KORU Medical Announces Collaboration With Gilero to Accelerate Innovation

CHESTER, N.Y.--(BUSINESS WIRE)-- **Repro Med Systems, Inc. dba KORU Medical Systems (NASDAQ: KRMD) ("KORU Medical" or the "Company")**, a leading medical technology company focused on the development, manufacturing and commercialization of innovative and easy-to-use home infusion solutions, today announced its collaboration with Gilero, a medical device design and manufacturing company. Gilero offers unparalleled engineering and manufacturing solutions and has been a trusted partner for medical and drug delivery device companies for 20 years. The collaboration is part of KORU Medical's strategic focus on innovation as the Company expands and evolves its at-home infusion products and portfolio.

"As KORU Medical seeks to advance our leadership position in large volume subcutaneous infusion technology, we are increasing our innovation efforts to meet the needs of patients, providers, biopharmaceutical companies, and regulators. This collaboration with Gilero, a company we chose due to their substantial expertise in infusion and combination drug/device platforms, will accelerate our product and service innovation efforts," said Linda Tharby, KORU Medical's Chief Executive Officer. "We will continue to focus our product development efforts on increasing comfort and convenience in the patient infusion process as we look to support the needs of a growing trend to home infusion."

"Gilero is pleased to have been selected as the preferred contract engineering firm for KORU Medical [Systems]," said Ted Mosler, CEO and Founder of Gilero. "Our broad service offerings, including in-house human factors, validation testing, and concept design engineering, coupled with our expertise related to complex drug delivery systems, allow us to provide a turnkey solution for KORU Medical as they continue to expand their line of home infusion products. The team at Gilero is looking forward to working closely with KORU Medical."

About Gilero

Gilero offers end-to-end services in design, development and contract manufacturing in the medical device and drug delivery/combination product markets. With an expanding global footprint, Gilero utilizes industry experience and in-house talent to design, develop and manufacture everything from consumable medical devices to complex electromechanical drug delivery systems.

About KORU Medical Systems
