Heat Biologics to Present at 29th Annual ROTH Conference

DURHAM, N.C., March 09, 2017 (GLOBE NEWSWIRE) -- [Heat Biologics, Inc.](http://www.heatbio.com) ("Heat") (Nasdaq:HTBX), a leader in the development of immunotherapies designed to activate a patient's immune system against cancer, announced that Jeff Wolf, Heat's Founder and Chief Executive Officer, will present at the 29th Annual ROTH Conference in Newport Beach, CA on Monday, March 13, 2017, at 5:30 p.m. Pacific Time.

The link to the live audio webcast and replay of the presentation may be accessed on Heat's corporate website at <http://ir.heatbio.com/events-presentations>. The webcast will be archived on the company's website for a period of three months.

About Heat Biologics, Inc.

Heat Biologics, Inc. (Nasdaq:HTBX) is an immuno-oncology company developing novel therapies that are designed to activate a patient's immune system against cancer utilizing an engineered form of gp96, a protein that activates the immune system when cells die. Heat's highly specific T cell-stimulating therapeutic vaccine platform technologies, *ImPACT* and *ComPACT*, in combination with other therapies, such as checkpoint inhibitors, are designed to address three distinct but synergistic mechanisms of action: robust activation of CD8+ "killer" T cells (one of the human immune system's most potent weapons against cancer); reversal of tumor-induced immune suppression; and T cell co-stimulation to further enhance patients' immune response. Currently, Heat is conducting a Phase 1b trial with HS-110 (viagenpumatucl-L) in combination with an anti-PD-1 checkpoint inhibitor to treat patients with non-small cell lung cancer (NSCLC) and a Phase 2 trial with HS-410 (vesigenurtacel-L) in patients with non-muscle invasive bladder cancer (NMIBC).

Heat's wholly-owned subsidiary, Zolovax, Inc., is developing therapeutic and preventative vaccines to treat infectious diseases based on Heat's gp96 vaccine technology, with a current focus on the development of a Zika vaccine in conjunction with the University of Miami.
