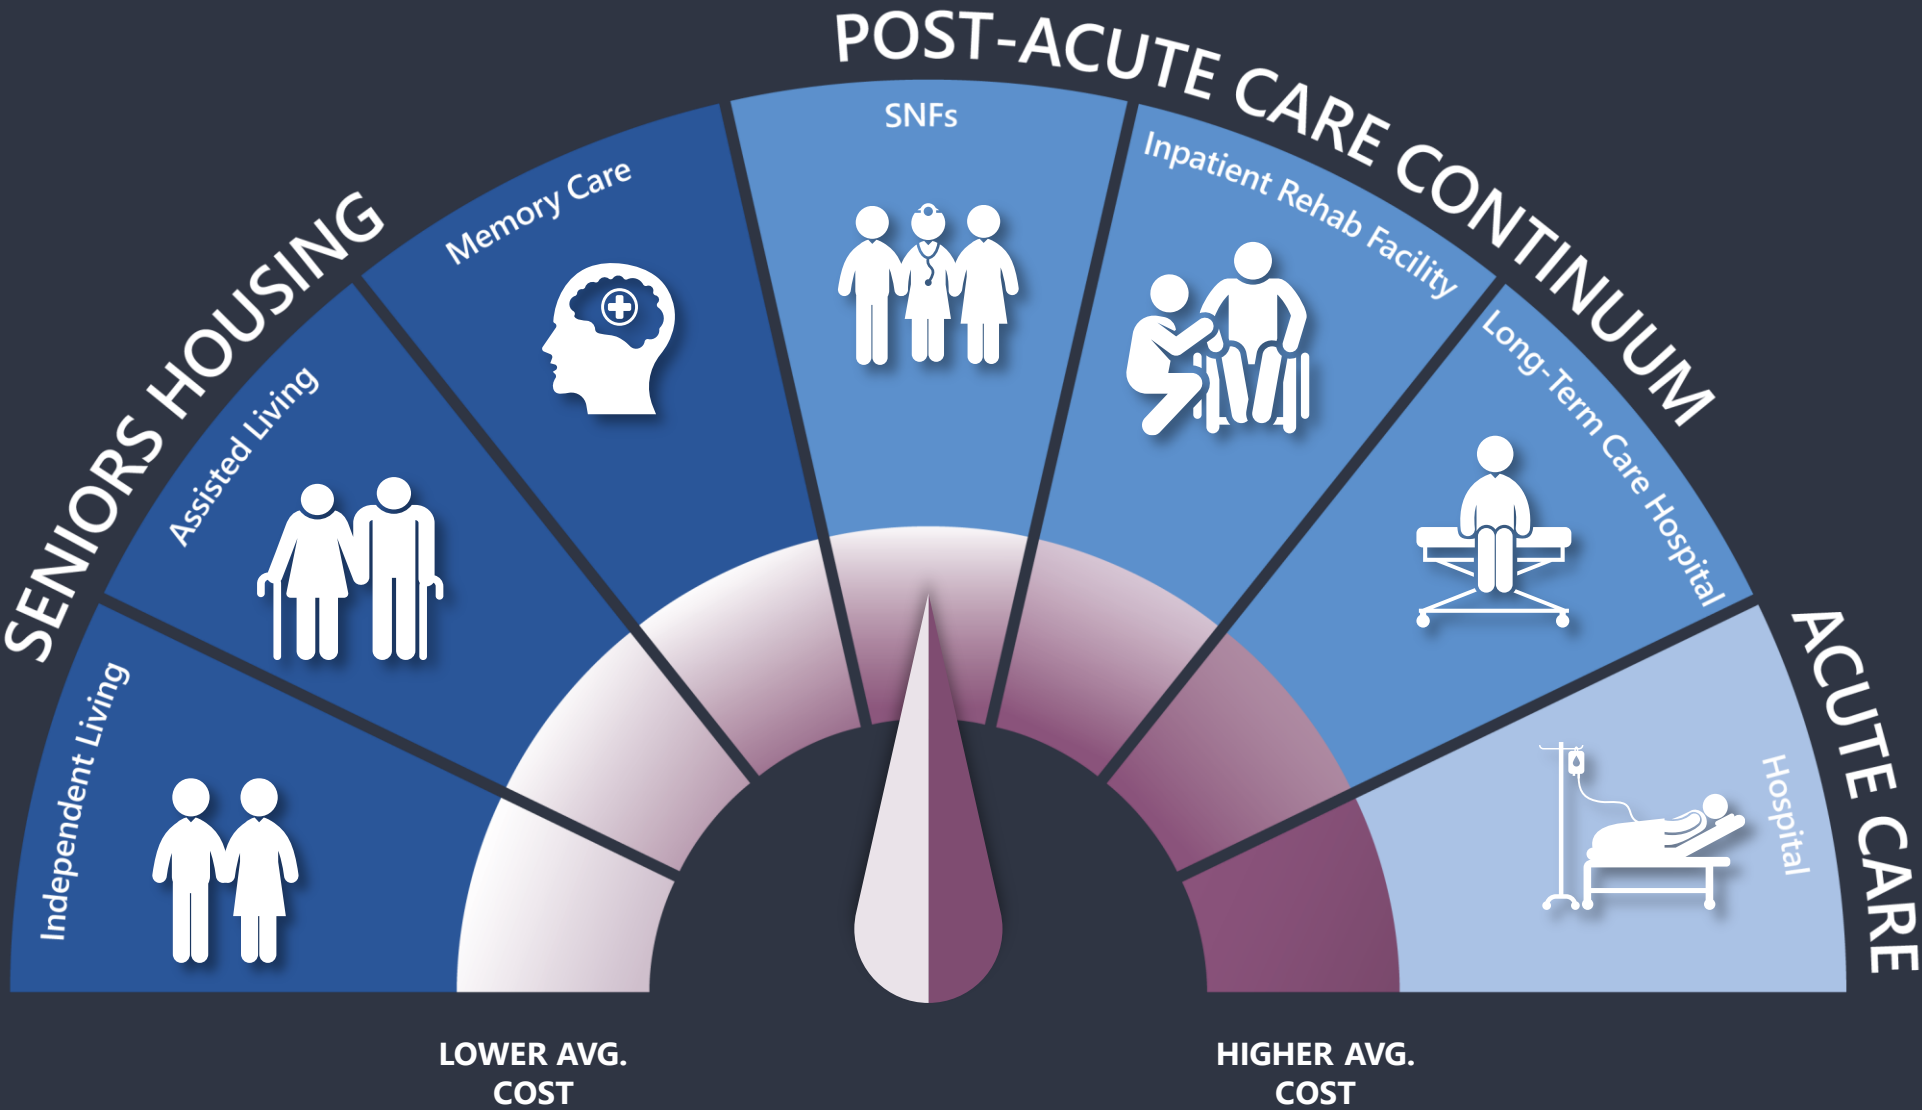

# 3

## Skilled Nursing Facilities: What Makes it an Attractive Asset Class?

# Skilled Nursing Facilities Meet an Essential Need

# More Patients Are Discharged to Skilled Nursing Facilities Than to Any Other Type of Facility

## MEDICARE FFS HOSPITAL DISCHARGE DESTINATIONS

Over the last decade, SNFs have consistently been the highest discharge destination

# Lowest Cost Provider of Post-Acute 24-Hour Nursing Care

SNFs provide care for much higher acuity patients that can be handled in Senior Housing or Home Health settings – so hospital discharges to SNFs have held steady

# Skilled Nursing Facilities are Primarily Funded Through Medicare and Medicaid

**Early 80's**  
Age of Resident

**20-25 Days**  
Length of Stay

**\$450-\$575**  
Cost Per Day

**Early 80's**  
Age of Resident

**18 Months**  
Length of Stay

**\$240**  
Cost Per Day

AVERAGES

# Omega's Average Facility Statistics

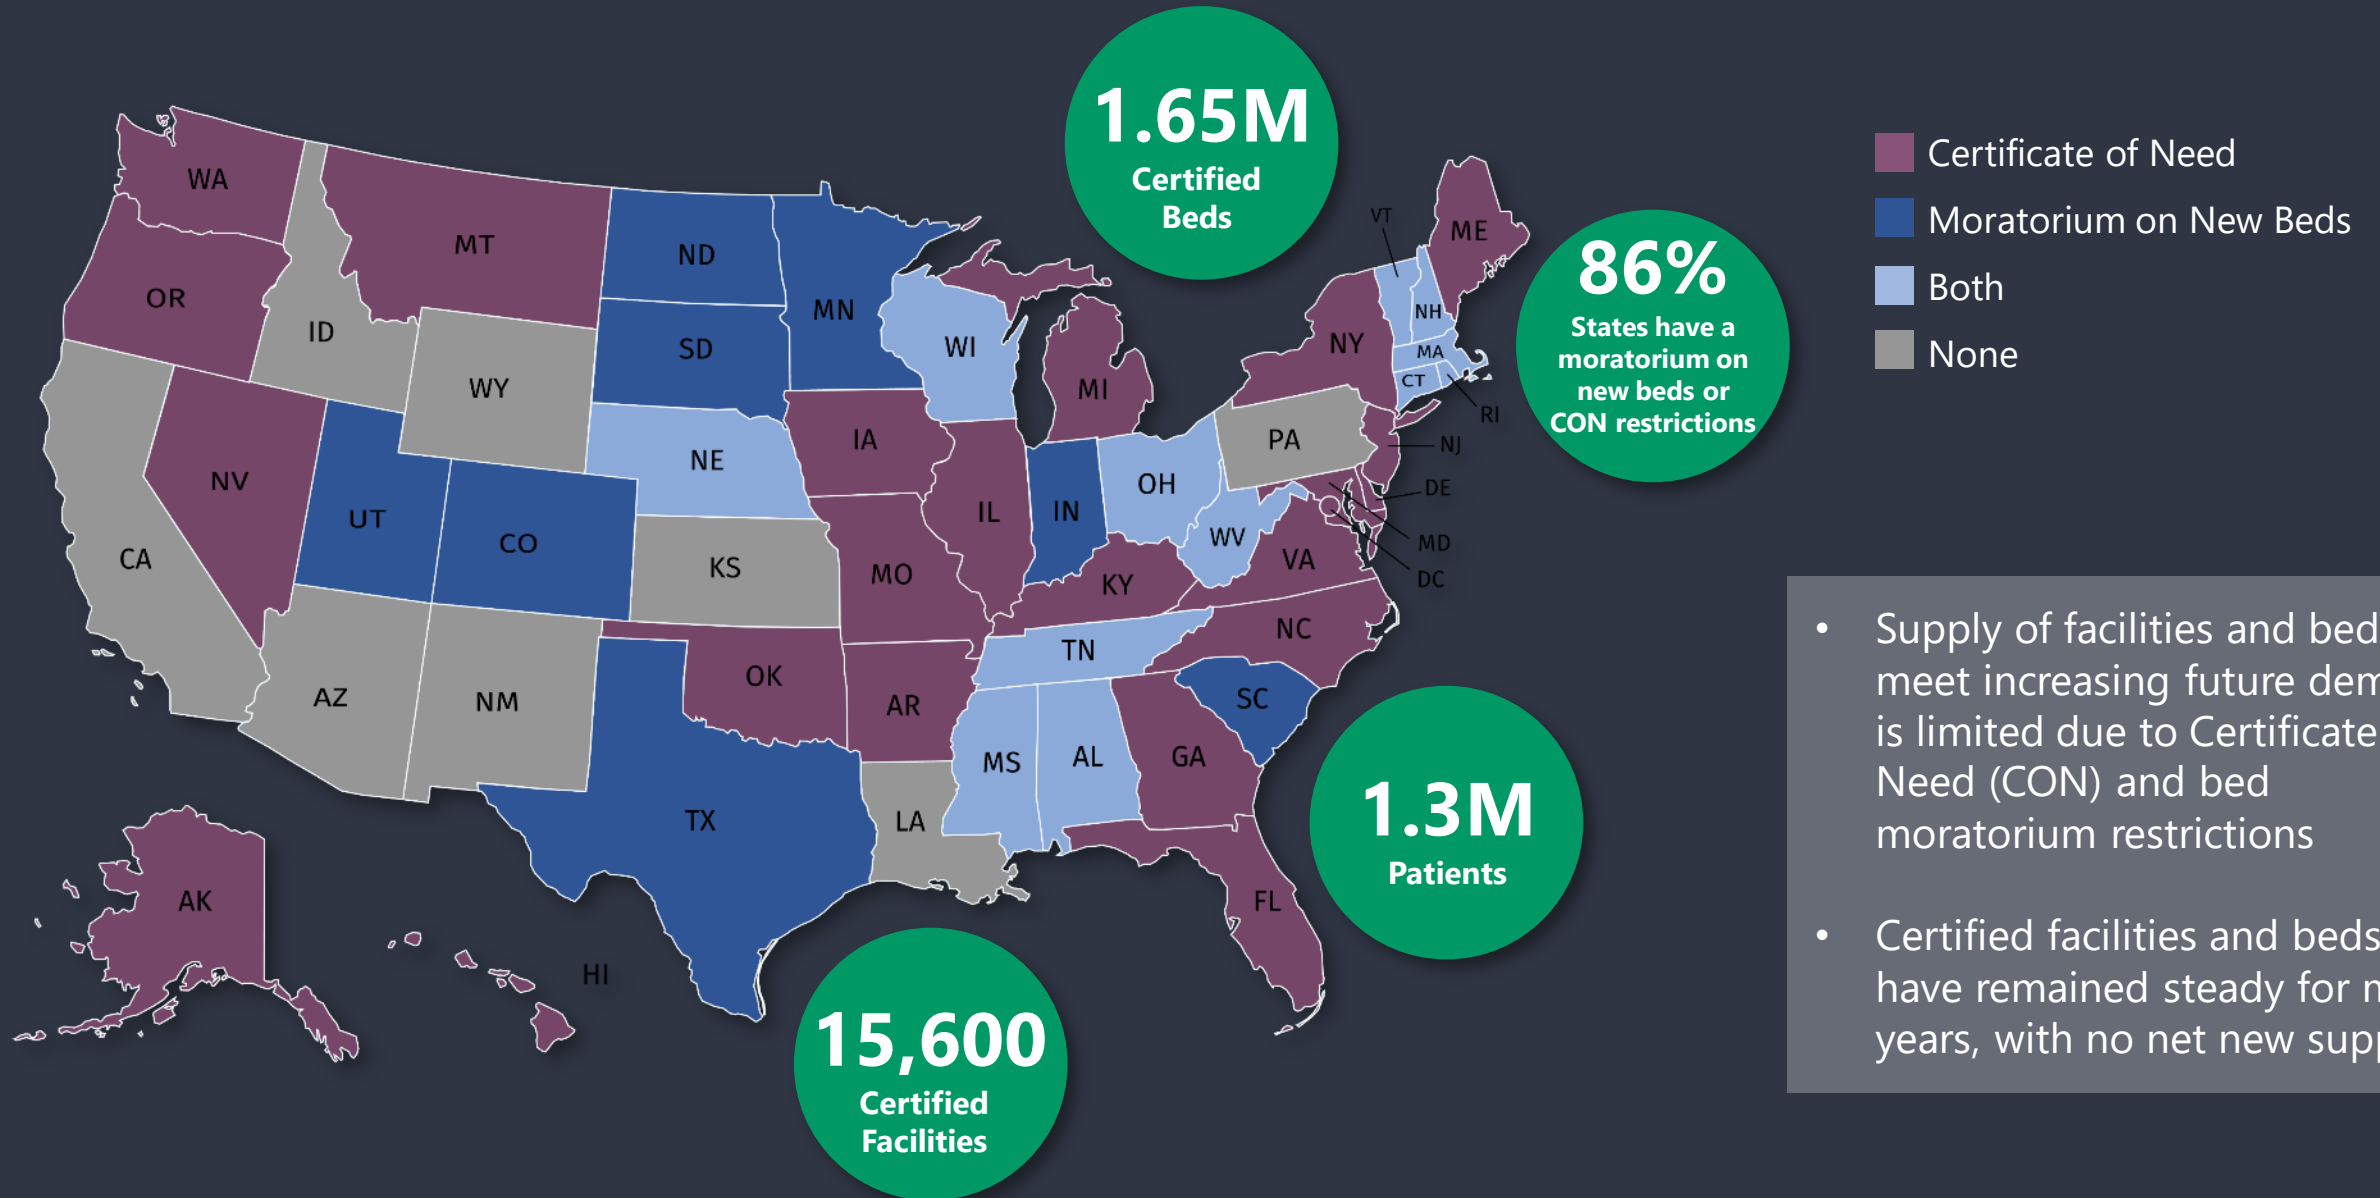

**~100**  
Avg. Beds in Facility

**74.5%**  
Occupancy

## OPERATOR PAYOR MIX

# Limited Supply Growth Due to Regulatory Restrictions

# “Stroke-of-the-Pen” Risk Overstated

1

## SNFs are a necessary part of the healthcare continuum

- Most patients are too sick to care for at home, even with home health support
- However, they do not require hospital care

4

## Efficient and lean business model

- SNFs are a low-margin business
- Reimbursement cuts could impact patient care. Not in anyone’s interests

2

## Current reimbursement model aligned with patient care and operator efficiency

- Patient Driven Payment Model (PDPM) rewards quality of care and efficiency
- “Cost-plus” reimbursement model of the 1990s did not achieve this goal and was therefore modified

5

## Reliant on skilled operators

- Partnership between governments and private companies places care of aging populations in the hands of skilled operators
- Government prefers to regulate private operators to ensure high quality of care

3

## SNFs offer value for money

- SNFs represent the lowest cost post-acute healthcare setting
- Medicaid patients receive room, board and access to 24-hour healthcare for about \$240 a day on average

6

## Federal match encourages states to maintain levels of funding

- With such a high percentage of Medicaid patients needing care, states are required to provide funding
- Federal match discourages states from cutting funding to Medicaid

# Highest Investment Yields Compared to Other Healthcare Real Estate Assets

Investment yields in SNFs have consistently been favorable to all other sectors

Average yield over the last five years:  
**9.3%**

An architectural rendering of a modern, multi-story building with a prominent courtyard. The building features a grid-like facade with large windows and balconies. The courtyard is lush with greenery, including pink cherry blossom trees and various plants. People are depicted in various settings: some are sitting at tables in the courtyard, others are standing and talking, and a few are visible on the balconies. The lighting is warm, suggesting an evening or dusk setting. The overall aesthetic is clean, modern, and inviting.

# 4

## Strong Portfolio & Skilled Operators

# Portfolio Overview

Long-term Triple Net Master Leases:  
Operators are responsible for all property expenses

## FACILITY INVESTMENT TYPES

## RENT/INTEREST

## GEOGRAPHIC & OPERATOR DIVERSIFICATION

**938**

Properties

**64**

Operators

**43**

States + the UK

## STRONG OPERATOR COVERAGE

**1.48x**  
EBITDARM

**1.14x**  
EBITDAR

## NEAR-TERM SUPPLY & DEMAND OUTLOOK

**FAVORABLE**

## EXPIRATIONS & RENEWAL RISK

Minimal near-term  
lease expirations

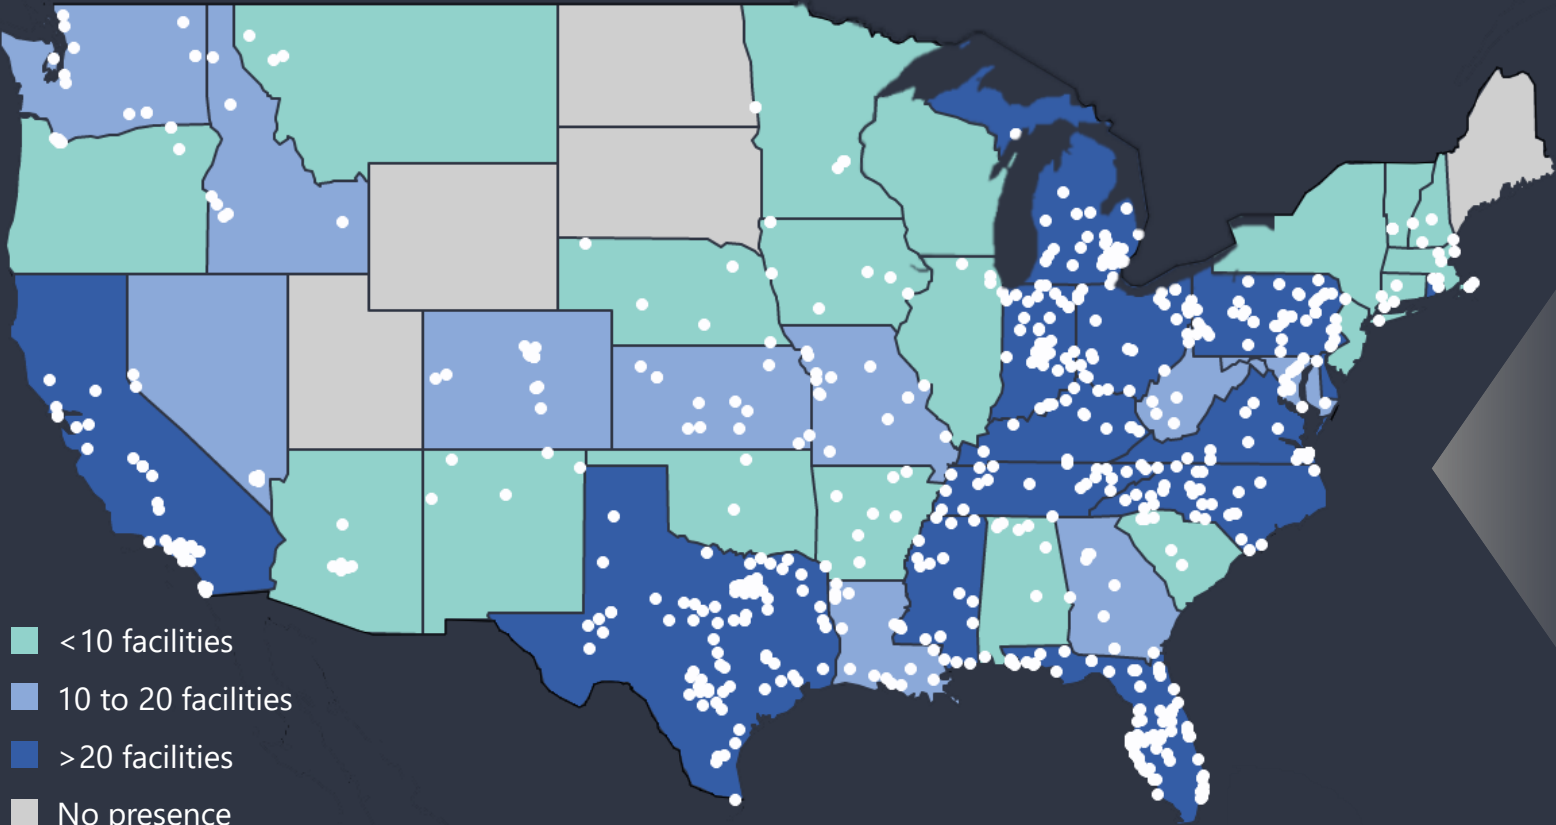

Limited material  
lease renewal risk

# Diversified Geographic Portfolio

- 64**  
Operators
- 938**  
Facilities
- 42**  
States
- 1**  
Foreign Country

Omega’s geographic diversification helps minimize impact of regulatory or reimbursement changes in any individual state

- <10 facilities
- 10 to 20 facilities
- >20 facilities
- No presence

### Investment Concentration by Location

Florida	13.3%
Texas	10.0%
Michigan	6.6%
Indiana	6.5%
California	5.7%
Ohio	5.7%
United Kingdom	5.4%
Pennsylvania	5.1%
Virginia	4.3%
New York	3.4%
Remaining States	34.0%

# United Kingdom: An Attractive and Profitable Market

## 1 Highly Compelling Supply/Demand Dynamic:

Between 2012 and 2018, care home beds declined 1.5% while the population over 75 increased by 9.6%

## 2 Attractive Investment Yields:

Initial cash yields standardly 8%+ with annual escalators of ~2.5%

## 3 Public/Private Reimbursement Model:

Private pay augmented by needs-based local authority "top-ups" provides a balanced reimbursement system

## 4 Consolidation of a Fragmented Market:

The top 10 operators only have 22% of the beds in service. Our experienced operators provide an efficient and professionalized level of service to a fragmented industry

# Triple-Net Leases Provide a Secure, Steady Source of Revenue

Long-term triple-net master leases with cross collateralization provisions

- Seek strong credit profiles
- Security deposits of generally 3 to 6 months
- Monthly reporting requirements

Expenses are generally operator's responsibility (insurance, property taxes, capital expenditures)

Omega receives fixed rent payment from tenants, with annual escalators

**97%**  
Revenues tied  
to Master  
Leases

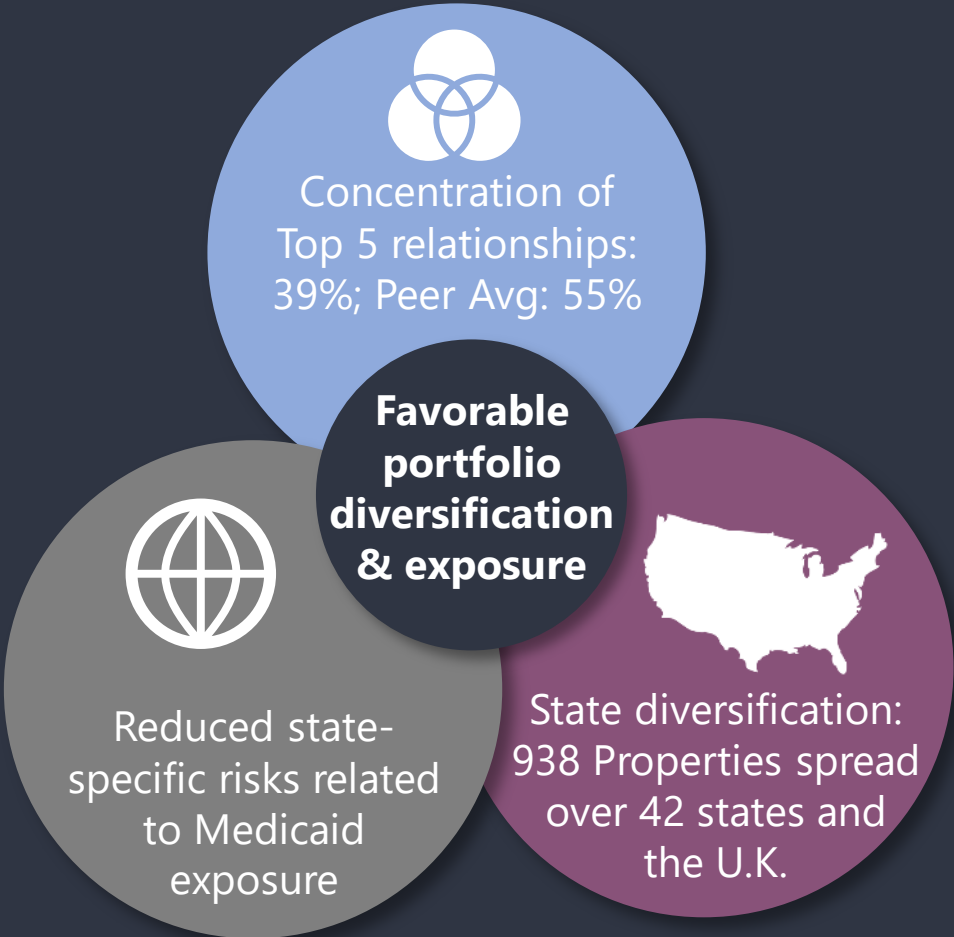

**95%**  
Revenues tied to  
Fixed-Rate  
Escalators

**2.3%**  
Weighted-Avg.  
Fixed Escalator

# Favorable Portfolio Composition to Peers

EBITDA / Total Revenue

Compared to other Healthcare REITs

# Long-Term Leases with Minimal Near-Term Expirations

% OF PORTFOLIO LEASE AND MORTGAGE EXPIRATIONS BY YEAR

**9.4**  
years  
Avg. lease term

**98%**  
of portfolio  
expirations  
after 2024

# Strong Returns Start with Strong Operators

Diversified Group of Operators

70% of all investments in the past five years have been with current operators

## OPERATOR CONCENTRATION

# Skilled Operators with Extensive Patient Expertise

## Highly Reputable

Typically repeat business with strong relationships to local doctors and hospitals.

## Highly Engaged

Over 80% of our operator businesses are privately owned and operated.

## Highly Experienced

Our average operator has been in business/our tenant for over 10 years.

## Geographic Experts

Over 85% of our operators specialize in 5 or fewer states. Deep understanding of state-specific regulatory guidelines.

## Sophisticated care providers

Our operators take care of over 150,000 Medicare and 80,000 Medicaid patients annually.

# Operators Continue to be Profitable

Since 2007, despite declining operator EBITDAR coverage across healthcare REITs, our operators continue to be profitable.

### TTM Operator EBITDARM & EBITDAR Coverage

## RECENT HEADWINDS

### The Baby Bust

Average birth rate between 1928 and 1940 was 15% lower than prior decade. This smaller cohort drove lower occupancy in the past decade.

### Migration to Medicare Advantage

In 2020, nearly 40% of all Medicare beneficiaries were enrolled in Medicare Advantage plans, up from 24% in 2010. The resulting lower reimbursement rate and length of stay compounded occupancy headwinds.

### Wage Pressures

Increasingly tight employment environment resulted in wage growth outpacing reimbursement growth since 2010.

**Headwinds are moderating and demographic tailwinds should drive occupancy and operator performance going forward.**

# 5

## Benefits of Investing in Long-term Care

# A Growing Aging Population Provides Opportunity

## 65+ Age Population

- 1** Aging Baby Boomers expected to drive a multi-decade increase in demand for SNFs
- 2** 44% projected increase in Adults 65+ in the next 20 years
- 3** Increasing occupancy should improve operator profitability and rent coverage

# Demographic Tailwinds Expected to Drive Occupancy Growth For the Next 20 Years

The SNF industry has been battling with unfavorable demographics for more than a decade with the aging of the "baby bust" generation

Based on birth rates beginning in the 1940s and current SNF utilization information, we believe the industry is at the beginning of a 20+ year secular tailwind. This belief is based on:

1

Medicare utilization of SNFs materially increases from 75 years old

2

This utilization increases through their late 80s

3

"Baby boomers" started turning 75 in 2016

4

The age 75+ cohort will grow on both an absolute and relative basis through at least 2040 as the baby boomers replace the baby bust generation within the 75+ population

# Significant Increase in SNF Utilization by Those Aged 75+

SNF UTILIZATION BY AGE

AVERAGE SNF DAYS PER 1000 BENEFICIARIES BY AGE RANGE

# SNF Demand to Outstrip Supply by 2030

**1**  
Aging demographics should drive SNF occupancy beyond capacity in the next decade.

**2**  
Prudent incremental supply will create additional development growth opportunities.

6

Excellent  
Financials and  
Execution Track  
Record

# Proven Investment Strategy for Future Growth

- 1 Continue to pursue accretive transactions
- 2 Leverage existing 64 operator relationships
- 3 Invest primarily in current core markets
- 4 Maintain focus on senior care facilities
- 5 Use credit facility to make acquisitions and replenish availability with long-term debt and equity issuances
- 6 Proven ability to execute on strategies
- 7 Proven ability to handle troubled assets

# Ample Opportunity to Expand Portfolio

## SNF OWNERSHIP

 Omega

 Publicly Traded REITs

 Other

Even as the largest owner of SNFs, we still only own 5% of the market.

Given the accretion created from acquisitions, the fragmented ownership of SNFs provides a significant opportunity for further growth.

### **EXPECTATION:**

Double in size in the next 10 years

# 8

## Liquidity Structure & Credit Profile

# Effective Balance Sheet Management Provides Financial Flexibility

## CONSERVATIVE CAPITALIZATION

Debt to adjusted pro forma EBITDA ratio:

**5.27x**

## SIGNIFICANT LIQUIDITY

Availability under \$1.45B revolving credit facility:

**~\$1.09B**

(as of 3/31/2022)

Well-laddered debt maturities:

**No material maturities until 2023**

## FINANCIAL FLEXIBILITY

Minimal encumbered assets:

**4.6%**

Of gross real estate assets are encumbered

Funded Debt to TAV:

**49%**

(Determined pursuant to bond covenants)

Adjusted Fixed Charge Ratio >1.5x:

# Readily Accessible Capital Markets as a Seasoned Issuer

## Capital Markets Accessibility

# 9

## Commitment to ESG Principles

# Prudent and Responsible ESG Program

## STEWARDS OF THE ENVIRONMENT

**65%+**

Of Omega's development in the past five years has been built to LEED certification standards

Moved corporate HQ in 2017 to a LEED Silver-certified Building

Provide capital to support our tenants' energy-efficient CAPEX programs

## SOCIAL RESPONSIBILITY

One of 15 US REITs to be included in the 2022 Bloomberg Gender-Equity Index

Comprehensive Human Rights Policy shaped by UN's "Universal Declaration on Human Rights" & ILO's "Declaration on Fundamental Principles and Rights at Work"

Extensive employee support and development, including:

- Extremely competitive benefits program
- Financial support for continued employee training and education
- Philanthropic support including employee charitable donation matching program

## STRONG CORPORATE GOVERNANCE

### Independence

88% of directors are independent, including the Chairman

### Gender Diversity

38% of directors are female

### No Board Staggering

Voluntarily opted out of the Maryland Unsolicited Takeovers Act (MUTA), which would have allowed for staggering of the Board without shareholder approval
