Cautionary Statement

- Forward-Looking Statements. Outlooks, expectations, forecasts, estimates, targets, business plans, and other statements of future events or conditions in this presentation or the subsequent discussion period are forward-looking statements. Actual future results, including financial and operating performance; demand growth and mix; ExxonMobil’s volume/production growth and mix; the amount and mix of capital expenditures; resource additions and recoveries; finding and development costs; project plans, timing, costs, and capacities; drilling programs; product sales and mix; dividend and share purchase levels; cash and debt balances; corporate and financing expenses; and the impact of technology could differ materially due to a number of factors. These include changes in oil or gas prices or other market conditions affecting the oil, gas, and petrochemical industries; the occurrence and duration of economic recessions; reservoir performance; the outcome of exploration; timely completion of development projects; war and other political or security disturbances; changes in law or government regulation, including sanctions as well as tax and environmental regulations; the outcome of commercial negotiations; opportunities for investments or divestments that may arise; the actions of competitors and customers; unexpected technological developments; unforeseen technical difficulties; and other factors discussed here and under the heading "Factors Affecting Future Results" in the Investors section of our Web site at exxonmobil.com. See also Item 1A of ExxonMobil’s 2013 Form 10-K. Forward-looking statements are based on management’s knowledge and reasonable expectations on the date hereof, and we assume no duty to update these statements as of any future date.

- Frequently Used Terms. References to resources, barrels of oil, volumes of gas and liquids, and similar terms include quantities that are not yet classified as proved reserves under SEC definitions but that we believe will likely be developed and moved into the proved reserves category in the future. Shareholder distributions referred to in this presentation mean cash dividends plus shares purchased to reduce shares outstanding (excluding anti-dilutive purchases). For definitions and more information regarding resources, reserves, return on average capital employed, cash flow from operations and asset sales, free cash flow, and other terms used in this presentation, including information required by SEC Regulation G, see the "Frequently Used Terms" posted on the Investors section of our Web site. The Financial and Operating Review on our Web site also shows ExxonMobil's net interest in specific projects.

- The term ‘project’ as used in this presentation can refer to a variety of different activities and does not necessarily have the same meaning as in any government payment transparency reports.
