

BlackSky Wins EMDYN Subscription Contract to Deliver On-Demand Gen-2 Space-Based Imagery Services to International Government Customers

Agreement enables ability to set up automated tip-and-cue tasking and the fusing of signals and other intelligence sources through BlackSky Spectra® to support tactical ISR operations

HERNDON, Va.--(BUSINESS WIRE)-- BlackSky Technology Inc. (NYSE: [BKSY](#)) won a multi-year contract with geospatial intelligence fusion company EMDYN (Emerging Dynamics) to deliver space-based imagery services to international customers. The agreement gives international ministries of defense the ability to set up API-enabled automated tip-and-cue tasking and the fusing of signals and other intelligence sources to support real-time tactical operations.

“BlackSky and EMDYN’s combined services will bring space and terrestrial data together for on-demand insights at scale, while a mission is ongoing,” said Brian E. O’Toole, BlackSky CEO. “These unique AI-driven services will reduce end-to-end latency across the entire tasking-to-dissemination process.”

“[EMDYN Platform](#) was fully developed in-house to meet the growing intelligence challenges in an increasingly unstable world,” said Tim Van Renterghem, EMDYN founder and CEO. “Integrating BlackSky satellite imagery into EMDYN Platform adds a powerful real-time dimension that empowers analysts to derive accurate, actionable intelligence much faster.”

BlackSky achieves industry-leading speed through constellation design and a dedication to end-to-end AI-driven system automation. With rapid, hourly revisit rates, the BlackSky Spectra® tasking and analytics platform delivers time-diverse imagery and analytics up to 15 times per day, dawn-to-dusk, providing decision-quality data directly to those who need it most—from senior leaders to those in the field.

About BlackSky

BlackSky is a real-time, space-based intelligence company that delivers on-demand, high frequency imagery, analytics, and high-frequency monitoring of the most critical and strategic locations, economic assets, and events in the world. BlackSky owns and operates one of the industry’s most advanced, purpose-built commercial, real-time intelligence system that combines the power of the BlackSky Spectra® tasking and analytics software platform and our proprietary low earth orbit satellite constellation.

With BlackSky, customers can see, understand and anticipate changes for a decisive strategic advantage at the tactical edge, and act not just fast, but first. BlackSky is trusted by

some of the most demanding U.S. and international government agencies, commercial businesses, and organizations around the world. BlackSky is headquartered in Herndon, VA, and is publicly traded on the New York Stock Exchange as BKSJ. To learn more, visit www.blacksky.com and follow us on [X \(Twitter\)](#).

About EMDYN

EMDYN helps organizations to better understand the threats they face by turning data into actionable intelligence, safeguarding vital assets and supporting critical decision making. We major in location intelligence and geospatial intelligence fusion through EMDYN Platform, integrating multi-source data in a single application to provide unparalleled insights into situations, events or patterns of movement. We empower analysts to drive faster and smarter critical decision making, finding vital connections that might otherwise be lost.

EMDYN Platform is a modern, future-proof solution that is especially relevant to anyone working in intelligence and security services who requires up to date information to plan current operations and predict future possibilities. Delivering reliability and speed, EMDYN Platform is built from the ground up to be future-proof, bringing together a wide variety of data sources, commercial and customer specific, plus allowing sensor data integration. EMDYN offers modern, proven technology to help clients stay ahead of the curve, working towards a safer, more secure world. To learn more, visit www.emdyn.com.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the federal securities laws with respect to BlackSky. These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. Forward-looking statements are predictions, projections, and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this document, including but not limited to: (i) the ability to implement business plans, forecasts, and other expectations, (ii) achieve anticipated revisit rates and maintain current launch schedules, and (iii) our ability to predict and respond to customer trends. The foregoing list of factors is not exhaustive and is based on information available as of the date of this communication, and current expectations, forecasts and assumptions, and involve a number of judgments, risks and uncertainties. If any of these risks materialize or underlying assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that we do not presently know, or that we currently believe are immaterial, that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect our expectations, plans, or forecasts of future events and views as of the date of this communication. We anticipate that subsequent events and developments will cause their assessments to change. Accordingly, forward-looking statements should not be relied upon as representing our views as of any subsequent date, and we do not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date they were made, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. Additional risks and uncertainties are identified and discussed in reports filed with the SEC, including within the

section titled "Risk Factors" on BlackSky's registration statement on Form S-1, and available at the SEC's website at <http://www.sec.gov>.
