INVESTOR
PRESENTATION

November 2023

Disclaimers; Forward-looking Statements and Non-GAAP Information

- This presentation may include projections and other “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements relate to future events and expectations and involve unknown risks and uncertainties. Omega’s actual results or actions may differ materially from those projected in the forward-looking statements. For a summary of the specific risk factors that could cause results to differ materially from those expressed in the forward-looking statements, see Omega’s filings with the Securities and Exchange Commission.
- This presentation may contain certain non-GAAP financial information including EBITDA, Adjusted EBITDA, Total Adjusted Debt (a/k/a, Funded Debt), Adjusted FFO, FAD, Total Cash Fixed Charges and certain related ratios. A reconciliation of these non-GAAP disclosures is available in our Quarterly Supplements posted on the Financial Information section of our website at <https://www.omegahealthcare.com/investors>. Other financial information is also available on our website.
- Information presented on operator revenue mix, census and coverage data is based on information provided by our operators for the indicated periods ended. We have not independently verified this information, and we are providing this data for informational purposes only. Information on operator coverage calculations can be found under “Portfolio Metrics” in our most recent quarterly supplement available at our Investor Relations website at www.omegahealthcare.com.
- Information is provided as of September 30, 2023, unless specifically stated otherwise. We assume no duty to update or supplement the information provided.
- The sourcing of all information provided in this presentation can be found starting on page 60.

Strategy that Supports Long-Term Shareholder Value Creation

COVID-19 Update

Impact

- 1** COVID-19 is particularly impactful to the old and frail, a key cohort of SNFs and Assisted Living Facilities (ALFs)
- 2** Staff at SNFs and ALFs have risked their health and the health of their families to protect residents
- 3** Operators implemented new and evolving protocols to limit the spread of COVID-19
- 4** Occupancy declined ~13% between February 2020 and January 2021
- 5** Expenses increased by as much as \$45 PPD from January of 2020 due to staffing and PPE

Response

- 1** Federal and many State governments provided significant and necessary relief to the industry
- 2** However, State relief has varied significantly, and Federal relief has slowed in the last 24 months
- 3** Many states have increased their Medicaid reimbursement rates to reflect increased cost pressures
- 4** CMS increased their Medicare FFS SNF rate by 4.0%, effective October 2023. This is net of the final 2.3% of the 4.6% PDPM claw back that was mandated in 2020.

Outcomes

- 1** Operators still face a difficult, albeit improving, environment
- 2** Expenses per patient day have eased but remain elevated compared to January of 2020, primarily due to higher staffing related costs
- 3** Occupancy has increased ~8% from the low in January of 2021
- 4** We collected ~93% of our 3Q23 contractual rent and mortgage payments from our operators.

COVID-19 Operator Update

As previously disclosed, Quarterly FAD per share decreased \$0.02 to \$0.68 in 3Q23. The decrease was primarily the result of LaVie, as expected, paying \$9 million less in cash rent in 3Q23 compared to 2Q23, and the impact of additional weighted-average shares; partially offset by higher-than-expected interest income. Consistent with the commentary provided on our November earnings call, we anticipate our 4Q23 FAD per share to approximate our \$0.67 dividend.

We continue to work diligently to resolve our outstanding operator issues. However, until we reach agreements with these operators, the ultimate resolution of these operator issues is unknown.

Furthermore, with many operators continuing to struggle with the impact of COVID-19 on both occupancy and staffing, there remains an elevated risk that additional operators may be unable to pay in accordance with their contractual terms.

For additional information, please refer to our 3rd Quarter 2023 Form 10-Q at www.omegahealthcare.com

What Will Happen Next Regarding COVID-19?

While Questions Remain ...

When will the pandemic end?

Will government financial support continue to be both sufficient and timely through the conclusion of this crisis?

How quickly will occupancy recover to pre-COVID-19 levels?

Will operator costs remain elevated for the foreseeable future due to increased infection control protocols?

If these costs occur, will they be covered by increased government reimbursement?

... We Have Confidence in the Future

Skilled nursing facilities still fulfill an essential need within the healthcare continuum

The secular tailwind of improving demographics will remain in place after this pandemic

Our relationship with our operators will be even stronger for having faced this pandemic together

2

Why Invest?

Investment Thesis

1

**Established,
Experienced and
Diversified**

2

**Consistent
Growth, High-Yield**

3

**Anchored
Operating Model**

4

**Strong
Balance Sheet
Management**

5

**Well Positioned to
Capitalize on
Future Growth**

Investment Thesis and Supporting Elements

1

Established, Experienced and Diversified

- Experienced and proven management team
- A diversified portfolio provides consistency
- Long leases and limited new supply provide clarity
- Quality operators bring patient care expertise

2

Consistent Growth, High-Yield

- Prudent fixed rent escalators provide tenant durability
- Strong dividend yield provides equity support
- Triple-net leases provide earnings dependability
- High margins provide superior yields

3

Anchored Operating Model

- A low cost, needs-based service offering provides security
- A stable discharge and reimbursement environment provides resiliency

4

Strong Balance Sheet Management

- A conservative balance sheet and well-laddered debt provides stability
- Significant liquidity provides flexibility
- Proven access to capital markets provides predictability

5

Well Positioned to Capitalize on Future Growth

- A growing aging population provides opportunity
- Leveraging existing operator relationships provides demand
- Acquisitions and development provide growth

Attractive Investment Opportunity

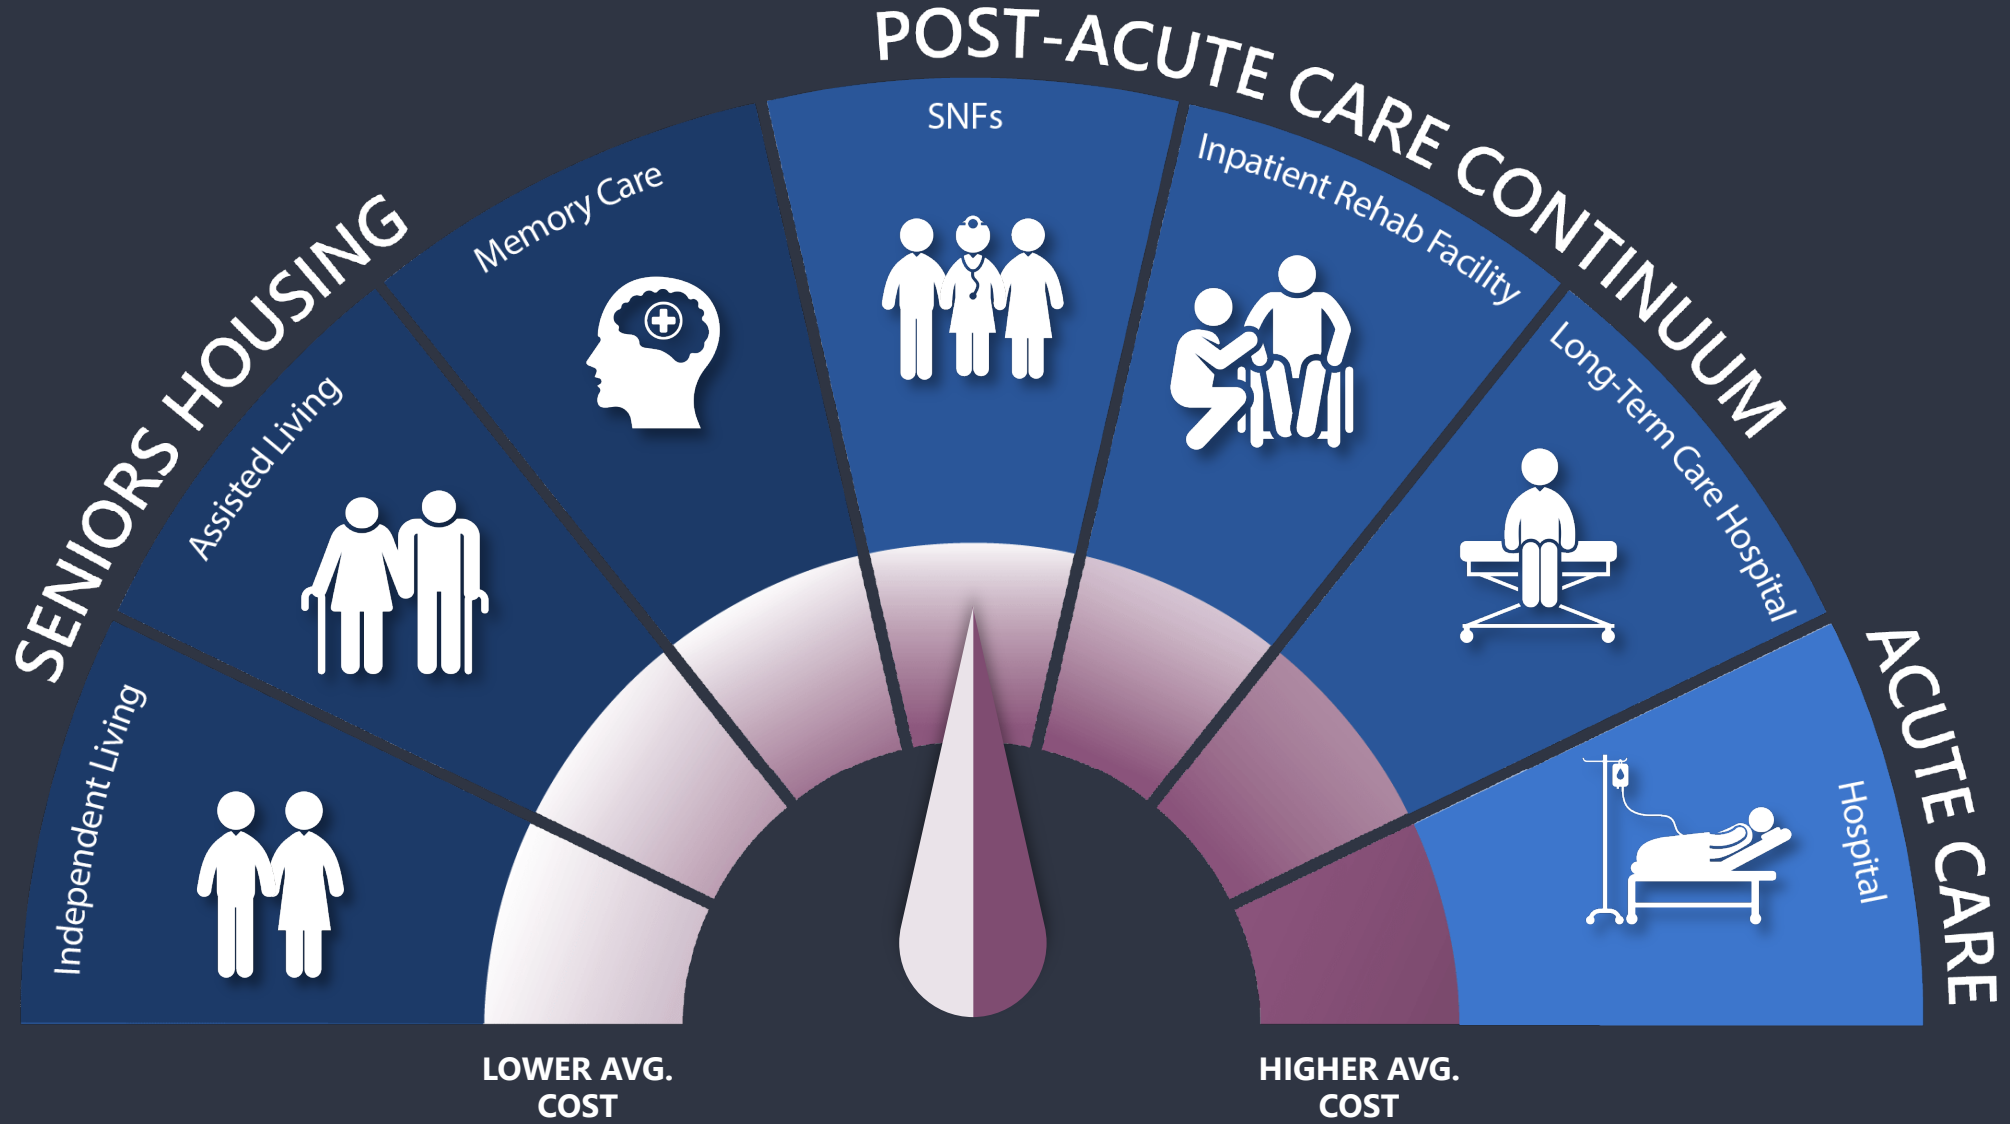

3

Skilled Nursing Facilities: What Makes it an Attractive Asset Class?

Skilled Nursing Facilities Meet an Essential Need

More Patients Are Discharged to Skilled Nursing Facilities Than to Any Other Type of Facility

MEDICARE FFS HOSPITAL DISCHARGE DESTINATIONS

Over the last decade, SNFs have consistently been the highest discharge destination

Lowest Cost Provider of Post-Acute 24-Hour Nursing Care

SNFs provide care for much higher acuity patients that can be handled in Senior Housing or Home Health settings – so hospital discharges to SNFs have held steady

AVG. COST PER DAY PER CARE SETTING

Skilled Nursing Facilities are Primarily Funded Through Medicare and Medicaid

Omega's Average Facility Statistics

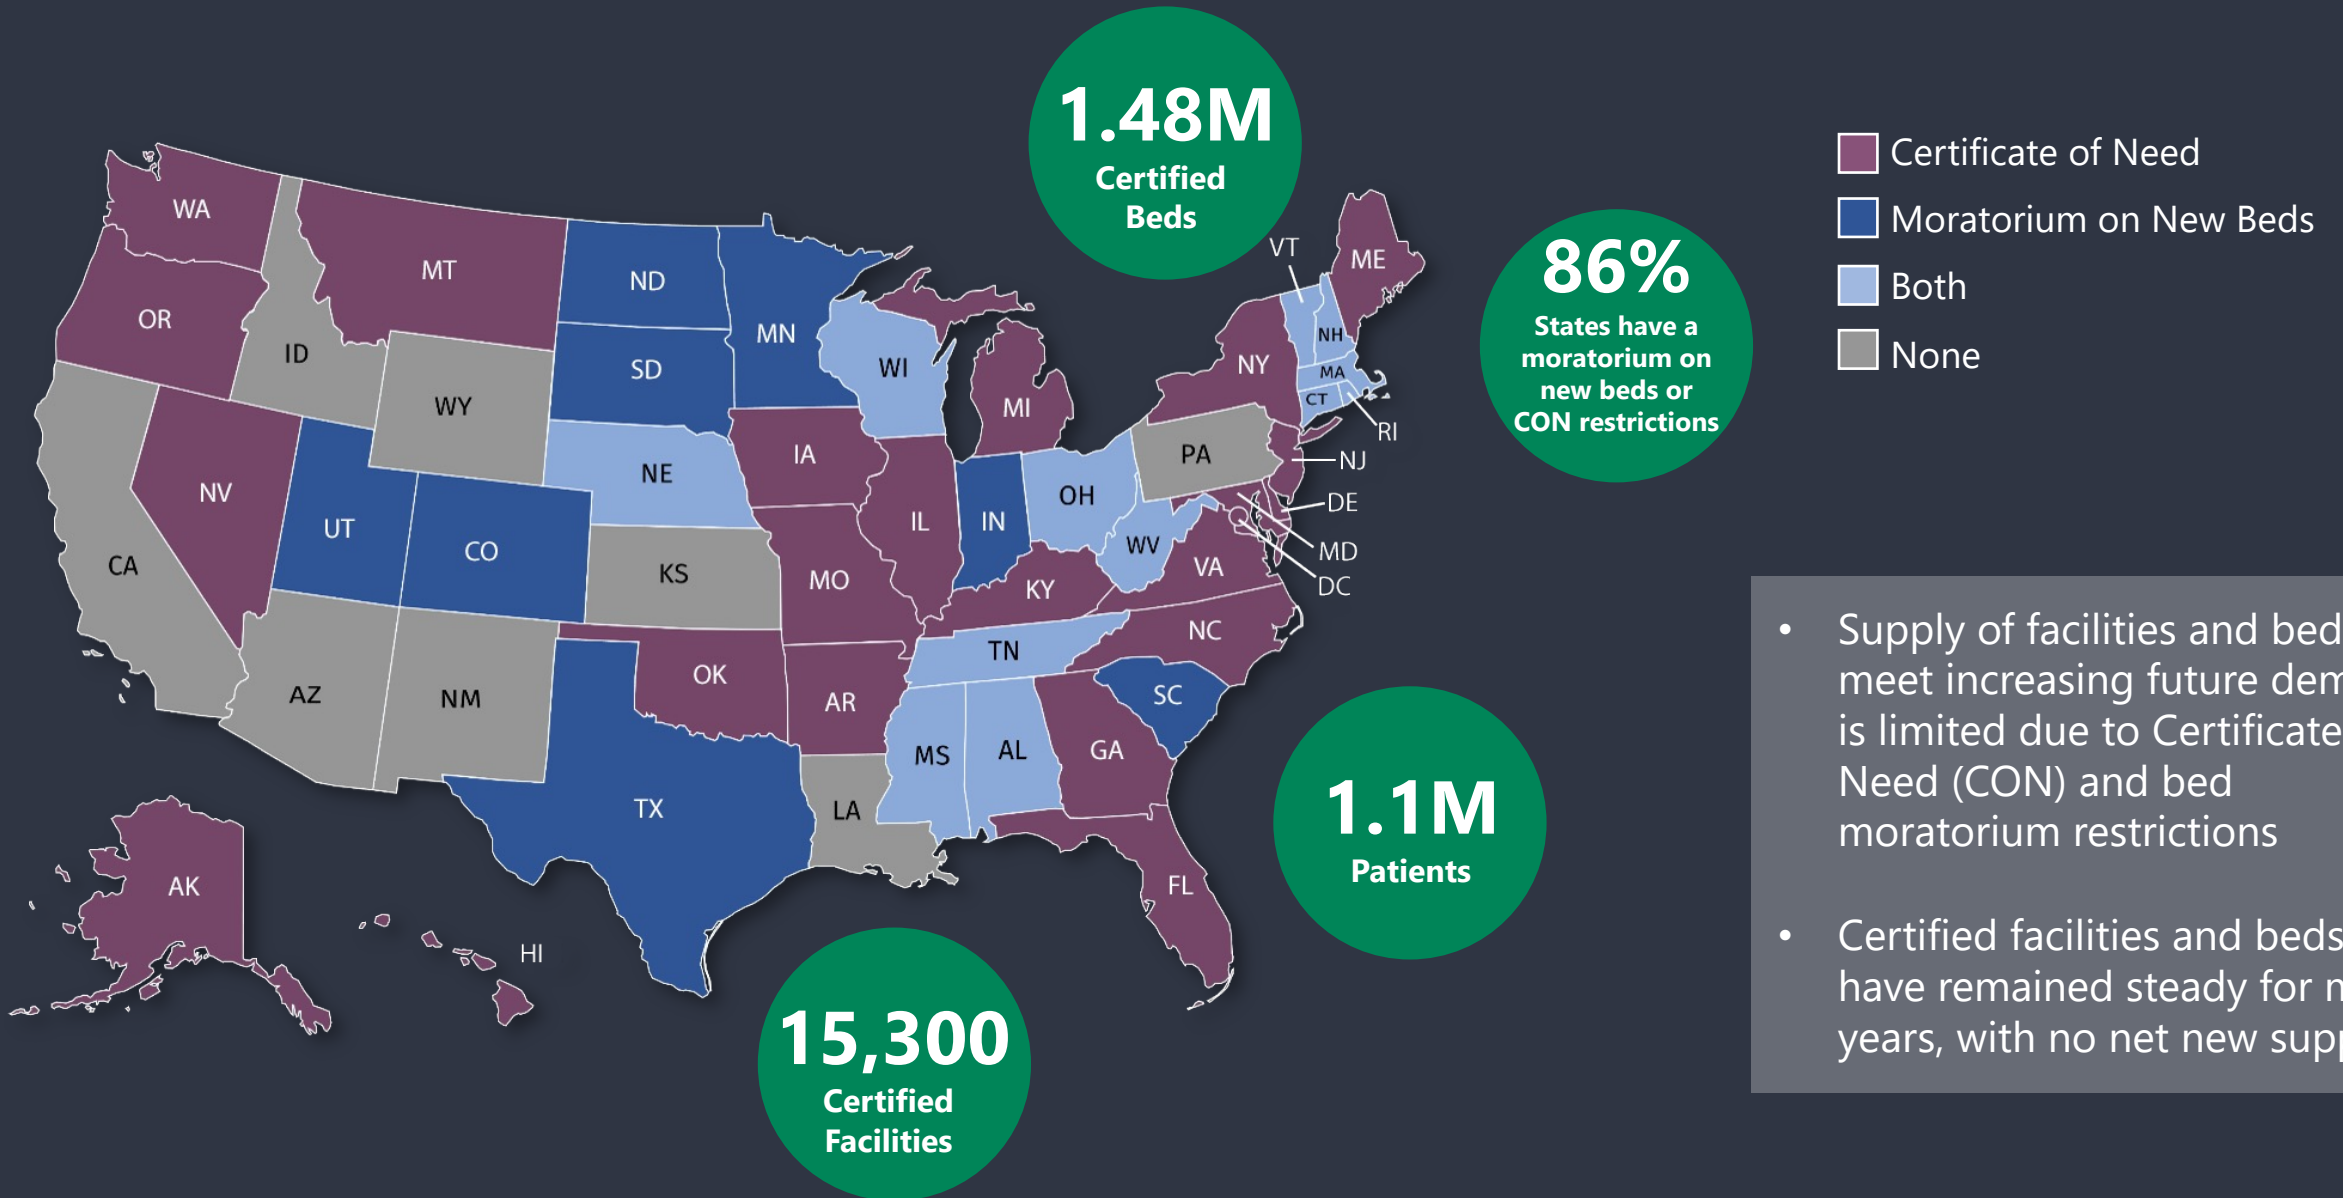

~100
Avg. Beds in Facility

78.6%
Occupancy

OPERATOR PAYOR MIX

Limited Supply Growth Due to Regulatory Restrictions

“Stroke-of-the-Pen” Risk Overstated

1

SNFs are a necessary part of the healthcare continuum

- Most patients are too sick to care for at home, even with home health support
- However, they do not require hospital care

2

Current reimbursement model aligned with patient care and operator efficiency

- Patient Driven Payment Model (PDPM) rewards quality of care and efficiency
- “Cost-plus” reimbursement model of the 1990s did not achieve this goal and was therefore modified

3

SNFs offer value for money

- SNFs represent the lowest cost post-acute healthcare setting
- Medicaid patients receive room, board and access to 24-hour healthcare for about \$240 a day on average

4

Efficient and lean business model

- SNFs are a low-margin business
- Reimbursement cuts could impact patient care. Not in anyone’s interests

5

Reliant on skilled operators

- Partnership between governments and private companies places care of aging populations in the hands of skilled operators
- Government prefers to regulate private operators to ensure high quality of care

6

Federal match encourages states to maintain levels of funding

- With such a high percentage of Medicaid patients needing care, states are required to provide funding
- Federal match discourages states from cutting funding to Medicaid

Highest Investment Yields Compared to Other Healthcare Real Estate Assets

Investment yields in SNFs have consistently been favorable to all other sectors

Average yield over the last five years:
9.3%

An architectural rendering of a modern, multi-story building. The building features a grid-like facade with large windows and balconies. The balconies are decorated with plants and flowers. The ground floor has large glass windows and a wooden slat facade. A rooftop terrace is visible, featuring a large tree with pink blossoms, several tables with chairs, and people sitting and talking. The scene is set during dusk or dawn, with warm lighting from the building's interior and exterior fixtures.

4

Strong Portfolio of Skilled Operators

Portfolio Overview

Long-term Triple Net Master Leases:
Operators are responsible for all property expenses

Texas	10.2%
Florida	8.9%
Indiana	6.9%
United Kingdom	6.5%
California	6.1%
Michigan	5.4%
Ohio	4.9%
Virginia	4.7%
North Carolina	4.4%
Pennsylvania	4.2%
Remaining States	37.8%

United Kingdom: An Attractive and Profitable Market

1 Highly Compelling Supply/Demand Dynamic:

Between 2012 and 2018, care home beds declined 1.5% while the population over 75 increased by 9.6%

2 Attractive Investment Yields:

Initial cash yields standardly 8%+ with annual escalators of ~2.5%

3 Public/Private Reimbursement Model:

Private pay augmented by needs-based local authority "top-ups" provides a balanced reimbursement system

4 Consolidation of a Fragmented Market:

The top 10 operators only have 22% of the beds in service. Our experienced operators provide an efficient and professionalized level of service to a fragmented industry

Triple-Net Leases Provide a Secure, Steady Source of Revenue

Long-term triple-net master leases with cross collateralization provisions

- Seek strong credit profiles
- Security deposits of generally 3 to 6 months
- Monthly reporting requirements

Expenses are generally operator's responsibility (insurance, property taxes, capital expenditures)

Omega receives fixed rent payment from tenants, with annual escalators

96%

Strong Returns Start with Strong Operators

Diversified Group of Operators

70% of all investments in the past five years have been with current operators

OPERATOR CONCENTRATION

Skilled Operators with Extensive Patient Expertise

Highly Reputable

Typically repeat business with strong relationships to local doctors and hospitals.

Highly Engaged

Over 80% of our operator businesses are privately owned and operated.

Highly Experienced

Our average operator has been in business/our tenant for over 10 years.

Geographic Experts

Over 85% of our operators specialize in 5 or fewer states. Deep understanding of state-specific regulatory guidelines.

Sophisticated care providers

Our operators take care of over 150,000 Medicare and 80,000 Medicaid patients annually.

Operators Continue to be Profitable

Since 2007, despite declining operator EBITDAR coverage across healthcare REITs, our operators continue to be profitable.

TTM Operator EBITDARM & EBITDAR Coverage

RECENT HEADWINDS

The Baby Bust

Average birth rate between 1928 and 1940 was 15% lower than prior decade. This smaller cohort drove lower occupancy in the past decade.

Migration to Medicare Advantage

In 2022, 47% of all Medicare beneficiaries were enrolled in Medicare Advantage plans, up from 24% in 2010. The resulting lower reimbursement rate and length of stay compounded occupancy headwinds.

Wage Pressures

Increasingly tight employment environment resulted in wage growth outpacing reimbursement growth since 2010.

Headwinds are moderating and demographic tailwinds should drive occupancy and operator performance going forward.

5

Benefits of Investing in Long-term Care

A Growing Aging Population Provides Opportunity

65+ Age Population

1

Aging Baby Boomers expected to drive a multi-decade increase in demand for SNFs

2

44% projected increase in Adults 65+ in the next 20 years

3

Increasing occupancy should improve operator profitability and rent coverage

Demographic Tailwinds Expected to Drive Occupancy Growth For the Next 20 Years

The SNF industry has been battling with unfavorable demographics for more than a decade with the aging of the "baby bust" generation

Based on birth rates beginning in the 1940s and current SNF utilization information, we believe the industry is at the beginning of a 20+ year secular tailwind. This belief is based on:

1 Medicare utilization of SNFs materially increases from 75 years old

2 This utilization increases through their late 80s

3 "Baby boomers" started turning 75 in 2016

4 The age 75+ cohort will grow on both an absolute and relative basis through at least 2040 as the baby boomers replace the baby bust generation within the 75+ population

Significant Increase in SNF Utilization by Those Aged 75+

SNF UTILIZATION BY AGE

AVERAGE SNF DAYS PER 1,000 BENEFICIARIES BY AGE RANGE

SNF Demand Estimated to Outstrip Supply by 2030

1
Aging demographics should drive SNF occupancy beyond capacity in the next decade.

2
Prudent incremental supply will create additional development growth opportunities.

Proven Investment Strategy for Future Growth

- 1 Continue to pursue accretive transactions
- 2 Leverage existing 65 operator relationships
- 3 Invest primarily in current core markets
- 4 Maintain focus on senior care facilities
- 5 Use credit facility to make acquisitions and replenish availability with long-term debt and equity issuances
- 6 Proven ability to execute on strategies
- 7 Proven ability to handle troubled assets

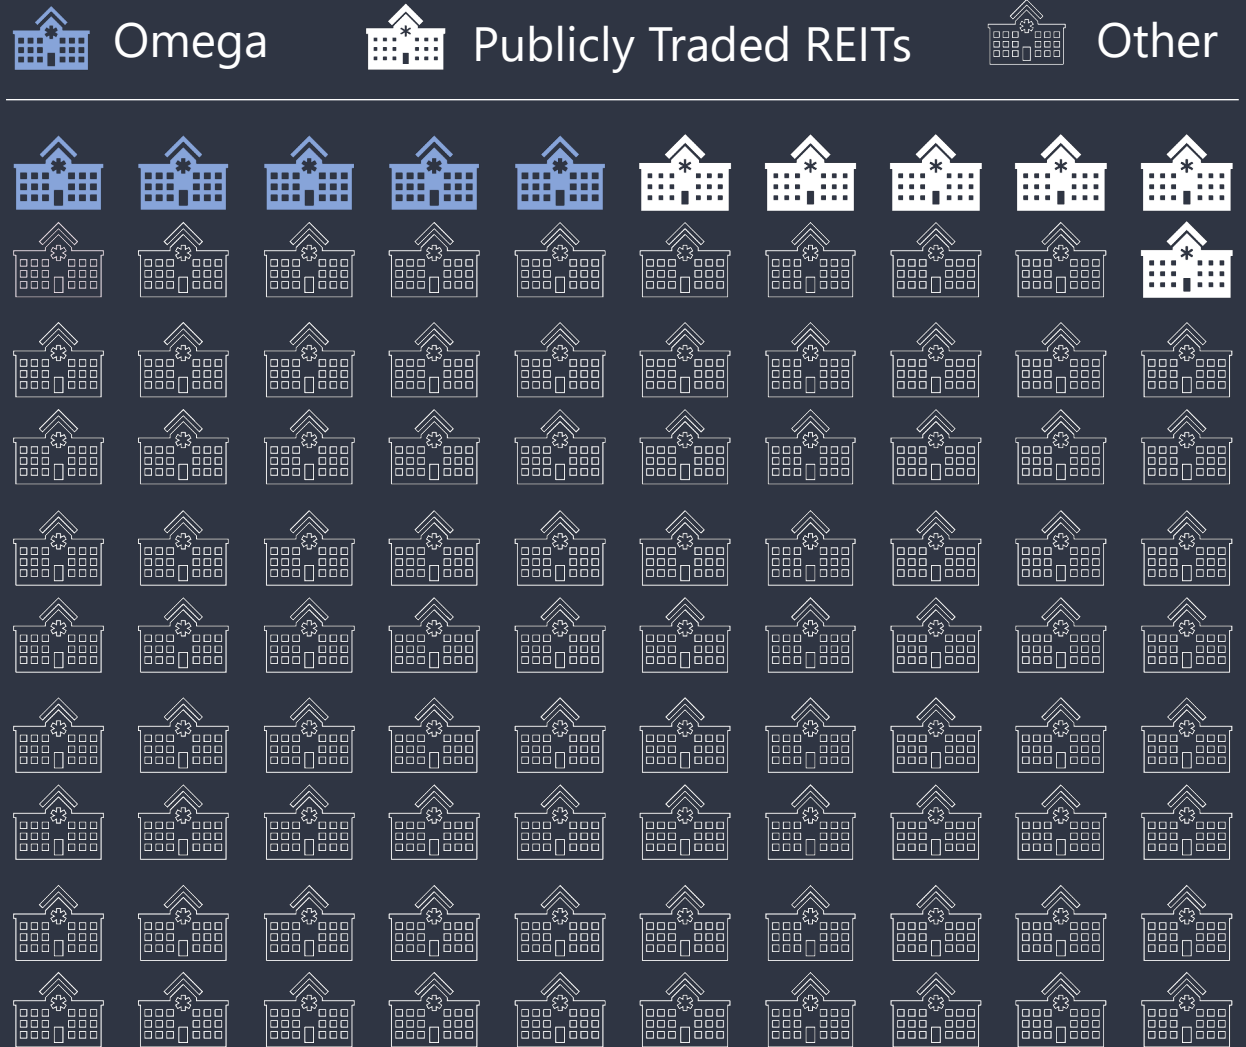

Ample Opportunity to Expand Portfolio

SNF OWNERSHIP

Even as the largest owner of SNFs, we still only own 5% of the market.

Given the accretion created from acquisitions, the fragmented ownership of SNFs provides a significant opportunity for further growth.

EXPECTATION:
Double in size in the next 10 years
