Herbalife Nutrition Announces Preliminary Results of Self-Tender Offer

LOS ANGELES--(BUSINESS WIRE)-- Herbalife Nutrition Ltd. (NYSE: HLF) (“Herbalife Nutrition” or “the Company”) announced today the preliminary results of its “modified Dutch auction” tender offer, which expired at 5:00 P.M., New York City time, on Thursday, May 24, 2018, to purchase up to an aggregate of \$600 million of the Company’s common shares at a cash purchase price not greater than \$54.00 nor less than \$49.00 per share.

Based on the preliminary count by Computershare Trust Company, N.A., the Depositary for the tender offer, a total of approximately 49.7 million common shares of the Company were properly tendered and not properly withdrawn at or below the price of \$52.50 per share.

In accordance with the terms and conditions of the tender offer and based on a preliminary count by the Depositary, the Company expects to accept for payment a total of approximately 11.4 million common shares of the Company at a cash purchase price of \$52.50 per share, for a total cash cost of approximately \$600 million, excluding fees and expenses relating to the tender offer. These common shares represent approximately 6.5% of the Company’s total outstanding shares as of May 23, 2018.

The Company anticipates to fund the share purchase in the tender offer from the \$1,300.0 million term loan under its \$1,450.0 million senior secured credit facility entered into on February 15, 2017, cash on hand, or drawings under its \$150.0 million revolving credit facility.

Because the tender offer is oversubscribed, the Company expects to purchase only a prorated portion of the common shares properly tendered by each tendering shareholder (other than “odd lot” holders whose shares will be purchased on a priority basis) at the final per share purchase price. Based on the preliminary tender count, and accounting for the effect of “odd lot” priority on the proration factor, the Depositary has informed the Company the preliminary proration factor for the tender offer is expected to be approximately 23% of the shares properly tendered at or below the cash purchase price of \$52.50 per share and not properly withdrawn based on the total number of shares reported to be tendered at or below \$52.50 per share and not withdrawn prior to the expiration of the tender offer and accounting for “odd lot” priority and the conditional tender provisions of the tender offer. This preliminary proration factor is subject to change.

The number of shares expected to be purchased in the tender offer, the cash purchase price per share, and the aggregate cash purchase price are preliminary and subject to change. The final number of shares to be purchased in the tender offer, the final cash purchase price per share, and the final aggregate cash purchase price will be announced following the completion of the confirmation process by the Depositary. Payment for the shares accepted for purchase pursuant to the tender offer will occur promptly thereafter.

The Company's tender offer was made pursuant to an Offer to Purchase and Letter of Transmittal, each dated April 18, 2018, and as amended April 27, 2018, and May 16, 2018.
